University of Utah, Department of Pharmaceutics Undergraduate Summer Research Internships (Funded). (Link to the program website)
Applications for funded summer internships at the University of Utah Department of Pharmaceutics and Pharmaceutical Chemistry are open now. The internship takes place in Salt Lake City, Utah for 10 weeks from June-August 2021.

Eligibility and Benefits:
Undergraduate students majoring in science and engineering at US-based institutions who are in their second or third year of studies are eligible to apply. Four students will be chosen through a competitive process. The selected students will receive a stipend and will be mentored by a faculty with expertise in pharmaceutics and drug delivery in a world class research environment.

Goal of the program:
The goal of this program is to provide an opportunity for undergraduate students to perform a supervised, but independent research activity early during their studies. Research areas in the department include drug delivery, gene therapy, cell-based delivery, immunotherapeutics and vaccines, precision medicine, and theranostics. As part of this program, we will also organize social activities including hiking and BBQ.

Financial Coverage:
The selected students will be provided with $15 per hour at 40 hours a week for 10 weeks to cover living expenses. Accommodation and travel expenses are not covered.

Selection Process:
Applicants are required to submit the following documents through the online application system before the deadline:
1. PHCEU summer internship online application form
2. Academic transcript (minimum GPA:3 is required)
3. A brief letter of interest explaining their background, research experience and future career plans
4. Updated Curriculum Vitae
5. Two letters of recommendation, completed by the referees and sent directly to the program director.
6. A list of 3 research laboratories from the department ranked in order of preference

The application files will be studied by a selection committee, and the most promising candidates will be chosen for the program. The selected candidates will be notified via email within 4 weeks after the deadline. For more information please contact the program director paris.jafari@utah.edu and refer to the program home page.
