

# FUNDED UNDERGRADUATE SUMMER RESEARCH INTERNSHIPS

## University of Utah Department of Pharmaceutics and Pharmaceutical Chemistry

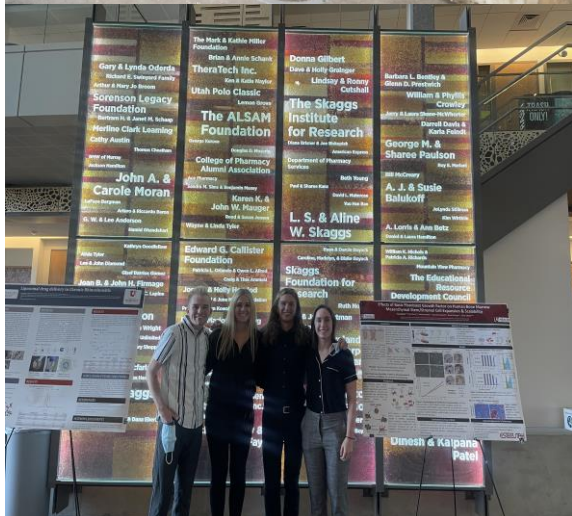

**Applications** for funded summer internships at the University of Utah Department of Pharmaceutics and Pharmaceutical Chemistry are open now. The internship takes place in Salt Lake City, Utah for 10 weeks from June-August 2022. The selected students will be mentored by a faculty with expertise in pharmaceutics and drug delivery.

**Interested** in drug delivery, gene therapy, cell-based delivery, immunotherapeutics and vaccines, precision medicine, and theranostics? Join our **Program** to experience cutting-edge research in an incredibly dynamic and motivated environment of faculty, senior and junior researchers and students!

**Stipend for internship, housing and expenses!**

**Full eligibility criteria and application instructions available at [our program website](#).** For more information please contact the program director [paris.jafari@utah.edu](mailto:paris.jafari@utah.edu).

**Applications due March 15, 11:59PM MT**
