The University of Utah College of Pharmacy Professional Program is accredited by the Accreditation Council for Pharmacy Education (ACPE), 190 S. LaSalle Street, Suite 2850, Chicago, Illinois 60603-3499, (312) 664-3575, (800) 533-3606.
Welcome Message

With great pleasure, we welcome you to the College of Pharmacy! Your pharmacy education will be an important milestone in the course of your life. We appreciate your choice in the College to begin your professional journey. The University of Utah College of Pharmacy is a leading institution in the United States, and globally, for pharmacy education, research, and clinical care. With the generosity and philanthropy of the L.S. Skaggs Family and ALSAM Foundation, the College of Pharmacy is located in a world-class facility for education and biopharmaceutical research.

Facilitating your journey, the College faculty is comprised of highly accomplished persons from all over the world. The student to faculty ratio is one of the lowest of any College of Pharmacy in the United States, and results in a personalized educational experience for our students. As a student, you will engage with research scientists and clinical practitioners who are at the top of their field.

Graduates from the College of Pharmacy Doctor of Pharmacy Program are highly sought by employers and post-graduate pharmacy training programs, and perform very well on national licensing examinations. The College fosters a thoughtful and respectful learning environment where students can be challenged to think critically, and creatively to solve problems and deliver safe and effective health care. The College of Pharmacy curriculum is intentionally designed to instill professionalism, and enable students to maximize pharmaceutical outcomes and promote the wellbeing and health of individual patients, as well as the wellbeing and health of patient populations.

Again, welcome to the beginning of your professional journey and education in the University of Utah College of Pharmacy.

Randall T. Peterson, PhD
Dean

James N. Herron, PhD
Executive Associate Dean for Professional Education

I. INTRODUCTION

COLLEGE OF PHARMACY MISSION, VISION, AND VALUES

Mission Statement

The University of Utah College of Pharmacy supports the missions of the University of Utah and the University of Utah Health Sciences Center. The Mission of the University of Utah College of Pharmacy is to:

- advance health care related to optimal medication outcomes through education and training;
- discover, develop, and disseminate new biomedical knowledge and technology; and,
- provide pharmacy-based services and outreach activities to the community.

Vision Statement

The Vision of the University of Utah College of Pharmacy is to become recognized globally as the premier college of pharmacy through inter-professional collaboration and interdisciplinary-based lifelong learning, research, and patient care.

Value Statement

Academic excellence will be pursued in an environment that respects the individual, instills integrity and professionalism, assures ethical behavior, promotes diversity, creates a desire for life-long learning, and recognizes the principle of academic freedom.
Goals of the Professional Curriculum

- Prepare pharmacists in a research-intensive, academic health center to be exemplary professionals who enable progress in healthcare by incorporating biomedical research advances into practice, serve as medication experts, and who advocate for and defend the public health.
- To educate and train clinical-scientists and clinician-educators to be effective leaders in academic pharmacy.

Outcomes of the Professional Curriculum

Graduates of the University of Utah Doctor of Pharmacy Program will be able to optimize patient-centered and population-based care in a variety of practice settings. Graduates shall be able to:

- Apply fundamental scientific, analytic, and problem-solving skills to all areas of pharmacy practice
- Communicate effectively in both verbal and written formats
- Work collaboratively on healthcare teams
- Base patient care/practice decisions on sound science and best evidence
- Foster respectful and inclusive professional relationships
- Follow the principles of the Pharmacists’ Patient Care Process
- Apply medication safety and quality-improvement principles to pharmacy practice
- Manage medication-use systems
- Promote public health and wellness
- Practice in an ethical, culturally aware, and professional manner
- Demonstrate a commitment to continuous professional development and leadership
DOCTOR OF PHARMACY PROGRAM

Introduction

The Doctor of Pharmacy is a professional pharmacy degree offered through the University of Utah Graduate School and the College of Pharmacy. Students are admitted into the Doctor of Pharmacy (PharmD) Program by the Graduate School upon recommendation of the College of Pharmacy Admissions Committee. The PharmD Program is administered by the College of Pharmacy through the Dean’s Office.

The PharmD Program integrates didactic course work and experiential education enabling each student to build the foundation necessary to provide pharmaceutical care to patients throughout their professional careers. The concepts and philosophy of patient-oriented pharmaceutical care and Pharmacists Patient Care Process (PPCP) in interdisciplinary health care systems are pedagogical hallmarks of the program.

Students acquire advanced knowledge and skills in the pharmaceutical sciences enabling them to practice effectively on interdisciplinary health care teams, promote rational therapeutic decision making in various health care settings, provide drug information to patients and health professionals, conduct drug usage evaluations, and participate in drug management decisions. Experiential rotations provide training in general and specialized practice sites within hospitals, ambulatory clinics and other health care institutions, as well as in various community settings.

Students gain understanding of how a clinical pharmacy service integrates within health care delivery and other health care services. Students learn how to promote effective wellness, and disease prevention services and health policy. The knowledge and clinical skills acquired during the Program enable graduates to design and implement innovative, therapeutically-effective and cost-effective pharmaceutical care for their patients. Students also learn skills to effectively communicate with other health care professionals and patients to assure their patients receive high quality health care.

General Blueprint of the Doctor of Pharmacy Program

**Didactic** = structured lecture/presentation style teaching & learning; “classroom learning”

**IPPE** = Introductory Pharmacy Practice Experience; “experiential learning”

**APPE** = Advanced Pharmacy Practice Experience; “experiential learning”
Electives = Career specialization courses
Professional Development = progressive training and education toward improving professional skills

Please understand that the curriculum as outlined in this manual is subject to change.

Accreditation Council for Pharmacy Education (ACPE)

The College of Pharmacy is fully accredited with the Accreditation Council for Pharmacy Education (ACPE). ACPE is responsible to the US Department of Education to establish and supervise the delivery of pharmacy education in the United States. The full scope of accreditation requirements can be reviewed at: https://www.acpe-accredit.org/

Selected accreditation elements that are key to student outcomes, include:

1.1 Foundational Knowledge
The graduate is able to develop, integrate, and apply knowledge from the foundational sciences (i.e., biomedical, pharmaceutical, social / behavioral / administrative, and clinical sciences) to evaluate the scientific literature, explain drug action, solve therapeutic problems, and advance population health and patient-centered care.

2.1 Patient Centered-Care
The graduate is able to provide patient-centered care as the medication expert (collect and interpret evidence, prioritize, formulate assessments and recommendations, implement, monitor and adjust plans, and document activities).

2.2 Medication Use Systems Management
The graduate is able to manage patient healthcare needs using human, financial, technological, and physical resources to optimize the safety and efficacy of medication use systems.

2.3 Health and Wellness
The graduate is able to design prevention, intervention, and educational strategies for individuals and communities to manage chronic disease and improve health and wellness.

2.4 Population-Based Care
The graduate is able to describe how population-based care influences patient-centered care and the development of practice guidelines and evidence-based best practices.

3.1 Problem Solving
The graduate is able to identify problems; explore and prioritize potential strategies; and design, implement, and evaluate a viable solution.

3.2 Education
The graduate is able to educate all audiences by determining the most effective and enduring ways to impart information and assess learning.

3.3 Patient Advocacy
The graduate is able to represent the patient’s best interests.

3.4 Interprofessional Collaboration
The graduate is able to actively participate and engage as a healthcare team member by demonstrating mutual respect, understanding, and values to meet patient care needs.

3.5 Cultural sensitivity
The graduate is able to recognize social determinants of health to diminish disparities and inequities in access to quality care.

3.6 Communication
The graduate is able to effectively communicate verbally and non-verbally when interacting with individuals, groups, and organizations.

The graduate is able to effectively communicate verbally and non-verbally when interacting with individuals, groups, and organizations.
<table>
<thead>
<tr>
<th></th>
<th><strong>4.1 Self-awareness</strong></th>
<th>The graduate is able to examine and reflect on personal knowledge, skills, abilities, beliefs, biases, motivation, and emotions that could enhance or limit personal and professional growth.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>4.2 Leadership</strong></td>
<td>The graduate is able to demonstrate responsibility for creating and achieving shared goals, regardless of position.</td>
</tr>
<tr>
<td></td>
<td><strong>4.3 Innovation and Entrepreneurship</strong></td>
<td>The graduate is able to engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals.</td>
</tr>
<tr>
<td></td>
<td><strong>4.4 Professionalism</strong></td>
<td>The graduate is able to exhibit behaviors and values that are consistent with the trust given to the profession by patients, other healthcare providers, and society.</td>
</tr>

NONDISCRIMINATION & ACCESSIBILITY STATEMENT

The University of Utah does not discriminate on the basis of race, ethnicity, color, religion, national origin, sex, pregnancy, pregnancy-related conditions, age, disability, sexual orientation, gender identity, gender expression, genetic information or protected veteran’s status, in employment, treatment, admission, access to educational programs and activities, or other University benefits or services. Additionally, the University endeavors to provide reasonable accommodations and to ensure equal access to qualified persons with disabilities.

The University does not discriminate on the basis of sex in the education program or activity that it operates, as required by Title IX and 34 CFR part 106. Inquiries about the application of Title IX and its regulations may be referred to the Title IX Coordinator, to the Department of Education, Office for Civil Rights, or both.

Where discrimination is found to have occurred, the University will take reasonable steps to investigate the matter, stop the harassment, prevent its recurrence and remedy its effects. If you or someone you know has experienced discrimination, sexual misconduct including sexual harassment, or disability discrimination, we encourage you to report it to the University's designated and authorized Title IX/ADA/Section 504 Coordinator in the Office of Equal Opportunity and Affirmative Action: Evidence of practices not consistent with these policies should be reported to the Office of Equal Opportunity and Affirmative Action, 581-8365 (voice or TDD).

The University of Utah seeks to provide equal access to its program, services and activities for people with disabilities. If you will need accommodations in the class, reasonable prior notice needs to be given to the Center for Disability Services, 162 Olin Union Building, 581-5020 (V/TDD). CDS will work with you and the instructor to make arrangements for accommodations. Students with disabilities should contact the Executive Associate Dean for Professional Education in addition to CDS to arrange for reasonable accommodations in professional core and elective courses.
FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

Student records at the University of Utah are governed by the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99). FERPA is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

The act forbids the university from releasing personal identifiable student educational records or files, or personal information contained in those files, without the student's written consent, except in specified situations.

The act extends to students and former students of the University the "right to inspect and review" their educational records. The University has established procedures for granting a student's request for access to his/her records within a reasonable time (no more than 45 days). Educational records do not include sole possession notes held privately by faculty and other academic staff.

Additional information on privacy of student records at the University of Utah can be found at: https://registrar.utah.edu/handbook/ferpa.php. See also, University of Utah Policy 6-400: Code of Student Rights and Responsibilities (“Student Code”), Section VII, Student Records. Available at: https://regulations.utah.edu/academics/6-400.php

For additional information from the Department of Education (DOE), call 1-800-USA-LEARN (1-800-872-5327) (voice). Individuals who use TDD may use the Federal Relay Service. Or contact the DOE at the following address: Family Policy Compliance Office, U.S. Department of Education 400 Maryland Avenue, SW Washington, D.C. 20202-8520.

ENVIRONMENT OF RESPECT, CIVILITY AND PROFESSIONALISM

The University of Utah College of Pharmacy promotes and facilitates an environment where all persons are treated with respect, civility, and dignity. The practice of pharmacy is a privilege, and an extension of the gift of trust from society. Faculty, students and staff are all expected to display professionalism in their interactions with one another, with patients, and with all members of society.
PLEDGE OF PROFESSIONALISM

As a student of pharmacy, I believe there is a need to build and reinforce a professional identity founded on integrity, ethical behavior, and honor. This development, a vital process in my education, will help to ensure that I am true to the professional relationship I establish between myself and society as I become a member of the pharmacy community. Integrity will be an essential part of my everyday life, and I will pursue all academic and professional endeavors with honesty and commitment to service.

To accomplish this goal of professional development, as a student of pharmacy I should:

DEVELOP a sense of loyalty and duty to the profession by being a builder of community, one able and willing to contribute to the well-being of others and one who enthusiastically accepts the responsibility and accountability for membership in the profession.

FOSTER professional competency through lifelong learning. I must strive for high ideals, teamwork, and unity within the profession in order to provide optimal patient care.

SUPPORT my colleagues by actively encouraging personal commitment to the Oath of Pharmacist and a Code of Ethics as set forth by the profession.

INCORPORATE into my life and practice dedication to excellence. This will require an ongoing reassessment of personal and professional values.

MAINTAIN the highest ideals and professional attributes to ensure and facilitate the covenantal relationship required of the pharmaceutical caregiver.

The profession of pharmacy is one that demands adherence to a set of rigid ethical standards. These high ideals are necessary to ensure the quality of care extended to the patients I serve. As a student of pharmacy, I believe this does not start with graduation; rather, it begins with my membership in this professional college community. Therefore, I must strive to uphold these standards as I advance toward full membership in the profession of pharmacy.

PHARMD POLICY PREAMBLE

The College of Pharmacy follows the laws and regulations of the United States and the State of Utah. As an academic unit of the University of Utah, the College also follows University policies and rules. Matters not expressly covered in federal, state, or University requirements will be handled in accordance with College of Pharmacy policy and procedure.

In the classroom and other learning environments, the College of Pharmacy policy is deferential to the authority of the faculty course master. This presumes the faculty course master is acting within the reasonable scope of academic freedom. Accordingly, the Course Master has primary authority over all matters that affect students in that particular course.

The Course syllabus will be the primary source of guidance for resolving issues relating to a particular course.

Suggestions:

- Course Masters are expected to coordinate with Curriculum Stewards and other instructors teaching in the same program year (e.g., P1, P2, P3) to avoid direct conflicts with policies in their syllabi and minimize student confusion.

- Course Masters are expected to coordinate their exam schedules with Curriculum Stewards and other instructors teaching in the same program year (e.g., P1, P2, P3), taking into account the timing of all exams throughout the semester. Course Masters should make all reasonable efforts to space exams as evenly as possible during the semester. This is expected faculty conduct, however, it does not create an entitlement of right to students.

- Course Masters are expected to carefully review and communicate responsibilities for students in their syllabi and on the first day of classes. Clear communication of all student expectations and consequences for not meeting those expectations helps avoid issues like poor attendance and requests for exam remediation.

Faculty Course Masters acting within suggestions outlined above, and the general policies and rules of the University of Utah will be supported by the College of Pharmacy and Office of Student Affairs.
II. PROFESSIONAL CURRICULUM

Required Curriculum for Class of 2027*  (Curriculum subject to revision, with reasonable notice)

*Students must complete the curriculum that is current for their class.

**PHARM 5150 Recitation (Clinical Skills Implementation; “CSI”)**
1 credit

This recitation course will provide active learning sessions in which students in the P1 Fall Semester improve their understanding of the foundational material being taught in the P1 curriculum and begin learning how to apply this foundational knowledge to the practice of pharmacy. Recitations will further facilitate the development of students’ professionalism, including professional communication skills, and evidence-based approaches to pharmaceutical care.

**PHARM 5841 Professional Development Seminar - P1 Fall**
0.5 credits

The professional development seminar course series aims to foster the knowledge, skills, abilities, behaviors, and attitudes necessary for students to demonstrate self-awareness, leadership, cultural competency, and professionalism throughout their careers. Students will participate in professional development workshops, meet with their faculty mentor, and complete writing assignments each semester. The content theme for the P1 Fall semester is: Building Your Professional Identity.

**SPRING SEMESTER – P1: 15.5 semester credit hours**

**PHARM 5111 Foundations of Biotechnology & Molecular Biology**
3 credits

This course covers nucleic acid metabolism, including purines and pyrimidines, DNA replication and repair, RNA and protein synthesis, regulation of gene transcription and translation. Topics also include cell structure components, ion channels and receptors, mitosis and meiosis, cell cycle, genetics, pharmacogenomics, recombinant DNA methods, biologics, molecular diagnostic methods, gene editing and gene therapy.

**PHARM 5141 Community Practice**
3 credits

Delivery of pharmaceutical services to community; didactic material and in-depth case studies involving patient profiles, adherence, over-the-counter medications, accessories, and patient counseling.

**PHARM 5142 Foundations of Pharmacy: Law/Ethics/Risk Mitigation**
4 credits

This course will introduce pharmacy students to the legal, ethical, and risk management issues that are foundational in the practice of pharmacy. Course content will focus on statutes, regulations, standards of practice, and case law. Students will also develop skills for ethical issue identification, critical reasoning, and analysis. These skills enable students to better integrate core principles of basic and clinical sciences within legal requirements, ethical rules, public policy, and societal interests.

**PHARM 5143 Foundations of Professional Practice: Community Agency Practicum**
3 credits

This course is a direct patient contact IPPE for PharmD students. Students select one of 6-8 diverse community-based human services agencies (arranged by the instructor) and a student partner with whom to work for the 15 weeks of the semester. In-class discussions and speakers require students to combine an observational evaluation of their experiences with assigned readings on the many aspects of providing and receiving service and medical care. Interactions with both companions and agency partners serve to raise issues relative to diversity, social awareness and civic responsibility, anchored to material from other PharmD courses that discuss the safety, economic, social and political aspects of health care provision from patient-centered care perspective.
PHARM 5146 Pharmacy Practice Skills Lab II  
0.5 credit

The Pharmacy Practice Skills Lab series will emphasize the practice of foundational patient care skills while integrating knowledge learned in other courses with their practical applications in pharmacy practice. The primary skills emphasized during this longitudinal course include patient physical assessment, medication history, patient interviews, medication counseling, SBARQ, and SOAP note writing. In PPSLII, the focused skills will include general physical assessment and patient interviewing.

PHARM 5151 Recitation (Clinical Skills Implementation; “CSI”)  
1 credits

This recitation course will provide active learning sessions in which students in the P1 Spring Semester improve their understanding of the foundational material being taught in the P1 curriculum and begin learning how to apply this foundational knowledge to the practice of pharmacy. Recitations will further facilitate the development of students’ professionalism, including professional communication skills, and evidence-based approaches to pharmaceutical care.

PHARM 5841 Professional Development Seminar - P1 Spring  
0.5 credits

The professional development seminar course series aims to foster the knowledge, skills, abilities, behaviors, and attitudes necessary for students to demonstrate self-awareness, leadership, cultural competency, and professionalism throughout their careers. Students will participate in professional development workshops, meet with their faculty mentor, and complete writing assignments each semester. The content theme for the P1 Spring semester is: Cultural Humility.

---

**P2 – SECOND PROFESSIONAL YEAR**

**FALL SEMESTER – P2: 17 semester credit hours**

PHARM 6240 Drug Literature Evaluation I  
3 credits

This course builds off of Foundations of Drug Information to introduce principles of biostatistics, epidemiology, and critical appraisal of the medical literature. These skills form a foundation for evidence-based practice. The first semester will emphasize clinical trials, cohort studies, and case-control studies.

PHARM 6241 Drug Literature Evaluation II 3 credits
This course builds from Foundations of Drug Information and Drug Literature Evaluation I to introduce principles of biostatistics, pharmacoeconomic, and critical appraisal of the medical literature. These skills form a foundation for evidence-based practice. The second semester will emphasize noninferiority clinical trials, systematic reviews and meta-analysis, and pharmacoeconomic studies.

PHARM 6248 Pharmacy Practice Skills Lab IV 0.5 credit
The Pharmacy Practice Skills Lab series will emphasize the practice of foundational patient care skills while integrating knowledge learned in other courses with their practical applications in pharmacy practice. The primary skills emphasized during this longitudinal course include patient physical assessment, medication history, patient interviews, medication counseling, SBARQ, and SOAP note writing. In PPSLIV, the focused skills will include complete medication review and musculoskeletal/neurological physical assessment.

PHARM 6251 Recitation (Clinical Skills Implementation; “CSI”) 2 credits
This recitation course will provide active learning sessions designed so that P2 students will integrate their understanding of the foundational basic science and clinical material being taught in the P2 curriculum and will begin to apply this foundational knowledge to the practice of pharmacy. Recitations will further facilitate the development of students’ professionalism, including professional communication skills, and evidence-based approaches to pharmaceutical care. The learning exercises will be largely, but not exclusively, case-based, and will be developed by the course masters. The class will be divided into six groups.

PHARM 6253 Integrated Pharmacotherapeutics II 8 credits
Integrated Pharmacotherapeutics II is divided into three modules: 1) Central Nervous System, 2) Pulmonary, and (3) Infectious Disease. In each of these modules, the relevant pathophysiology, medicinal chemistry, pharmacology, toxicology and therapeutics will be presented in an integrated way, having the overall objectives of understanding current pharmacotherapeutic approaches, and knowing the basic science underpinnings of those approaches, for management of important disease conditions.

PHARM 5841 Professional Development Seminar - P2 Spring 0.5 credits
The professional development seminar course series aims to foster the knowledge, skills, abilities, behaviors, and attitudes necessary for students to demonstrate self-awareness, leadership, cultural competency, and professionalism throughout their careers. Students will participate in professional development workshops, meet with their faculty mentor, and complete writing assignments each semester. The content theme for the P2 Spring semester is: Resiliency and Grit.

P3 – THIRD PROFESSIONAL YEAR

SUMMER SEMESTER – P3: 8-12 semester credit hours

PHARM 7640 Core Community Clerkship 4 credits
The Core Community Clerkship is an introductory pharmacy practice experience (IPPE). It takes place in a community setting and includes interprofessional practice involving shared decision-making, professional ethics and expected behaviors, and direct patient care activities.
PHARM 7641 Core Institutional Clerkship 4 credits

The Core Institutional Clerkship is an introductory pharmacy practice experience (IPPE). It takes place in a hospital setting and includes interprofessional practice involving shared decision-making, professional ethics and expected behaviors, and direct patient care activities.

Elective(s) 0-4 credits

FALL SEMESTER – P3: 14.5-16.5 semester credit hours

PHARM 6713 Interprofessional Experience: Chronic Disease Management 0.5 credits

This interprofessional education course is designed to prepare pharmacy students to work in health care teams to improve the safety and quality of care for patients with chronic diseases in the ambulatory care setting. Through the use of simulation-based patient care management scenarios, health professions students are provided the opportunity to actively engage in learning with students from other health care professions including medicine, nursing, and others. Complex patient care management simulations form the basis for these interprofessional education experiences designed to teach the principles of team-based care, communication, patient-centered care, and improving patient outcomes.

PHARM 7340 Leadership and Management for Pharmacists 2 credits

Students will learn essential skills in leadership and management for pharmacists across multiple practice settings. The course will focus on self-awareness, leading effective teams, and management principles. Students will have the opportunity to practice these skills individually and as a team completing a project related to pharmacy practice.

PHARM 7349 Pharmacy Practice Skills Lab V 0.5 credit

The Pharmacy Practice Skills Lab series will emphasize the practice of foundational patient care skills while integrating knowledge learned in other courses with their practical applications in pharmacy practice. The primary skills emphasized during this longitudinal course include patient physical assessment, medication history, patient interviews, medication counseling, SBARQ, and SOAP note writing. In PPSLV, the focused skills will include SOAP notes and gastrointestinal/genitourinary/skin physical assessment.

PHARM 7350 Recitation (Clinical Skills Implementation; “CSI”) 1 credits

This recitation course will consist of active learning sessions in which students will integrate knowledge and skills taught across core courses of the Fall P3 and preceding curriculum. Students will be challenged to apply principles of therapeutics, basic sciences, drug information, critical thinking, problem solving, and professional communication to a variety of team-based activities. This course is designed to improve understanding of core concepts taught in Fall P3 courses through integration of materials and application to activities that simulate routine pharmacy practice experiences. Small group discussions and activities will be facilitated by teaching assistants, residents, fellows and faculty.

PHARM 7352 Principles of Project Development 3 credits

Principles of Project Development prepares students to conduct their own research projects. It introduces students to conducting pharmacy research, and it will guide students through the development of their proposals for their PharmD projects. Topics will include formulating a research question, literature review, research methods, study designs, human & animal subjects protection, data collection, data analysis,
biostatics, and disseminating results.

**PHARM 7355  Integrated Pharmacotherapeutics III** 4 credits

Integrated Pharmacotherapeutics III is divided into four modules: 1) Reproduction, 2) Dermatology, 3) Gastrointestinal, and 4) Oncology. In each of these modules, the relevant pathophysiology, medicinal chemistry, pharmacology, toxicology and therapeutics will be presented in an integrated way, having the overall objectives of understanding current pharmacotherapeutic approaches, and knowing the basic science underpinnings of those approaches, for management of important disease conditions.

**PHARM 7841  Professional Development Seminar - P3 Fall** 0.5 credits

The professional development seminar course series aims to foster the knowledge, skills, abilities, behaviors, and attitudes necessary for students to demonstrate self-awareness, leadership, cultural competency, and professionalism throughout their careers. Students will participate in professional development workshops, meet with their faculty mentor, and complete writing assignments each semester. The content theme for the P3 Fall semester is: Career Exploration.

**Elective(s)** 3-5 credits

**SPRING SEMESTER – P3: 15.5-17.5 semester credit hours**

**PHARM 6623  Interprofessional Experience: Medical Error Disclosure** 0.5 credits

This interprofessional education course prepares students to disclose medical errors as a health professional team. Teams of students from various health professions including pharmacy, medicine, nursing, physician’s assistant, and others participate in an in-person simulation to disclose a medication error in a hospital setting that could result in serious harm or death of the patient. Students learn the basic principles of effective error disclosure in an authentic scenario where they play the role of their profession on a health care team.

**PHARM 7341  Advanced Therapeutics** 6 credits

This course examines advanced pharmacy practice in several settings including community practice, primary care, acute care, critical care, managed care, transitions of care and specialty pharmacy. Case studies focus on patients with multiple interlocking disease states, using a team-based learning approach.

**PHARM 7342  US Health Care Policy** 2 credits

This course examines the impact of present and proposed public policy on the US health care system. In-class discussions will emphasize the complexity of our health care system; the myriad of issues it faces; as well as potential public policy solutions to these issues. In addition, an active learning approach will be used to empower students to communicate about health policy issues to other stakeholders in the systems including individuals, patients, health care professionals and decision-makers.

**PHARM 7842  Professional Development Seminar - P3 Spring** 0.5 credits

The professional development seminar course series aims to foster the knowledge, skills, abilities, behaviors, and attitudes necessary for students to demonstrate self-awareness, leadership, cultural competency, and professionalism throughout their careers. Students will participate in professional development workshops, meet with their faculty mentor, and complete writing assignments each semester. The content theme for the P3 Spring semester is: APPE Readiness.
PHARM 7851  Project Development Practicum I  
This course will provide students structured opportunities to work on their PharmD projects and proposals. Students will meet to discuss components of their projects, receive feedback from peers and faculty, and participate in small group work.

PHARM TBD  Pharmacy Practice Skills Lab VI  
The Pharmacy Practice Skills Lab series will emphasize the practice of foundational patient care skills while integrating knowledge learned in other courses with their practical applications in pharmacy practice. The primary skills emphasized during this longitudinal course include patient physical assessment, medication history, patient interviews, medication counseling, SBARQ, and SOAP note writing. In PPSLVI, the focus includes a comprehensive application of the skills learned throughout the previous 5 semesters of the lab series.

*Students participate in seven, 6-week rotations. One (1) APPE Block will be a scheduled “Off” block. Rotations may be taken in any order subject to availability, the CORE ELMS™ Rotation scheduling lottery, required rotations, and other factors.
Curriculum subject to revision. Students must complete the curriculum current for their class.*
Career Specialization Program (P3 Electives) Policy:

The purpose of the P3 career specialization program is to allow students to take electives courses, which build upon foundational knowledge gained in the P1 and P2 curriculum. The P3 electives should aid a P3 student in meeting their individual career goals, completing their PharmD project, and/or complement other coursework in their chosen curriculum track.

- A minimum of nine (9) semester credit hours of elective courses (5000 or above) is required for the Doctor of Pharmacy Program in the P3 student year. The Pharmacotherapy Track and Policy/Outcomes Track must take four (4) elective credits within the Track. Students must take at least four (4) elective credits within their chosen curriculum track. Students may also suggest appropriate electives (including ones from other Tracks or offered by other academic departments) to their professional development mentor.

- Prior to enrolling in P3 electives, students must discuss their chosen electives and seek the approval of their assigned professional development mentor(s) within their curriculum track. The discussion should include a rationale of how proposed electives will enhance the objectives described above. The Professional Development Mentoring Checklist is used to document the elective course selection and approval.

- Under certain circumstances, students who have selected appropriate career specialization courses in years P1 or P2 may petition to apply these courses to the P3 program requirement. Examples of appropriate courses include specialized programs of study (i.e., Community Engaged Scholar, Global Health Certificate, etc.). Students who wish to apply elective credits obtained in years other than P3 towards the P3 requirement must petition the P3 Curriculum Stewards in writing. The petition shall include the benefits achieved from the non-P3 course(s) that help the student meet their career objectives.

Evidence of satisfactory completion of the course(s) should be enclosed. A list of program course requirements and current progress towards completing the special program of study should also be submitted. Up to three hours of prior elective courses may be applied, at the discretion of the curriculum track steward, to meet the P3 requirement.
Applying Elective Credits During P1/P2 year Towards P3 Elective Requirement

Students who wish to apply elective credits obtained in years other than P3, towards the P3 requirement may petition their curriculum track steward in writing for an exception. The purpose of the P3 elective requirement is to allow students to take specialized courses, which build upon knowledge gained in the P1 and P2 curriculum. The P3 electives should aid a P3 student in meeting their individual career goals, completing their PharmD project, and/or complement other coursework in their chosen curriculum track. A minimum of nine (9) semester credit hours of elective courses (5000 or above) is required for the Doctor of Pharmacy Program in the P3 student year. Exemptions to the P3 elective requirement exist to provide flexibility for students completing special programs of study in addition to meeting minimum Doctor of Pharmacy program requirements.

Note 1 – the above MDCRC courses are appropriate for the Policy/Outcomes Track with consent of the student’s professional development mentor.

Note 2 – 6000- or 7000-level courses offered by other academic departments may be appropriate electives but must be discussed and approved by the student’s professional development mentor.

### III. RESEARCH
DOCTOR OF PHARMACY / DOCTOR OF PHILOSOPHY PATHWAY

The Departments of Medicinal Chemistry, Pharmaceutics & Pharmaceutical Chemistry, Pharmacology and Toxicology, and Pharmacotherapy together with the Dean's Office, have developed a pathway for students who are interested in simultaneously pursuing a PharmD and a PhD. This program is intended for students who are interested in careers in basic or clinical research. It is constructed to intersperse the core curriculum requirements of the PhD program into the curriculum of the PharmD program, making course substitutions where feasible. In doing this, we minimize curriculum redundancy between the two programs while ensuring that the student is adequately prepared for the demands of both degree programs. Students who are interested in pursuing this pathway must first gain admission to the College of Pharmacy PharmD program before they can apply for the PhD program pathway. We encourage students to study the PhD pathway and participate in the P-SURF Program (see P-SURF program, pg. 32) before applying for the joint PharmD/PhD pathway.

Students can explore their enthusiasm for a career in basic or clinical research by enrolling in a supervised, paid research project (P-SURF, pg. 31) with a faculty mentor during their P1 summer. At the end of the P-SURF program, students can decide whether or not to continue working on the same (or related) research project with the same (or different) mentor during their P2 year. At the end of the P2 year, student and advisor can then choose whether or not to transition the project into the student’s required PharmD project in the P3 & P4 years.

Students wishing to officially join the PharmD/PhD program should discuss this option with their research mentor during their P3 year, as well their PhD coursework with the Director of Graduate Studies of their research mentor’s academic department. Students can be accepted into the PhD program if the student meets the program admissions criteria and there is appropriate research mentoring and support for the student. Student and mentor should also discuss the student’s research project and sustainable financial support with the Associate Dean for Research and Graduate Programs (Dr. Carol Lim). If all parties are agreeable, then the student can matriculate into the chosen department’s PhD program at the end of their P3 year.

During their P4 year, PharmD/PhD students should complete their five required APPE rotations during the summer and fall semesters, then enroll in two elective research APPE rotations during their spring semester. The College provides a stipend for Utah resident tuition and fees during the P4 year. The program is structured so that students receive their PharmD degree at the end of their P4 year and can take their pharmacy licensure exam at the normal time. Following the P4 year, students engage in full time research to complete the PhD program under the direction of their faculty mentor and PhD supervisory committee.

Questions? Please contact the Executive Associate Dean for Professional Education (Dr. James Herron)
PHARMACY STUDENT SUMMER RESEARCH FELLOWSHIP PROGRAM (P-SURF)

Purpose: To provide P1 professional students currently enrolled in the PharmD program with an intensive, introductory research experience with faculty in the College of Pharmacy. These summer research experiences can serve as formal student rotations if the student successfully enters the PharmD/PhD pathway in any of the departments within the college.

Who is eligible: Students who have successfully completed their P1 year in the PharmD professional program and entered with a Bachelor’s degree. Students interested in the combined PharmD/PhD pathway are required to apply if they cannot document significant formal and relevant research experience. Students may only be accepted to the program once.

How to apply: Applicants will provide the following: 1) updated Curriculum Vitae; 2) undergraduate/PharmD transcripts 3) an essay explaining why they want to participate in the program, what they hope to gain, their career goals, how the summer research would apply to those goals including intended research areas and up to 3 College mentors. Applications will be due in mid-February annually and reviewed by the College of Pharmacy Research and Graduate Committee. Awardees will be notified by the Executive Associate Dean for Professional Education in late March or early April.

Stipend: The stipend for each student for working 40 hours per week in the lab for a 10-week period (late May through early August) will be $4000. Opportunities will exist in all of the College departments, and students may identify possible mentors through a CoP research rotation booklet. A $500 supplies stipend will be provided from the CoP Executive Associate Dean for Professional Education to the faculty mentors to offset research expenses.

Program: An Orientation meeting will be held in mid-summer to discuss their research projects. Mandatory participation in a College-wide symposium at the end of the summer (usually early in the Fall Semester) requires that fellowship students will present their findings in formal poster format.

The program of study will be at the discretion of the faculty Mentor. Mentoring meetings will be held at least every other week during the summer to discuss the various graduate programs, other College faculty research opportunities, career development, and to build camaraderie. Students should interact socially with visiting Juan Diego summer high school students and Pharm/Tox ASPET SURF fellows with an occasional pizza lunch, hike, etc.
IV. EXPERIENTIAL EDUCATION (EE)

OVERVIEW
Student instruction in the College of Pharmacy can be divided into two broad areas, didactic instruction (classroom) and pharmacy practice experiences (rotations). Surveys indicate that students highly value experiential opportunities early in the curriculum. These experiences better prepare them for their career, provide opportunities to learn more about the profession, offer experience interacting with patients and other health care professionals, and allow them to become more familiar with therapeutic recommendations and guidelines. In addition, the Accreditation Council for Pharmacy Education (ACPE) Rotation experiences build upon what is learned in the didactic curriculum.

Experiential Education (EE) is a continuum of educational activities beginning with the Introductory Pharmacy Practice Experiences (IPPE). Students complete two summer rotations (one community, one institutional setting) after successful completion of their second didactic year. The IPPEs are tied to various courses and prepare students to learn the competencies necessary for Advanced Pharmacy Practice Experiences (APPE). APPEs are full-time rotations that start the summer after the third didactic year and continue for the entire fourth year of school.

ROTATION EXPERIENCES
All Doctor of Pharmacy students must complete a minimum of nine pharmacy practice rotations (two IPPE and seven APPE). The IPPE rotations are graded with credit/no credit. The APPE rotations are graded with letter grades. All students are required to complete a rotation within a medically underserved/rural area. This may be completed as an IPPE or APPE. There are additional requirements and policies for APPE rotations, which will be discussed before APPE rotations are scheduled.

ROTATION SCHEDULING
IPPEs will be hand-scheduled by the EE team.

APPEs will be scheduled using a lottery system. Students will submit rankings for their preferred sites after reviewing the available rotations.

Due to ACPE restrictions, students will not be permitted to complete IPPE or APPE rotations in their place of employment unless the following conditions apply:

“Students may be placed in an IPPE or APPE in a pharmacy where they are employed as long as their experiential education and employee roles are clearly differentiated and do not overlap. For example, a student may be employed by a health system in a specific capacity and/or in one area of the facility and be assigned to an IPPE or APPE in a clearly distinct capacity or area of the health system. (ACPE Standard 10.16)”
IPPE EXPERIENTIAL COURSES

IPPEs involve didactic courses and a series of professional experiences during the first three years of the Doctor of Pharmacy program. The courses that contain IPPEs are described below.

Foundations of Patient-Centered Care (PHARM 5140)

This course is taught in the first semester of the first professional year. The class includes didactic lectures and discussions on a variety of topics, and self-directed learning. The two major goals of the course are to develop a basic understanding of opportunities in pharmacy practice and to develop the various basic skills necessary to practice the profession of pharmacy. This is done through a series of didactic lectures, discussion, and self-study. Lectures and discussions include basic law, pharmacy practice act and rules, responsibilities of pharmacists and interns, ethics, substance abuse, communication skills, pharmaceutical care, generic drugs, professionalism, the history or pharmacy, and pharmacist opportunities. A major component of the course is to begin the professionalization process that starts with their transition from pre-pharmacy student to student pharmacist and to pharmacist. Students’ complete pharmacist interviews which serve as the basis of a class discussion. Medical terminology and calculations are largely learned through completion of self-study materials with quizzes, tests, and in the case of calculations, a final exam.

Foundations Professional Practice: Community Agency Practicum (PHARM 5143)

This course is taught in the second semester of the first professional year as a follow-up to PHARM 5140. In-class discussions and speakers require students to integrate assigned readings with speaker presentations on the many aspects of providing and receiving service and medical care. The course is intended to provide depth on issues relative to diversity, social awareness and civic responsibility, anchored to material from other PharmD courses that discuss the safety, economic, social and political aspects of health care provision from a patient-centered care perspective. Students will be encouraged to apply skills learned in PHARM 5140 in real life situations as part of small group work and a capstone experience in the Clinical Simulation Center. In PHARM 5143, students are taught principles of good practices relative to diversity, inclusivity, and patient preferences related to various medical and health care system needs. This course also builds on principles of communication skills and the introductory ability to work with patients that was introduced in PHARM 5140, because students must utilize communication skills to be successful pharmacists in the community no matter where they practice.

The required weekly lecture and written reflection opportunities will integrate class experiences, including guest lecturers who tell their personal stories about how they learned to practice patient-centered pharmacy. Weekly lectures will also encourage thoughtful student participation and incorporation within written assignments. Client populations encountered as part of this course include a diverse group in the context of their community. For example, a variety of providers and patients will lead a discussion on what they need from pharmacists that they are not currently receiving. A student’s individual experiences in this course will help them better understand how to provide care that is relevant, meaningful, and appropriate in the context of their local community. At the end of the semester, all students write a final reflective, analytical report that identifies what was learned that will change how the student approaches professional practice as a pharmacist relative to patients in the student’s community.
In summary, this course is designed to enable students to better understand how community needs can be met through community-determined, patient-centered. Students will leave the class with:

- a working definition of “service” and application to future professional activities
- the ability to work with and understand diverse populations based on principles of diversity, equity and inclusion
- a working knowledge of the impact of implicit bias and health literacy on the pharmacists’ strategy to practice in a patient-centered care manner
- hands-on skills that help them work collaboratively in teams
- refined abilities to recognize and identify public health resources available to assist future patients
- a working understanding of how to integrate the science of pharmacy with the art of practicing pharmacy
- improved verbal and written communication skills

**Pharmaceutical Compounding and Drug Delivery (PHARM 6242)**

This course is taught during the first semester of the second professional (P2) year. This course introduces students to fundamental and basic skills in pharmaceutical compounding in preparation for the institutional and community rotations. The class consists of two lectures and one three-hour laboratory session each week.

This course covers a wide range of compounding topics including pharmaceutical calculations, aseptic technique, parenteral drug administration, sterile and non-sterile compounding, and pharmaceutical manufacturing. In addition, students will practice patient counseling and professional communication skills in connection with the pharmaceutical products made in the laboratory sessions.

An understanding of sterile drug compounding and dosage delivery is an important skill for pharmacists. This knowledge allows students to communicate with other health care professionals regarding the best methods of administering drugs and how to obtain optimal clinical outcomes. Students are required to pass a written exam dealing with USP <797> Pharmaceutical Compounding Sterile Preparations and an aseptic media-fill test before any institutional externship.

Students will also learn basic non-sterile compounding skills in traditional dosage forms (e.g., suppositories, ointments, emulsions, suspensions, troches, capsules, etc). Students are instructed on how to read compounded prescription orders and how to prepare the product so that bioavailability is maximized. An emphasis is placed on the science of compounding rather than the art of compounding. Students are required to prepare the products and to counsel the teaching assistants or instructors as if they were the patient. The class teaches the use of open-ended questions when counseling to elicit more involvement from the patient.

**Drug Literature Evaluation I (PHARM 6240) and II (PHARM 6241)**

These courses are taught during the first and second semesters of the second professional year. This series introduces students to fundamental and basic skills necessary to retrieve and evaluate the medical literature and apply the information to solving patient-specific and other clinical problems in preparation for the institutional and community rotations. The course covers topics in 4 different areas: Drug Information, Epidemiology; Biostatistics; and Communication, both written and verbal.
and with both patients and professionals. This course series helps fulfill the University requirements for writing intensive courses and quantitative intensive courses within the student’s major.

In the first semester, students will begin learning about the types of drug information sources, which sources answer which types of questions, and how to approach answering drug information questions accurately and efficiently.

Students will also learn how to conduct computerized searches of the medical literature. Students critically evaluate the information retrieved. Students will also be introduced to experimental studies such as randomized controlled clinical trials. Students will be introduced to biostatistics as they learn the features of statistical tests that are used in experimental studies including data types, distribution types, and univariate tests. Students will develop the skills to read an article from an experimental study and analyze the strengths and weaknesses of the study based on the methods, statistics used, and evaluation of the results. Students will develop critical-thinking skills, forming their own conclusions about study results that are independent of the authors’ opinions.

In the second semester, students will continue their studies of epidemiology and biostatistics as they learn about observational study designs and the features of statistical tests and techniques applied in those types of studies, including multivariable tests. They will practice reading and interpreting the results of cohort studies, case-control studies, cross-sectional analyses, and pharmacoeconomic studies. They will analyze the strengths and weaknesses of the studies based on the methods, statistics used, and evaluation of the results, forming independent opinions about the studies’ results. Students will also develop their written and oral communication skills as they write patient education materials, write materials in the biomedical style, and prepare and give presentations in class.

**IPPE & APPE ROTATIONS**

**Core Community and Core Institutional (PHARM 7640 AND PHARM 7641)**

Students take the core community and core institutional IPPE rotations the summer after successful completion of all required didactic courses through the entirety of their second professional year. Additionally, students with incomplete courses or pending appeals will not be able to participate in IPPE rotations. Each rotation is four weeks in length. The community rotation is a practiced-based experience at a chain pharmacy or an independently owned pharmacy. The institutional rotation is a practiced-based experience within an institutional setting. The focus of these rotations is to teach the student about drug distribution systems, legal requirements, and safe medication practices. Students build on verbal communication skills by interacting more extensively with health care providers and patients under the guidance of preceptors. Student’s written communication skills develop as they perform medication histories and document the provision of medication therapy management services during the community rotation. Many students are asked to make a formal in-service presentation to nursing and/or pharmacy staff during their institutional rotation.

**APPE ROTATIONS (PHARM 77XX or PHARM 78XX)**

Students will receive an updated version of the APPE policies in the third professional year. The policies below reflect current policy. Students must successfully complete their IPPEs, and third professional year coursework as discussed in the “Academic Standards” section before they can advance into the Advanced Pharmacy Practice Experience Program. Students may also be required
to demonstrate readiness by passing a didactic and/or practical exam.

The final professional year consists of seven advanced pharmacy practice experiences in a variety of pharmacy practice settings. Each experience is six weeks in length. The emphasis is becoming proficient in direct patient care and problem-solving skills. In addition, students complete a medical information retrieval rotation as one of the required seven experiences.

Students are required to complete one APPE rotation with a faculty preceptor. Students may complete a maximum of two out of state rotations (as electives), subject to approval by the Assistant Dean of Experiential Education and contingent upon a legal agreement between the site and the College of Pharmacy. All core rotations must be completed in the state of Utah.

**APPE requirements include one rotation from each of the following core areas:**

1. **Acute Care** – Emphasizes the identification of drug-related problems and the management of disease states in an inpatient setting
2. **Ambulatory Care** – Emphasizes the identification of drug-related problems and the management of disease states in an outpatient setting
3. **Advanced Community** – Emphasizes the practice of safe medication delivery.
4. **Advanced Health Systems** – Emphasizes the management issues of a health system
5. **Select Pharmacy Experience** – Emphasizes preparing students for post-graduate training in their selected field

AND

**Two additional elective experiences from any PHARM 77XX or PHARM 78XX rotations.**

These may include:

1. **Advanced Sub-Specialty** – Emphasizes pharmacotherapy in a specific sub-specialty such as nuclear pharmacy or long-term care
2. **Any core rotation**

Clinical independent study and/or research experiences may be scheduled in lieu of one of the elective rotations. Non-research, independent study elective rotations are six-week experiences developed by the student to allow them to pursue an area of study that is not offered by the College of Pharmacy. This rotation must be pre-approved by the Assistant Dean of Experiential Education. A research-based elective rotation may also be scheduled as a six-week experience within other departments of the College (e.g., Pharmaceutics, Medicinal Chemistry, etc.), subject to pre-approval of the instructor.

*Curriculum subject to revision. Students must complete the curriculum current for their class.*
STUDENT RESPONSIBILITIES DURING ROTATIONS

1. Students are expected to behave and dress professionally, in accordance with College of Pharmacy and site policies. Failure to do so may constitute cause to be removed from rotation.

2. Students should assume increasing responsibilities for care of patients on their clinical rotations as they progress through the experiential program.

3. Students are expected to actively participate in the team meetings, rounds and other interdisciplinary conferences that occur on the clinical services of their rotations.

4. Students are expected to identify therapeutic problems as well as present seminars and lectures to the medical, nursing and pharmacy staffs on these problems.

5. Students, with preceptor oversight, should report any medication errors, adverse drug reactions, drug defects, unusual occurrences involving drugs and incidents involving drugs that occur on services designated as inpatient or outpatient rotation sites at the University Hospital. These reports will be completed according to the current procedures of the Department of Pharmacy Services of the University Hospital. For rotations at other institutions please complete reports according to their procedures.

6. Attendance at the rotation site is expected typically Monday – Friday; however, nights and weekends may be required by preceptors. Acceptable reasons for absences include illness, injury, or family funeral. Students should verbally contact preceptors in advance or as soon as possible to explain the circumstances for their absence. The preceptor will determine the course of action for making up missed time.

7. Written requests are required for any absence exceeding two (2) days during any rotation, with verbal notification as early as possible. Students must submit the written request including the reason(s) for the absence and the course(s) of action for making up missed time (as agreed to by the preceptor) to the Assistant Dean of Experiential Education. Any unauthorized absences from rotations may result in academic sanctions by the Scholastic Standards Committee in consultation with the preceptor.

8. Students requesting time away from rotations for residency, fellowship or employment interviews or meetings during the rotation must discuss the dates of the anticipated absence with their respective preceptors as soon as possible during the academic year. The preceptor will determine the course of action necessary to make up the time. If more than 2 days are missed for any reason, the time must be made up.

9. All rotations are a minimum of 40 hours per week (no more than 10 hours/day). Please note that holidays are not included in the 40 hours. Students should adjust the rotation hours for the remainder of the week accordingly. Students often opt to schedule “library time” or “project time” on the holiday, depending upon the rotation’s requirements.

10. At the midpoint and conclusion of the rotation, students should schedule a meeting with the preceptor to discuss their progress and evaluation. The preceptor then completes the final evaluation in CORE ELMS™ by the last day of the rotation. Students are responsible for assuring that all required evaluations are completed. Incomplete (I) grades will be assigned for rotations until all evaluations are received. Late evaluation submissions from students could result in grade reductions.

College of Pharmacy | 30 South 2000 East | (801) 581-6731
STUDENT REQUIREMENTS FOR EXPERIENTIAL EDUCATION ROTATIONS

1. Pharmacy Intern License
2. APhA Immunization Certification
3. Aseptic Technique Certification
   This is received through the Compounding Course (USP 797) class during the P2 year.
4. Annual Regulatory Training Modules
   All students are required to complete Annual Regulatory Trainings (including HIPAA). These trainings will be assigned and completed via the University of Utah’s LMS.
5. BLS Certification
   BLS (Basic Life Support)/ CPR Certification for Healthcare Providers is required for participation in Experiential Education rotations. BLS certification courses are offered at hospitals and various programs throughout the Salt Lake Valley. Participation in and scheduling of the BLS course is the student’s responsibility. The certification is needed to participate in immunization administration and co-curricular events. Students must keep their BLS certification current throughout their P3 and P4 years at the College of Pharmacy.
6. Background Check
   Students undergo a background check during the admissions process to the University of Utah College of Pharmacy and are required to get an annual background check throughout their course of study.
7. Drug Test
   Students are required to obtain a drug screen if it is compulsory for any of their assigned rotation sites.
8. FERPA Release Form
9. Health Insurance
   Students are required to keep a health insurance policy current after the spring of their P2 year.
10. Immunizations
    Students who are not compliant with immunization documentation requirements, or do not have a University of Utah authorized vaccination exemption are not eligible to participate in Experiential Education rotations (this applies to IPPE and APPE). Some rotation may have additional immunization requirements, and/or may not allow participation by students with a vaccination exemption. See Appendices for additional details on vaccination and immunization requirements.
IV. CO-CURRICULAR, PROFESSIONAL DEVELOPMENT & MENTORING PROGRAMS

CO-CURRICULAR REQUIREMENTS

University of Utah College of Pharmacy (UUCOP or COP) students are required to participate in one "qualified" co-curricular activity per semester per ACPE recommendations. Qualified co-curricular events must address one or more of the Key Elements in ACPE’s Accreditation Standards 3 & 4 (See page 8 for a list of these standards) and also involve active participation from the student.

Students should sign up for co-curricular activities using the COP co-curricular tracking system. Students will need to complete a reflections statement after the event and discuss those reflections with their faculty mentors. Students will need to submit the completed reflection form as part of the Professional Development Course. This process is described on the next page. Co-curricular activities are an important part of a student’s professional development, and integration of curriculum content into practice.

Examples of Qualified Co-Curricular Activities*:

- Public Health Outreach (e.g., Maliheh, Midvale, PrEP Clinic, Flu Clinics, Health Fairs)
- Public Education Events (e.g., Naloxone training, Brown Bag Events, High School Educational Events)
- College Competitions (e.g., APhA Counseling Competition, SSHP Clinical Skills Competition)
- Student Org Sponsored Journal Clubs
- Legislative Day and Legislative Advocacy
- Student Org Sponsored Shadowing Events
- Health-related Community Service
- Training/certifications (outside of PharmD curriculum)
- Professional Meetings
- Leadership positions (planning student events, including social and fundraising events)
- COS luncheons
- PLS Faculty Dinners
- Recruitment events
- Career fair/postgraduate/fellowship interviews (interviews do not need to be entered into co-curricular system)
- Professional development events (outside of PharmD curriculum)

Examples of activities that do not meet the requirements from ACPE Standards 3 & 4*:

- attending social or fundraising events (however contributions to the planning of these events are considered a qualified activity)
Students are required to participate in one co-curricular activity per semester and write a reflection about it each semester. The process for completing this requirement is outlined below:

**Activities Listed in the Online Co-Curricular Event System**

1. Use the College’s co-curricular event webpage to view and sign up for a co-curricular activity.
2. Participate in the event.
3. Complete the reflection using the online co-curricular event webpage.
4. Save the reflection as a PDF and upload it to Canvas.
5. Note: you will also need to attach your reflection and include information about your co-curricular event in your mentoring checklist.

**Events Not Listed in the Online Co-Curricular Event System**

1. Contact Dr. Bald (elizabeth.bald@pharm.utah.edu) to determine if the event will count towards this requirement.
2. Participate in the event.
3. Choose four relevant key elements from the standardized reflection questions document (posted in the PDS Canvas page) and write a reflection using the reflection document (posted in the PDS Canvas page)
4. Upload the form to Canvas.
5. Save your reflection assignment and other artifacts from the co-curricular event using the Co-Curricular Activity System’s ‘Add a Reflection’ feature.
6. Note: you will also need to attach your reflection and include information about your co-curricular event in your mentoring checklist.

If you have questions about this process, please contact Dr. Bald: elizabeth.bald@pharm.utah.edu
PROFESSIONAL DEVELOPMENT PROGRAM

Becoming a professional is not as simple as taking a course in a curriculum. Developing professionalism is more than just acquiring knowledge but also involves learning a combination of many skills, leading to consistent behaviors. Professionalism is a process that involves many layers and repeated application in practice. The College of Pharmacy Professional Development Program spans the entire four-years of the Doctor of Pharmacy Curriculum. The Professional Development Seminar (PDS) longitudinal course series is designed to foster the knowledge, skills, abilities, behaviors, and attitudes necessary for students to demonstrate self-awareness, leadership, cultural competency, and professionalism throughout their careers and to promote continuous professional development (CPD) to assist students in developing and maintaining continuing competence while enhancing their professional practice and supporting achievement of career goals. This series consists of eight 0.5 credit hour courses that each focus on a different content theme:

Pharmacy professional societies, including, American Association of Colleges of Pharmacy (AACP), American Pharmacists Association (APhA), American Society of Health-System Pharmacists (ASHP), American College of Clinical Pharmacy (ACCP), and many others, emphasize the need for pharmacists to display and conduct themselves within established professional demeanors. These expectations reinforce the importance of pharmacists in optimal health care delivery, including access, quality, and cost of care, as well as maintaining the gift of trust from society.

Students are expected to demonstrate professionalism by treating all persons with respect, civility, and dignity. The PDS courses, in combination with co-curricular activities, and mentorship programs are designed to facilitate the development of a holistic, health care professional who is focused on improving the health and well-being of individual patients, as well as larger populations.
COLLEGE OF PHARMACY MENTORSHIP PROGRAM FOR PROFESSIONAL STUDENTS

The College of Pharmacy Mentoring Committee chair (Dr. Orlando) along with Student Affairs Office staff assign entering P1 students to a respective faculty mentor to foster a mentor/mentee relationship during the four years of the professional program. Faculty mentors advise students about a wide range of topics including the PharmD curriculum, co-curricular activities, testing, access to student services, and post-graduation plans, among other topics. This structured individualized mentoring and career planning will assist students in choosing optimal didactic and experiential training to prepare each student for a successful and rewarding career in the pharmacy profession.

The student is required to meet with their respective mentor at least once per semester as part of the Professional Development Seminar course requirements. Students will be responsible for scheduling each meeting with their mentor; and, will be required to complete a Mentoring Checklist. During each meeting, students will discuss their academic and professional progress in the PharmD program, professional development seminar assignments, and other topics as outlined in the Mentoring Checklist. The Mentoring Checklist will be signed electronically by both the student and the faculty mentor to document that the student and their mentor have discussed the student's academic and professional progress in the PharmD program.

Mentoring Checklist Process:

1. Student fills out and submits the online mentoring checklist (link found in PDS Canvas page).
2. Form is electronically sent to the student’s faculty mentor once it is submitted.
3. Student contacts their faculty mentor to schedule a meeting to discuss the mentoring checklist. **This should be done at least 2 weeks prior to the submission deadline.**
4. Completed form is sent to student via email after it is signed by the faculty mentor.
5. Student uploads a copy of the completed form to Canvas prior to the deadline.

If a student wishes to change mentors due to scheduling difficulties, personal conflicts, etc., they must contact the Mentoring Committee chair by email stating this need (Dr.Orlando: porlando@pharm.utah.edu). Every effort will be made to accommodate reasonable requests.

Students will also have opportunity to interact with other adjunct pharmacists and/or other pharmacists in the community who volunteer their time to support the Practice Based PRN Mentor Program through the College of Pharmacy and University of Utah Hospital Pharmacy; this program is separate from the aforementioned College of Pharmacy mentoring program.

Students will also be assigned a PharmD research mentor who will supervise the student's research project. This process will be initiated once the student has identified a research project; this process is separate from the aforementioned College of Pharmacy mentoring program.
GLOBAL HEALTH OPPORTUNITIES

Please contact Hanna Raber PharmD, BCPS, BCACP Assistant Professor (Clinical) at hanna.raber@pharm.utah.edu with any questions regarding Global Health opportunities.

CERTIFICATE IN GLOBAL HEALTH

The Division of Public Health in the Department of Family and Preventive Medicine offers a graduate certificate in global health that prepares students to:

- Partner with other health professionals worldwide to tackle emerging global health issues
- Deal with health issues at home that have their origin from other countries and ensure that our population is protected with good health
- Learn from other health professionals across the world

CERTIFICATE IN PUBLIC HEALTH

The Division of Public Health in the Department of Family and Preventive Medicine offers a graduate Certificate in Public Health.

The Public Health Certificate gives students the potential to understand the opportunity and connection public health has in an array of fields such as biostatistics, social behavior, epidemiology, policy and administration, and environmental public health through research, service and education. Also, the Certificate will provide professionals working in the field of public health an opportunity to seek training and certification that will directly impact how they address public health issues in their current professions.

Global Health Ghana

Background:

Like other regions of Africa, Ghana suffers from disease, poverty, and other pressing social issues. While in Kumasi, students will be able to observe and participate hands-on in functioning, effective projects that have been successfully implemented and are positively changing health conditions in West Africa. Field work and activities will take place in Kumasi and surrounding villages. The research site is a cohort of approximately 22,000 people in 20 rural villages approximately 25 kilometers from Kumasi, Ghana. These villages are part of an ongoing collaborative effort between Ghanaian and U.S. researchers to promote health in rural Ghana. The group of researchers, in collaboration with local village leaders, are working together to address pressing health issues including those associated with malaria, maternal health and...
child mortality. Students will be able to participate in research projects that evaluate different aspects of health in the villages. Students will learn about current global health issues including infectious diseases, general dietary practices, water and sanitation, and access to health care. Students will be working with Ghanaian students and faculty from our partnering University, the Kwame Nkruma University of Science and Technology (KNUST). They will also have the opportunity to interact directly with village members by participating in field work programs that focus on community health and development.

**Trip Dates:**
- Annually in June (3 weeks or 4 weeks with optional Paris add-on)

**Global Health Ghana Elective Program**

**Overview**

The purpose of this program is to outline the necessary activities in order for pharmacy students to receive elective credit in their P3 year for participation in Global Health Ghana during the summer before P2 year. Completion of program requirements is not necessary to participate in the Global Health Ghana program, however, is necessary to obtain elective credits within the College of Pharmacy.

**Required Activities:**

**Pre-Trip:**
- Students are to complete the 1 credit course "Preparation for Global Health Service and Learning, PED 6510" through the college of medicine prior to departure (i.e., fall of P1 year)
- Description of course: Service-learning activities in low-resource international settings can come with great challenges for the individual learner as well as the host and the sending institutions. Students involved in clinical care, research or community development efforts frequently encounter ethical, logistical, security or health issues. Furthermore, it is not unusual for students to struggle with the question of how to approach global health efforts in the “right” way. While there is no correct answer to this question, there are many examples of well-intentioned global health activities which led to undesirable or harmful outcomes. Adequate planning, preparation and oversight are necessary to complete a successful global health experience. This course promotes an ethics- based approach to help minimize undue burdens on students and the sending and host institutions, prevent negative effects on patients and/or communities, improve the quality and sustainability of the experience for other students and to bring benefits to institutions as well as trainees. This course will introduce students to a structured approach to and the necessary resources for planning and participating in an ethically guided service-learning experience in an international setting.
- Students are to attend preparation meetings and complete all pre-trip assignments
Trip:

- Students to complete the Global Health Ghana experience (4 credits, 3 weeks) during the summer before P2 year
- Program details: https://medicine.utah.edu/dfpm/public-health/global/learning-abroad/ghana.php

Post-Trip:

- Students are to author and present 1 poster either locally or nationally on research completed during the global health Ghana experience
- Students are to coauthor 1 publication in a pre-approved journal on research completed during the global health Ghana experience

**Procedures for Elective Approval:**

- All required activities must be completed prior to the first day of P3 year. All requirements will be reviewed by Hanna Raber for completeness. Hanna Raber will notify student mentor of completion.
- Once all activities are completed and the student mentor has been notified, the student is to complete a formal ‘Petition to Apply Elective Credits Earned in P1/P2 Year Towards the P3 Elective Requirement’ form.

Up to three (3) hours of prior elective courses may be applied, at the discretion of the curriculum track steward, to meet the P3 elective program requirement

**Thai International APPE Elective**

The Thailand International Elective (TIE) is a 4-week APPE elective rotation that is available to pharmacy students during their 4th year of school. The program provides a working knowledge of global health and the cultural, social, political, and health issues currently facing developing countries such as Thailand. TIE is a comprehensive approach for introducing individuals to international work. TIE participants study tropical medicine, public health methodologies for the developing world, traditional medicine, and finally participate in field practical (clinical) work.

Content includes:

- Social and Environmental Health Care in the Tropics
- Traditional and Alternative Medicine
- Pharmacy Practice in Thailand and the developing world
- Clinical Diseases of the Tropics, such as tuberculosis, leprosy, dengue fever, avian flu, and HIV/AIDS

Faculty Directors:

- Hanna Raber, PharmD, BCPS, BCACP Assistant Professor (Clinical)
- Gary Oderda, PharmD, MPH Professor (Emeritus)
COMMUNITY ENGAGED LEARNING (CEL) / BENNION CENTER SCHOLARS

The University of Utah Bennion Center for Community Engagement was established to promote partnerships between students, faculty, and community partners in authentic settings to address unmet needs in the community. Community-Engaged Learning is a process that integrates theory and practice to enhance learning for students in their chosen professional or field. This program can provide students to plan and implement high impact projects that can strengthen purpose, character, and principles of lifelong learning. Additional information on the Bennion Center and Community-Engaged Learning can be found at: https://bennioncenter.org/

A Community-Engagement Certificate program is available for students and is an opportunity for deeper learning to address complex social challenges. The Community Engagement Certificate requires completion of 21 credit hours, and a project. Additional information can be found at: https://bennioncenter.org/certificate/index.php

STUDENT RECOGNITION AWARDS & ORGANIZATIONS

STUDENT RECOGNITION

The College of Pharmacy recognizes the achievements of professional students in their academic and professional endeavors through letters of commendation, induction into honor societies, professional awards as well as scholarships. Besides the honors at graduation or induction into honor societies at the university level, recognition at the college level includes:

DEAN'S LIST

The College of Pharmacy recognizes professional students who achieve excellence in scholarship (GPA > 3.5) each semester during the academic year. Students receive a letter of commendation from the Dean for their achievements.

RHO CHI HONOR SOCIETY

The Rho Chi Society is the honor society for the pharmacy profession and encourages and promotes scholarly achievement in the pharmaceutical sciences. Membership is attained through election by peers and faculty.

Candidates are eligible for election if they demonstrate academic excellence. The University of Utah is the Beta Epsilon chapter, established in 1955.

Membership is limited to professional entry-level degree students who:

1. Are full-time students enrolled in a professional pharmacy program that is accredited by or has been granted candidate status by the Accreditation Council for Pharmacy Education (ACPE), or the Canadian Council for the Accreditation of Pharmacy Programs, and
2. have completed no less than one-half of the required professional didactic course work as defined for their degree, and
3. rank in the highest 20 percent of their class as determined by the school or college in which they are enrolled and have attained a minimum professional grade point average (GPA) of 3.0 on a 4.0 scale, and

4. have been certified eligible for membership by the dean of the pharmacy school or the dean’s designee.

5. Individuals shall become members of the Society upon compliance with membership requirements, election to membership by the active members of local chapters, report and payment of member fees to the National Office, and after being duly initiated by the chapter membership.

The Rho Chi Society encourages and recognizes excellence in intellectual achievement and advocates critical inquiry in all aspects of pharmacy. The Society further encourages high standards of conduct and character and fosters fellowship among its members. The Society seeks universal recognition of its members as lifelong intellectual leaders in pharmacy, and as a community of scholars, to instill the desire to pursue intellectual excellence and critical inquiry to advance the profession.

The Beta Epsilon chapter of Rho Chi at the University of Utah is active in the pharmacy community, coordinating a residency information night for students interested in learning more about residencies. Rho Chi - Beta Epsilon chapter is also active in the community, providing a unique event each year - the Spring Egg Hunt for children with diabetes and their families.

ACHIEVEMENTS IN PHARMACEUTICAL CARE

Faculty nominates graduating students who have achieved excellence in specific aspects of pharmaceutical care for various awards. Students are recognized at an annual event and receive a commendation. The awards include:

- Facts and Comparisons Award for Clinical Communication Mylan Pharmaceuticals Excellence in Pharmacy
- Merck Award for Clinical Toxicology
- APhA –ASP Senior Recognition Certificate Lilly Achievement Award
- Natural Medicines Comprehensive Database Award Natural Standard Research Collaboration Award TEVA Pharmaceuticals USA Outstanding Student Award
- USHP Student Service Award US Public Health Service Award
- University of Utah Alumni Association Outstanding Senior Award University of Utah College of Pharmacy Dean’s Award
- University of Utah College of Pharmacy Outstanding Seminar Award University of Utah College of Pharmacy Distinguished Service Award University of Utah College of Pharmacy Distinguished Leadership Award University of Utah College of Pharmacy Distinguished Professionalism Award
STUDENT ORGANIZATIONS

Utah Student Pharmacist Alliance (USPA)
American College of Clinical Pharmacy (ACCP)
Academy of Managed Care Pharmacy (AMCP)
American Pharmacists Association - Academy of Students Pharmacists (APhA-ASP)
International Pharmaceutical Student Federation (IPSF)
American Society of Health-System Pharmacists
College of Psychiatric and Neurologic Pharmacists (CPNP)
National Community Pharmacists Association (NCPA)
Utah Pediatric Pharmacy Advocacy Group (UPeds)
Oncology and Hematology Pharmacy Advocacy Group (U-Onc)
ASUU
Phi Lambda Sigma
Kappa Psi
College Student Council (CSC)
Alumni Association

STUDENT ORGANIZATIONS

COLLEGE STUDENT COUNCIL (CSC)

The College Student Council (CSC) is composed of representatives from all classes of professional students and PhD students. The P1 class will be requested to elect a representative early in the Fall Semester. Get to know your classmates soon so that you can elect someone who will effectively represent you throughout your professional schooling.

One of the purposes of the CSC is to facilitate communication between the College administration and the students and between the students themselves. The CSC representatives meet on a regular basis with the Dean and Executive Associate Dean for Professional Education at which time matters of mutual interest are discussed.

Students are encouraged to utilize their CSC representative to communicate concerns anonymously and/or collectively to the College administration. The CSC performs a vital role in making recommendations to the departments, college, the Dean and University officials concerning the retention, promotion and tenure of college faculty members. CSC representatives are asked to perform reviews of specified faculty one or more times a year from a student perspective. CSC representatives are asked to attend a university workshop on the retention, promotion, and tenure process each year. CSC representatives attend the College Council meetings each semester. The class College Student Council representative will also be involved in requesting funding from the Associated Students of the University...
of Utah (ASUU) for college-wide events and activities.

As is apparent from the above, the CSC has a number of important functions. It is vital that the P1 class elect a representative who will be responsive to the needs of the class, and who will effectively communicate student concerns to the College administration. Your CSC representative will serve for two years and then another election will take place at which time your class will either elect a new representative or retain the current representative.

Therefore, when the election occurs, make your selection with care.

**UTAH STUDENT PHARMACIST ALLIANCE (USPA)**

We, the officers of USPA, welcome you to the University of Utah College of Pharmacy. USPA is an umbrella student organization that was founded to foster the professional development of student pharmacists; to enhance learning of the pharmaceutical sciences; to promote career development; and to facilitate cooperation and integration among the various pharmacy student organizations at the University of Utah College of Pharmacy.

USPA is an umbrella student organization that includes the following national organizations:

- American Pharmacists Association Academy of Student Pharmacists (APhA-ASP)
- American Society of Health System Pharmacists Student Society (ASHP-SSHP)
- National Community Pharmacists Association Student Society (NCPA)
- Academy of Managed Care Pharmacy (AMCP)
- University of Utah Student College of Clinical Pharmacy (UUSCCP)
- Utah Pediatric Student Advocacy Group (UPeds)
- College of Psychiatric and Neurologic Pharmacists (CPNP)
- The Utah Pharmacists Association (UPhA)
- The Utah Society of Health System Pharmacists (USHP)

USPA is responsible for organizing and coordinating all student events and/or functions that are implemented by the student organizations listed below. As such, USPA provides a plethora of opportunities for students to develop as a professional, including:

- Leadership positions within USPA and its corresponding student organizations
- Networking with local, regional, and national professionals
- Admission to the Career Opportunity Series luncheons
- Monetary assistance for attending regional and national meetings

Approximately, 65% of the student body at the University of Utah College of Pharmacy are currently active members. USPA conducts a membership drive at the beginning of the fall semester. Membership runs from November 1st to October 31st. There are membership dues for this organization. We congratulate you on your acceptance into the College of Pharmacy and in your choice of profession. We look forward to meeting you during the membership drive and recruitment campaign.
AMERICAN PHARMACISTS’ ASSOCIATION – ACADEMY OF STUDENTS OF PHARMACY (APHA-ASP)

APhA-ASP is the student organization of the American Pharmacists Association (APhA). APhA seeks to define and improve the practice of pharmacy in many different areas. In order to supplement the educational experience of pharmacy students, APhA works through the local student APhA-ASP chapters. The local society of the national association is the Utah Pharmacists Association (UPhA). UPhA has generously offered free student membership for all members of USPA. Your membership runs from November 1st to October 31st of each academic year.

The goal of APhA-ASP is to increase students’ professionalism and to promote both the mission of APhA and the profession of pharmacy through numerous activities. The 12,000 members nationwide have the opportunity to:

- Compete in local and national Patient Counseling Competitions
- Investigate Pharmacy Residency Programs and Future Career Opportunities
- Participate in APhA Summer Internship Program
- Develop leadership skills through participation in local and national committees
- Advance the profession of pharmacy through participation in Advocacy & Policy Committees
- Opportunity to Organize and Participate in Professional Activities
- Opportunity to Organize and Participate in Patient Care Projects
- Attend and Network with other Pharmacy Students at three different conventions throughout the year.

The chapter hosts a Fall Social every year to introduce APhA-ASP and to provide networking opportunities for students. The chapter also hosts various other social functions throughout the year.

Approximately, 65% of the student body at the University of Utah College of Pharmacy are currently active members. Membership runs from November 1st to October 31st. There are membership dues for this organization.

As members of APhA-ASP you will receive three publications that update students on APhA and student issues/activities. These publications include:

- American Pharmacy Journal - published monthly
- Pharmacy Today - bimonthly newsletter
- Pharmacy Student - published every semester

Additional benefits of membership include:

- Free liability insurance for fourth year pharmacy students (on rotations)
- Discounts for several software, textbooks, and publications
- Free membership to the Utah Pharmacists Association (UPhA)
- Free College of Pharmacy Student Directory
AMERICAN SOCIETY OF HEALTH-SYSTEMS PHARMACISTS (ASHP-SSHP)

The American Society of Health-System Pharmacists (ASHP) is the national professional association that represents pharmacists in organized health care settings. ASHP is an organization structured to offer members the opportunity to influence policy and activities affecting the practice of pharmacy.

The local society of the national association is the Utah Society of Health-Systems Pharmacists (USHP). Leadership positions and committee membership are available and encouraged within USHP.

As an organization, our goals and objectives are to provide educational programs for the students and faculty, assist in providing an adequate future supply of organized health-care pharmacists, and provide information on drug therapy, health care and hospital pharmacy to interested individuals.

Our mission is to represent the students and provide leadership that will enable students to provide quality pharmaceutical services that foster efficacy, safety and cost effectiveness of drug use; to contribute and provide quality pharmaceutical services; to contribute and provide programs and services that emphasize the health needs of the public and the prevention of disease; and to promote pharmacy as an essential component of the health care team.

With membership in SSHP the student also becomes a member of the national society and receives the following:

- Professional Networking Growth (eg, ASHP Connect, Pharmacy Sections and Forums, Clinical Skills Competition, Internship and Externship opportunities)
- Career Development and Leadership (eg, Student Career Resources including Residency Preparation, Leadership and Practice Resource Centers, Programs and Awards)
- Student Discounts (eg, Publications, PharmPrep Online, Dues)
- News and Current Information (eg, AJHP, Daily Briefing, Advocacy Updates)

A full list of student benefits are available at:
https://www.ashp.org/Import/MEMBERCENTER/StudentForum/AboutUs/Benefits.aspx

There are membership dues for this organization.

NATIONAL COMMUNITY PHARMACISTS’ ASSOCIATION (NCPA)

The National Community Pharmacists Association, founded in 1898 as the National Association of Retail Druggists (NARD) represents the pharmacist owners, managers, and employees more than 24,000 independent community pharmacies across the United States. The nation's independent pharmacies, independent pharmacy franchises, and independent chains dispense nearly half of the nation's retail prescription medicines.

NCPA is dedicated to the following goals:

- Continuing growth and prosperity of independent community pharmacy in the United States
- Representing the professional and proprietary interests of independent community pharmacists and will vigorously promote and defend those interests
Providing high-quality pharmacist care and to restoring, maintaining, and promoting the health and well-being of the public we serve

Fostering the inherent virtues of the American free enterprise system and will do all we can to ensure the ability of independent community pharmacists to compete in a free and fair marketplace

Value the right to petition the appropriate legislative and regulatory bodies to serve the needs of those we represent

Utilize our resources to achieve these ends in an ethical and socially responsible manner

Memberships in NCPA provides the following benefits:

- Opportunities to be active in current local and national legislation
- Subscriptions to American Pharmacist Magazine and NCPA eNews Weekly
- Develop Student leadership skills via leadership positions
- Participation in national Pruitt-Schutte Student Business Plan Competition
- Available Scholarships and student loans
- Search Internship and employment database

There are membership dues for this organization.

**ACADEMY OF MANAGED CARE PHARMACY (UU-AMCP)**

Academy of Managed Care Pharmacy is focused on using manage care pharmacy to improve health care for all and is the newest student chapter at our college. AMCP’s vision is managed care pharmacy improving health care for all.

The Academy of Managed Care Pharmacy is focused on using managed care principles to improve health care for all. The U of U AMCP is the newest student chapter at our college. Student members can get involved in the Pharmacy and Therapeutics (P&T) Committee Local Competition. Our chapter’s best P&T team is also eligible for over $4000 to attend and compete at the Spring Annual Conference. Membership also includes a subscription to the Journal of Managed Care Pharmacy (JMCP) and the Daily Dose newsletter. Student members from our local chapter have found leadership opportunities as the AMCP delegate in the APhA-ASP House of Delegates and have been selected for the competitive summer internship program. Members are also eligible for reimbursement from our local chapter and ASUU to attend the Fall Educational and Spring Annual conferences.

There are membership dues for this organization.

**INTERNATIONAL SOCIETY OF PHARMACOECONOMIC OUTCOMES RESEARCH (UU-ISPOR)**

The mission of the UU-ISPOR student chapter is to provide a forum for gaining knowledge and developing leadership skills necessary for professional advancement in pharmacoeconomic and outcomes research by increasing awareness of the goals and objectives of the Society and working together with members of the pharmaceutical industry, health care related organizations, and academia.
ISPOR promotes the science of pharmacoeconomic (health economics) and outcomes research (the scientific discipline that evaluates the effect of health care interventions on patient well-being including clinical outcomes, economic outcomes, and patient-reported outcomes) and facilitates the translation of this research into useful information for healthcare decision-makers to ensure that society allocates scarce health care resources wisely, fairly, and efficiently. ISPOR is a fully international, educational and scientific organization that embraces health care researchers from all disciplines conducting health care outcomes research. These disciplines include pharmacoeconomic (health economics), epidemiology (pharmacoepidemiology), decision analysis, modeling, risk assessment, patient-reported outcomes (quality of life), and use of ‘real world’ data such as health care database analyses, observational studies, and patient registries. Health care includes use of pharmaceuticals, biologics, genetically derived products, medical devices, delivery systems, and health services.

There are membership dues for this organization.

**Oncology and Hematology Pharmacy Advocacy Group (U-Onc)**

The Oncology and Hematology Pharmacy Advocacy Group is an independent organization started at the University of Utah College of Pharmacy. This organization is focused on raising awareness of the role of pharmacists in the world of oncology-related medicine. The goals of this organization are to create lasting relationships and further the fight against cancer.

There are membership dues for this organization.
VI. STUDENT AFFAIRS

OFFICE OF STUDENT AFFAIRS

Mission Statement

- To recruit the best and brightest students to the College of Pharmacy while striving to create an inclusive environment that demonstrates respect for gender, sexual orientation, age, race, ethnicity, religion, and socioeconomic status.
- To support our students through an open-door policy of respect, compassion, and professionalism.
- To enrich all students’ educational experience with empathetic advising, excellent service, networking and leadership opportunities.
- To instill an exceptional degree of scholarship and professionalism in our students while inspiring a mentality of lifelong learning and service.

Value Statement

Excellence in advising will be pursued in an environment that respects the student, instills integrity and professionalism, assures ethical behavior, promotes inclusion, and creates a desire for life-long learning.
STUDENT WELLNESS AND RESILIENCY

Resiliency and wellness are fundamental to a successful learning environment. These elements are priorities at the University and in the College of Pharmacy. The University Wellness website is located at: https://wellness.utah.edu/ Students can find information and tips to promote wellness and maintain balance in education and life. Wellness principles include: intellectual, spiritual, environmental, physical, emotional, social, financial, and occupational aspects of life.

UNIVERSITY COUNSELING CENTER

http://www.sa.utah.edu/counsel/

The University of Utah has a Counseling Center for students. There is no charge for the initial intake session and billing for follow up sessions are based on a sliding scale. The Counseling Center does not bill the student’s insurance because their cost is minimal—approximately $10.00. The Counseling Center is located in the Student Services Building in Room 426, and it is open Monday through Friday from 8:00 AM – 5:00 PM. Emergency after- hours # (801) 587-3000.

The university has additional excellent resources to promote emotional and physical wellness, including the Counseling Center: https://counselingcenter.utah.edu, the Wellness Center: https://wellness.utah.edu, and the Women’s Resource Center: https://womenscenter.utah.edu. Counselors and advocates in these centers can help guide you to other resources to address a range of issues, including substance abuse and addiction.

Student Life

If you have questions regarding academic issues, you may discuss them with the Executive Associate Dean for Professional Education, or if you have questions regarding your program of study and other requirements associated with the Professional Program, contact:

Shawna Webster, Associate Director of Student Services 105C Dean’s Suite | 581-1848
Make it a habit to check your mailbox next door to Room 250 and across from the Pharmacy Computer Laboratory (216 Skaggs Hall) of Skaggs Hall and your university e-mail. Notices and course work are distributed to you through your mailbox and e-mail.

It is your responsibility to inform the Student Affairs Office (105 Skaggs Hall) of any changes in your current status (i.e., name, address, telephone number, etc.). Important letters are mailed directly to your home address. If you leave Salt Lake City during the summer, please provide your summer address to the Student Affairs Office (105 Skaggs Hall) at the end of Spring Semester to ensure that you receive information regarding the next academic year.

ASUU courtesy phones are located in the basements of Skaggs Hall and the Health Sciences Library.

Access to the College of Pharmacy Computer Laboratory, 216 Skaggs Hall, is obtained through your Student ID Card.

Please refrain from taping posters, announcements, etc., on windows and walls. There are six bulletin boards located throughout Skaggs Hall for this purpose.

The Bistro Café @ the Hub is located on the first floor of the Health Sciences Education Building.

The Heritage Commons cafeteria is located about one block south of Skaggs Hall. Primary Children’s Medical Center cafeteria is located on the first floor.

The College of Pharmacy lockers are located on the second floor of the Health Sciences Education Building.

The Health Sciences Bookstore is open from 8:00 a.m. to 5:30 p.m. Monday through Friday and is in the Health Sciences Education Building (HSEB), first floor.

**Campus Alert System**

The Campus Alert system is the University of Utah’s mass notification system to provide information to students, faculty and staff of emergencies (snow closures, blocked roads, power outages, gas leaks etc.). The Campus Alert System will notify students via email, text message, or telephone voice message. Students must opt into this alert system to receive campus alert messages. To register for campus alerts, go to [http://alert.utah.edu/](http://alert.utah.edu/)

In addition, students may receive information about campus status following an overnight storm through campus radio and television stations (KUER – FM 90.1, and KUED TV Channel 7).

**Student Safety / SAFEU**

[https://safeu.utah.edu/](https://safeu.utah.edu/)

Student safety in all learning environments is a priority. Students should observe the following guidelines to avoid becoming a victim of crime:

- Be aware of your surroundings at all times. Know where you are, where you are going and what to expect. Use well-lit walkways at night.
- Avoid walking alone. Walk in pairs/groups or call University Police at 801-585-2677 (801-585-COPS) for a police escort to your car after dark.

- Be aware of blue light emergency phones around campus that ring directly to the University Police. All campus and pay phones can access emergency services by dialing 9-911.

- Report suspicious activities or persons to University Police at 801-585-2677 (585-COPS).

- Do not leave personal items (computer, keys, purse, backpack etc…) unattended.

- Register your personal property with the University Safety Department: https://police.utah.edu/property-registration/

- Secure your computer. Computer savvy thieves can access your files and personal information. Password- lock your equipment or log off when your computer is unattended.

- Lock your bicycle in racks outside campus buildings (not to trees or railings). Take easy-to-steal items (helmet, pump, bottles, quick release seat, etc.) with you.

- Lock the outside door of secured buildings and do not allow unauthorized people in after hours.

The University of Utah seeks to provide a safe and healthy experience for students, employees, and others who make use of campus facilities. In support of this goal, the University has established confidential resources and support services to assist students who may have been affected by harassment, abusive relationships, or sexual misconduct. A detailed listing of University Resources for campus safety can be found at https://safeu.utah.edu
WEAPONS ON CAMPUS

With two exceptions, the University of Utah does not allow lethal weapons on campus – that policy applies to firearms, knives, explosives, or other items whose central purpose is inflicting harm on others. The two exceptions to this policy are the firearms carried by law enforcement officers and concealed weapons carried by lawful permit holders. Those persons who have a permit to carry a concealed weapon must keep their weapons concealed while on campus.

Faculty, staff, or students may become aware of the presence of a weapon in their immediate vicinity either by happenstance as when a concealed weapon is momentarily visible or through deliberate action of the possessor. In either event, the advice of law enforcement experts is the same – stay calm and avoid confrontation whenever possible.

Nobody other than an official law enforcement officer should ask the possessor of a weapon whether he/she has a concealed carry permit. Trained peace officers are the right people to deal with this issue.

In all situations – STAY CALM – AVOID CONFRONTATION, if at all possible.

1. If a weapon is not being brandished in a threatening manner, there is no reason for you to become directly involved with the weapon. This is true whether it is openly visible or only briefly exposed. If you have any concern about the weapon’s presence, then
   a. make note of the identity of the possessor
   b. call 585-2677 (5-COPS) or 9-911
   c. do not ask the possessor for a weapon permit
2. If a weapon is being brandished in a threatening manner or the possessor seems unstable, then
   a. STAY CALM – do not make the situation worse by confrontation if it can be avoided
   b. call 585-2677 (5-COPS) or 9-911
3. If you are threatened directly or if violence erupts, then
   a. STAY CALM
      i. take evasive action
      ii. do not enter any area without knowing what is there
      iii. use self-defense methods only to the extent that you are familiar or comfortable with them
      iv. look for the most solid protection available (e.g., prefer solid wood furniture over drywall)
   b. Call 585-2677 (5-COPS) or 9-911
Communication with Students and Official Notifications

Students are expected and required to maintain current contact information with the College of Pharmacy. This information is essential for timely communication of important information. Contact information includes current address, telephone number and email. This information can be updated in the CORE ELMS software.

Health Sciences Library

http://library.med.utah.edu/lib/

The Spencer S. Eccles Health Sciences Library provides access to the published literature through licensing electronic journals that are the “version of record”, replacing print journals as the industry standard. For items not locally available, the library obtains needed items on demand at no charge to students through interlibrary loan. The library’s physical collection contains over 212,000 volumes.

The library supports Open Access journals that advance science by making new findings ubiquitously available and accelerating the translation of knowledge from research bench to evidence-based practice.

The Eccles Health Sciences Library is the founder and a member of the Utah Health Sciences Library Consortium (UHSLC), which includes 15 hospital and special academic health sciences libraries. The UHSLC offers reciprocal interlibrary loan services and education programs, a very important asset for our medical students. The Eccles Health Sciences Library is also a member of the Utah Academic Library Consortium (UALC) whose members include 14 college and university libraries in Utah, the Utah State Library Division, and 10 college and university libraries from Nevada.

Student Resource Library

The Resource Library houses online and hard copy references, including basic science references, study aids for shelf and board exams, clinical handbooks, standard reference texts, and information for students with questions about match and residency training. The Resource Library is located in 1C-103 SOM.

THE OFFICE OF EQUAL OPPORTUNITY AND AFFIRMATIVE ACTION

http://www.oee.utah.edu/

The Office of Equal Opportunity and Affirmative Action (OEO/AA) provides information and training to the university community regarding their equal opportunity and affirmative action rights and responsibilities. OEO/AA encourages outreach and recruitment of diverse students, faculty, and staff in programs and activities and acts as a resource for students regarding projects and assignments. In addition, this office consults with any member of the campus community regarding equal opportunity and affirmative action issues and possible violations.

Complaints may be filed to Shawna Webster, College of Pharmacy Title IX Deputy, by employment applicants, faculty, students, staff, and participants in University programs or services who feel they may
have been discriminated against on the basis of race, color, religion, national origin, sex, sexual orientation, age, status as a disabled individual, disabled veteran, or veteran. Cognizable allegations of discrimination, including sexual harassment and retaliation, will be investigated by OEO/AA.

**OEO/AA Responsibilities**

- Oversee the University’s Efforts to remain in compliance with Equal Opportunity and Access laws
- Serve as the ADA/Section 504 & Title IX Coordinator
- Investigations
- Internal and External
- ADA Accommodations for employees and visitors
- Accommodation requests related to religion or pregnancy
- Affirmative Action Plan
- Minors in University Programs Policy 1-015

The Office of Equal Opportunity and Affirmative Action 201 South Presidents Circle John R. Park Building, Room 135 Phone: (801) 581-8365  FAX: (801) 585-5746

**Disability Services**

[http://disability.utah.edu](http://disability.utah.edu)

The Center for Disability and Access Services (CDA) provides accommodations and support for the educational development of students with disabilities. Students with a documented disability and students seeking to establish the existence of a disability and to request accommodation are required to meet with the CDA Director for recommended accommodations. The CDA will work closely with eligible students and the Office of Professionalism, Evaluation & Learning to make arrangements for approved accommodations.

University of Utah Center for Disability and Access Olpin Student Union Building, Room 162 Phone (Voice/TDD): (801) 581-5020  Email: info@disability.utah.edu

**FINANCIAL AID - FEDERAL AID FOR PHARMACY STUDENTS**

**Graduate School Loans for all University of Utah Graduate Students who qualify:**

**Direct Unsubsidized Loans** – These loans carry an interest rate that begins to accrue with the first disbursement of the loan. Students may be eligible for a six-month grace period to start paying back the loan after graduation or after they fall below half-time enrollment. To check on the status of their grace period or repayment status, students will want to contact their federal loan servicer. Students may log into their [www.studentaid.gov](http://www.studentaid.gov) account to locate their federal loan servicer contact information. There are maximum amounts that a student can borrow in this loan program.
Direct Graduate PLUS Loan – These loans carry an interest rate which will begin to accrue with the first disbursement of your loan. There is no borrowing limit, but you cannot go over a student’s Cost of Attendance. Students may apply for this loan online through www.studentaid.gov. Students may have a six-month grace period to start paying back the loan after graduation or after they fall below half-time enrollment. To check on the status of their grace period or repayment status, students will want to contact their federal loan servicer. Students may log into their www.studentaid.gov account to locate their federal loan servicer contact information.

NOTE: The Direct Graduate PLUS Loan requires a credit history check, unlike Direct Subsidized and Unsubsidized Loans.

Graduate School Loans for all University of Utah Pharmacy Students who qualify:

Health Professions Student Loan for Pharmacy Students – These loans carry an interest rate of 5%, which does not accrue while you are in school. There is a 12-month grace period once a student’s enrollment ceases to be full time. This loan is based on need, and does require additional paperwork to be submitted. You must set up a time to meet with Shana Yem Program Manager – Professional Schools, in the University Office of Scholarships and Financial Aid to talk about the requirements of this loan. Funds are limited, and awards are made on a first-come, first-serve basis.

Shana Yem, Program Manager—Professional Schools
Shana Yem is available to meet with you one-on-one to talk to you about any financial aid questions you might have. If you would like to set up an appointment time with her, please call the University Office of Scholarships and Financial Aid email Shana at Shana.Yem@utah.edu.

University Office of Scholarships and Financial Aid, Student Services Building, Room 105

For general information about how to apply for federal aid, please visit the University Office of Scholarships and Financial Aid website: http://www.financialaid.utah.edu
Contact the University Office of Scholarships and Financial Aid Phone: 801-581-6211 financialaid@utah.edu.

Emergency Loan Program - Pharmacy students in need of financial aid may obtain emergency loans from the College. Application may be made at any time. Students should contact Student Affairs and the Executive Associate Dean for Professional Education for more information.

Income Accounting and Student Loan Services

http://fbs.admin.utah.edu/income/
The Income Accounting Office is located at 165 Student Services Building. This Office assists students with tuition bills, tuition account refunds, third party tuition bills, tuition reductions, graduate tuition
benefits, and all other student tuition issues. Students may pay tuition and fees at the Income Accounting Office.

Bills are generated for institutional charges, federal and short-term loans, and dishonored checks, and are sent to students and borrowers from this office. This office counsel’s student loan borrowers with payment issues, federal loan deferments and cancellation requirements, loan entrance and exit counseling, and credit reporting issues.

University Registrar

http://ww.sa.utah.edu/regist/

The Registrar's Office provides assistance to students and staff with registration, graduation, grading, academic calendars, transcripts, verifications, veteran services, scheduling, FERPA, policy, procedures, and student information. The Registrar’s Office is located at 250 Student Services Building. Infractions (academic, financial, health, etc.) that result in withholding of registration and/or withholding of release of the transcript must be addressed department placing the hold and the Registrar's Office.

University Housing

http://housing.utah.edu/ or http://apartmetns.utah.edu

The University of Utah Housing and Residential Education Department and the University Student Apartments assist students with housing needs and provide information regarding single student/family accommodations on campus. For housing inquiries please contact the Housing and Residential Education Department at 801-587-2002. Or University Student Apartments at 801-581-8667.

Campus Recreation

http://web.utah.edu/campusrec/

Students are eligible to free use of the facilities at the Health, Physical Education, and Recreation Complex (HPER) and the Einar Nelson Field house.

Parking

https://commuterservices.utah.edu/

The Department of Commuter Services requires students who drive to campus to register their vehicles and purchase annual parking permits. Vehicles are cited under a university citation system for rule infractions. Parking citations may be appealed. Complete campus parking regulations are listed in the Parking Regulations Brochure available from Parking Services.

Students are encouraged to call University Police at 801-585-2677 (801-585-COPS) for after-hours
Campus Police escort to their vehicle.

**Utah Transit Authority (UTA) Pass**

[https://commuterservices.utah.edu/uta/](https://commuterservices.utah.edu/uta/)

Students are eligible to receive a UTA Ed Pass at no charge. Students must request the UTA Ed Pass when applying for their photo identification name badge. The ID badge can be used on the UTA vehicles—tap on/tap off system. Card readers are located at each door on every UTA bus and at the entrances to all TRAX and FrontRunner stations. Be sure to tap on when boarding and tap off when exiting to validate your fare. Replacements costs will be charged for lost or stolen passes.

ONBOARDING AND POST-ADMISSION REQUIREMENTS

Upon acceptance of an offer of admission, a new student will have several requirements prior to the starting of classes. Those students accepting admission should understand that some of these requirements may take several weeks, and that students should immediately begin to work on completing them.

- **Criminal Background Check**
  Students undergo a background check during the admissions process to the University of Utah College of Pharmacy and are required to get an annual background check throughout their course of study.

- **FERPA Release Form**

- **Immunizations**
  See Appendices for additional information on vaccination and immunization requirements.

- **Pharmacy Intern License**
  Students will need a verification from the College of Pharmacy in order to complete their application for a pharmacy intern license with the Utah Division of Occupational and Professional Licensing. Prior to issuing the verification, students must have uploaded into their CORE ELMS Profile:
  - Vaccination and Immunization Information
  - Report of Criminal Background Check
  - FERPA Release

Students who are not compliant with these post-admission requirements, may have a hold placed on their ability to register for classes, and would not eligible to participate in Experiential Education rotations (this applies to IPPE and APPE). Continued non-compliance with these requirements will result in suspension and possibly dismissal from the Doctor of Pharmacy Program. If a student has any questions on these requirements, they should immediately contact the Office of Student Affairs.

CRIMINAL BACKGROUND CHECKS FOR ALL PROFESSIONAL STUDENTS

In addition to a background check conducted by Certiphi, Inc., the Division of Professional and Occupational Licensing (DOPL) requires that all professional pharmacy personnel (Pharmacists, Interns, and Technicians) submit fingerprint cards in a form acceptable to the Division at the time of internship licensure application and consent to a fingerprint background check by the Utah Bureau of Criminal Identification and the Federal Bureau of Investigation regarding the application. (Utah Code: 58-17b-307).

This DOPL background check will occur at the time of admission to the College of Pharmacy for the purposes of receipt of a pharmacy internship license. The State of Utah Pharmacy Internship License is mandatory for formal acceptance into the University of Utah College of Pharmacy and to begin coursework in the professional program.

If a student has been accused or convicted of a felony or misdemeanor in the past five years, the student should discuss this issue immediately with the Executive Associate Dean for Professional Education.

Updated criminal background checks are completed annually in the spring for every year of participation in the PharmD program. If a student has been accused or convicted of a felony or
misdemeanor during their professional career at the University of Utah, they should discuss this issue immediately with the Executive Associate Dean for Professional Education. Current convictions during the program can impact the College's ability to be place students in rotation sites or result in dismissal from the program.

COLLEGE OF PHARMACY DRUG TESTING POLICY

Student Information Sheet

The College of Pharmacy supports the University of Utah Health Sciences Center Drug Testing Policy (https://regulations.utah.edu/human-resources/5-114.php) and the University Drug-Free Workplace Policy (https://regulations.utah.edu/human-resources/5-113.php). Faculty, staff, and students in the College are informed of these policies with the understanding that individuals working in a patient-sensitive area may be subjected to a drug test if there is reasonable suspicion of a drug loss or diversion event. Be aware that you may affiliate with clinical settings other than the University of Utah that have a drug testing policy that differs from the University of Utah Health Sciences Center Drug Testing Policy. However, if you are on university business (for example, clinical rotations), whether you are on or off campus, you are subject to the University of Utah Health Sciences Center Drug Testing Policy.

Policy

In accordance with University of Utah Policy 5-114: Drug Testing, it is the policy of the University of Utah Health Sciences Center and the College of Pharmacy to maintain a drug-free workplace to establish, promote, and maintain a safe and healthy environment for patients and a safe and healthy working and learning environment for employees, students, and volunteers. It shall be a violation of this policy for any covered individual to engage in the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance at the workplace, including being under the influence or impaired at the workplace, while engaged in university business on or off campus, or in any manner that violates criminal drug statutes.

Unauthorized use or possession of alcohol at the workplace, including being under the influence or impaired by alcohol at the workplace, or while engaged in university business on or off campus is also prohibited. By establishing a program to determine whether covered individuals are engaged in substance abuse, the University of Utah Health Sciences Center and the College of Pharmacy seek to prevent the risks associated with such abuse.

Application

Policy 5-114 applies to University of Utah Health Sciences Center faculty, staff, students, and volunteers who are in patient-sensitive positions. Patient-sensitive position is defined as "...a position involving patient contact, patient diagnostic or therapeutic functions, or a position in which..."
the individual works in or has job- or education-related access to patients or patient care areas. These individuals are referred to as "covered individuals."

Process

Faculty, staff, and students that fulfill the requirements of a covered individual will be subject to a drug test when a situation of reasonable suspicion of a policy violation exists or a drug loss or diversion event occurs. Specific steps must be followed to carry out the drug test. All information relating to a drug test will be maintained separately from a student's academic file.

Disciplinary Action for Students

Students failing a drug test will discontinue all job- or education-related patient contact. Academic action by the Executive Associate Dean for Professional Education will be based on the results of an investigation and on existing university policies and procedures. A failed drug test may result in sanctions including suspension or expulsion (dismissal) in accordance with University of Utah Policy 6-400: Code of Student Rights and Responsibilities; http://regulations.utah.edu/academics/6-400.php, and Policy 6-410: Student Academic Performance, Academic Conduct, and Professional and Ethical Conduct. https://regulations.utah.edu/academics/6-410.php

The complete University of Utah Health Sciences Center Drug Testing Policy is available from the Dean's Office upon request.

COMPUTER INFORMATION

LAPTOPS, HOME WI-FI AUDIENCE POLLING AND NETWORK SECURITY

Students are required to bring their own computer systems for academic use:

A laptop with video and microphone capacity is required for both instruction and assessment. Examples include viewing course handouts during class using Canvas (the University’s learning management system), taking quizzes and exams electronically with Examplify, and taking the Pharmacy Curriculum Outcomes Assessment (PCOA) exam electronically. Tablets are acceptable for notetaking, but they are not compatible with the testing system, regardless of brand or operating system.

We don't have a preferred laptop manufacturer to recommend, but due to new HIPPA requirements, all student computers require data encryption (see Section on Security Requirements below).

Please check with the University Book Store or Health Sciences Bookstore for the current student discount pricing on systems.

Here are some issues to keep in mind:
- Make sure the computer has a current supported operating system: Windows 10; or Mac OS/X.
- Note 1 – Windows 7, Windows XP, Windows 98, NT and Mac OS 9 are not allowed nor supported at the University of Utah
- Note 2 - PC systems running Windows Home system will need to be upgraded at the cost to the student to Pro to support hard drive encryption (see Section on Security Requirements below).
- Wireless Network capable (5 GHz only, 2.4 GHz not allowed)
- Built in Camera and Microphone
- You are responsible for backing up your data. An encrypted external hard drive system is recommended for such purpose.

If you have any questions about these requirements, please email Weston Tolman or Mars Jacobsen from our IT department (cpcss@pharm.utah.edu).

**Recommended software should also be installed:**

We recommend MS Office software (or comparable) that you'll use to read/make documents, spreadsheets, and presentations.

Students can download free MS Office365 Cloud for both Win and Mac systems. by visiting the Office of Software Licensing (link found below) and meeting the eligibility requirements:

- Students are eligible inasmuch as they are currently enrolled in a degree-granting program at the University of Utah. Students must be currently enrolled in at least one class that, when completed, will result in the awarding of credit hours verifiable through the Office of the Registrar. You must be enrolled at the time you purchase the software.
- The University authentication system does not recognize new students as eligible until 7-14 days before classes begin.

**Home Wi-Fi Requirements:**

Adapting to changing health concerns out of classroom testing maybe become an option. A reliable Wi-Fi signal is required for your exams for uploading and downloading exam files. Please be aware ‘Phone Hotspots’ are not stable enough for this task. You will be given a practice exam to help identify issues that you may have at home before you have an exam.

**Audience Polling**

The College of Pharmacy utilizes Poll Everywhere for audience polling in the classroom. Education research suggests that such polling can increase learning because it is student-centered, increases student interaction, and provides quick in-class assessments of course material. Such assessments may either be graded or not. If graded, your instructors can transfer your results to Canvas, where you can track your performance on quizzes, exams, and other assessment measures.
Poll Everywhere supports both SMS voting and Web voting, though the latter will be used in the College’s PharmD courses. Instructors will set up a custom web page (PollEv.com/instructor_name) for polling in each of their courses, which can be accessed by any device (e.g., laptop, smart phone, tablet) that supports a web browser. See individual course syllabi for additional information. Students are required to do the following:

- Bring your web-enabled device (laptop, smart phone, tablet) with working web browser to class every day (may vary by course/instructor)
- Use ONLY YOUR OWN web-enabled device to access PollEv.com
- Maintain your web-enabled device in good working order (batteries charged, etc.)

Any student using another person’s web-enabled device to access PollEv.com is violating the University’s academic honesty policy (see Student Code). All students involved in such academic misconduct, including the original owner as well as the unauthorized user of the clicker, are subject to academic sanctions (see Student Code).

Poll Everywhere is provided free of charge by the University of Utah Spencer S. Eccles Health Science Library. Additional information about Poll Everywhere is available from the online Poll Everywhere Guide (www.polleverywhere.com/guide). Also, Ms. Donna Baluchi (donna.baluchi@utah.edu) is the Poll Everywhere resource person at the Eccles Health Science Library. If Donna is not available, you can also send a message to the library’s list server (mailto:ehsl-reference@lists.utah.edu)

Recording of Class Lectures:

Faculty members hold the copyright to their written course materials, which includes slides and other materials created by the faculty member that are displayed in class or distributed to students. For these materials, unauthorized reproduction or distribution (such as on the Internet) would infringe on the faculty member’s copyright rights. Students wishing to record lectures must seek the instructors’ permission.

Security Requirements:

The University Security Office requires that all systems accessing the University networks must have an Anti-Virus program installed and kept up to date.

In order to secure protected health information (PHI), full Hard Drive Encryption for all Laptops is required. Systems that are not encrypted will not be allowed network access at the University Health Sciences network.

USB memory sticks and External Hard Drive systems must be encrypted before use. A compliant USB Memory Stick will be provided to you once for free of charge.

Please do not enable auto-forwarding of university email to personal addresses. This is a violation of policy. Only the uMail system or our encrypted email servers are authorized for sending and receiving University email.

Restricted use of Cloud Storage Services. This means any sharing of our PHI data with services such as Dropbox is a HIPAA privacy/security violation, potentially to the point of being a reportable breach. The concern here isn’t just limited to PHI. Any potentially sensitive or personal data should be considered at
risk when it is being shared outside our own network security controls. The University has instituted a HIPAA-compliant, secure cloud storage service (uBox) available to all students that can be accessed at box.utah.edu.

Restricted Software: Please be aware Peer2peer file sharing is not allowed on the University networks. (e.g., Limewire, KaZaA). The Digital Millennium Act requires all Universities that receive federal funds to block or prevent illegal file sharing. If a student is found to be sharing files illegally, the disciplinary measures they face will be harsh. Your computer will be disconnected from the University networks. You will be liable for civil and/or criminal prosecution. And your fines will range from $750 to $30,000 per song or movie illegally downloaded.

SOCIAL MEDIA POLICY

The University of Utah College of Pharmacy encourages students and employees to embrace social media to inform, interact, build relationships, participate, and collaborate on new ideas.

The following goals of the College of Pharmacy while in use of various social media sites or applications are:

- To increase the public's knowledge and awareness of the College and its functions
- To promote the value and importance of a PharmD education, pharmacy related research and publications, and community involvement.
- To maintain open, professional, and responsive communications with the public and the news media.

The College of Pharmacy does not collect, maintain, or otherwise use the personal information stored on any third-party site in any way other than to communicate with users on that site. Users may remove themselves at any time from the College’s “friends” or “follow” lists. Users should be aware that third party websites have their own privacy policies and should proceed accordingly.

As a student at the University of Utah College of Pharmacy, photos, and videos of you may be used for educational, commercial, advertising, or other media purposes. The college reserves full rights to the media we produce, and the visual identity of the individuals involved in it.

Comments, posts, and messages are welcome on the College of Pharmacy’s social media
platforms. Users are strongly encouraged to check facts, cite sources, and show respect in expressing their opinions. While the College of Pharmacy recognizes and respects differences in opinion, all interactions will be monitored and reviewed for content and relevancy. Having stated that, the College is not obligated to take any actions, and will not be responsible or liable for content posted by any subscriber in any forum, message board, pages, or other areas within these services.

The College of Pharmacy is not liable for and does not necessarily verify/support the content and views expressed by followers of its social channels, and reserves the right to block any follower as they see fit.

The College of Pharmacy reserves the right not to publish any postings, or to later remove it without notice or explanation. Reasons for removal include, but are not limited to:

- Abusive, defamatory, or hate speech
- Violations of copyright, trademark, or other intellectual property rights
- Spam or commercial advertising
- Off-topic comments
- Lack of space

In addition, the College of Pharmacy reserves the right to edit or modify any postings or comments for space or content (spelling, grammar, etc.), while retaining the intent of the original post. The College assumes no liability regarding any event or interaction created or posted by any participant in any College-sponsored social media service and does not endorse content outside the “pages” created by college staff. Participation in College of Pharmacy social media services implies agreement with all University of Utah and College of Pharmacy policies, including but not limited to University of Utah World Wide Web Resources Policy, Social Media Guidelines, Privacy Statement, Disclaimer, and Information Resources Policy, and the Terms of Service of everyone their-party. The role and utility of social media sites will be evaluated periodically by college staff and may be changed or terminated at any time without notice to subscribers.

**Student Social Media Guidelines**

Use of social media is prevalent among students. Students should be aware that unwise or inappropriate use of social media on behalf of the College of Pharmacy can negatively impact educational and career opportunities.

Adhering with the College of Pharmacy’s Social Media Policy, the following guidelines and procedures should also be met while on rotations, rotations, or various internships:

- Students are not allowed to release, disclose, post, display, or communicate the following information:
  - Identifiable, confidential protected health information (PHI) regarding any patient associated with the University of Utah, its affiliated hospitals and clinics, or other external affiliated health
care organization. This includes, but is not limited to, any information, such as initials, personal activities, room numbers, pictures, or other information that might enable external parties to identify patients. Disclosure of PHI may constitute a serious HIPAA violation and may have personal and/or institutional liability consequences.

- Confidential information regarding policies and operations, including financial information, regarding the University of Utah, its affiliated hospitals and clinics, or other external affiliated health care organization.

- Post content that reflects positively on you, and the University of Utah School of Pharmacy. Be aware not only of the content that you post, but of any content that you host (e.g., comments posted by others on your site). Content you host can have the same effect as content you post.

- Though you may only intend a small group to see what you post, a much larger group may actually see your post. Be aware that your statements may be offensive to others, including classmates or faculty members who may read what you post.

- You should convey a professional and ethical presence to all who might view your online information. Employers and others may use social media to evaluate applicants. Choosing to post distasteful, immature, or offensive content may eliminate job or other opportunities.

For group pages identifying themselves with the College of Pharmacy (class pages, student organizations, etc.), use the following language in your bio or account descriptions:

If word count limits allow:

_The views and opinions expressed here are not necessarily those of the University of Utah College of Pharmacy, and they may not be used for advertising or product endorsement purposes_

For social media platforms with very restrictive word count allowances:

_Tweets my own. Or views my own._

If you would like to submit a news item to be amplified on one of the college's official social media platforms, please submit a request ticket to CPWISE at https://pharmacy.utah.edu/faculty/cpwise. All tickets are subject to strategic review. If you have questions or need more information, please contact CPWISE at 801-585-0959.

**STUDENT TUTORING**

Information in this policy is FERPA protected

Procedures for student tutoring by professional students in the Doctor of Pharmacy Program.

**Guidelines:**

1. Course masters and teaching assistants should set regular office hours for student consulting and/or tutoring. Office hours should be listed in course syllabi and discussed on the first day of class.

2. If it becomes obvious students need more tutoring than what the course master or TA can provide,
the course master should refer the student-to-Student Affairs.

3. Teaching assistants must have received a B+ or higher in the course they are teaching as well as a GPA of 3.5 or better, and they must be at least one year ahead of the student he/she is tutoring.

4. Teaching assistants must also be in good standing with the Dean’s Office.

5. For courses with no teaching assistants, Rho Chi or Dean’s List members may be asked to tutor by the Student Affairs office. They will be hired on a part-time basis and paid for their efforts.

6. The faculty advisor of Rho Chi club and the Course Master of the class will have input on the choice of the tutor.

7. The Student Affairs office will work with HR and the Rho Chi faculty advisor to hire the chosen tutor as a temporary employee. The tutor will be paid an agreed upon hourly salary by the Student Affairs office.

8. The Student Affairs office has the final say on tutoring that is paid for by their office.

**TEACHING ASSISTANT**

**TA Contract**

Coursemasters and TAs are the frontlines for helping students who are struggling academically, and they should be the first resource drawn upon for student needs.

The Appendices include an example job description, and there is a fillable PDF version available on the CoP website. Faculty should fill and sign the Memo of Understanding and submit a copy to Student Affairs for record keeping before the first day of class.
STUDENT COMPLAINTS RELATING TO ACPE STANDARDS

The University of Utah College of Pharmacy provides each professional student the ability to lodge complaints about the professional program regarding the Accreditation Council on Pharmacy Education (ACPE) Standards. Any professional student can provide a written complaint submitted electronically to the College about any accreditation standard (https://www.acpe-accredit.org/), student rights to due process, or any other unresolved issue. The College of Pharmacy is committed to resolving all complaints by due process in a timely manner.

Policy: The College of Pharmacy has an obligation to conduct its affairs with honesty and frankness. Any student enrolled in the College of Pharmacy’s professional programs has the right to lodge a complaint against the College or the pharmacy program that is related to ACPE standards, policies, or procedures. Student complaints will be taken seriously and will be responded to by the College in a timely manner following a process that is fair and equitable to all parties and consistent with university policy. Copies of the ACPE standards are available to all College personnel in the Dean’s Office or can be accessed on-line at http://www.acpe-accredit.org/.

Procedures: The method to register complaints is an on-line submission at: http://pharmacy.utah.edu/current-students/complaints.php. Anonymous or identified complaints are acceptable. The complaint will be reviewed by the Executive Associate Dean for Professional Education, who will acknowledge in writing receipt of the complaint and establish a file for the complaint within two (2) business days. The file will be kept separate from student academic records or faculty/staff personnel records. If a complaint is filled anonymously, it should be understood that addressing the complaint may be difficult without providing enough detail in the complaint to allow the College of Pharmacy to adequately understand the complaint. We therefore strongly encourage providing your name.

The Associate Director for Student Affairs, in association with Executive Associate Dean will promptly initiate an investigation and determine the facts surrounding the complaint by whatever means are appropriate to the specific complaint.

Requests for confidentiality by the complainant will be respected to the extent any such information is not necessary for the resolution of the complaint. Based on this investigation, the Executive Associate Dean will make a determination about the validity of the complaint and respond to the complainant in writing. If the complaint is viewed as invalid, the complaint will be terminated. If the complaint is viewed as valid, the Executive Associate Dean will propose one or more steps to resolve the situation. The steps for resolution will be clearly articulated with specific timelines for completion and must be agreed to in writing by the complainant and all individual parties, if any, involved in the resolution. Unless exceptional circumstances exist, the time frame for investigation and resolution will be no more than six (6) months from the date of the original written complaint.

The determination of validity or the steps for resolution may be appealed to the Dean by any party involved in the complaint or in the resolution. An electronic written appeal will be submitted to the Dean within fifteen (15) business days from the date of the written response from the Executive Associate Dean. The Dean will review documents and procedures and decide on the outcome of the complaint within thirty (30) days from the date of the written appeal.
The Dean’s decision is final.

**Records:** A complete file will be maintained for each complaint that contains the written complaint, a written record of each step taken to investigate and resolve the complaint, and the outcome of the complaint, except as otherwise prohibited by state or federal law. The complaint files will be made available for inspection by the ACPE during on-site evaluations or otherwise at ACPE’s written request.

The Executive Associate Dean for Professional Education also meets with all respective P1-P4 CSC leaders on a semester basis. All complaints, including accreditation standards issues, can be registered with the CSC leaders to be addressed with the Associate Director of Student Affairs or Executive Associate Dean.
VII. STUDENT STANDARDS – ACADEMIC & PROFESSIONAL PERFORMANCE

PROFESSIONAL AND ETHICAL STANDARDS

Pharmacy students are seeking credentials in a profession that is highly regarded by other health care professionals as well as the public. As members of the academic and pharmacy communities, pharmacy students are expected to uphold the principles of integrity, honesty and fairness for which this profession is known. The development of professionalism requires that pharmacy students follow the standards set forth in the Pledge of Professionalism (see page 11).

During their program of study, students interact with peers, faculty, other health care professionals and the public. Students are forming the foundations of knowledge and professionalism expected of them in their future careers as pharmacists. Pharmacy students are expected to uphold the high standards of integrity and ethics of the profession.

To enhance professionalism, instill these attitudes early, and help build a strong bond between students’ family and the College of Pharmacy a White Coat Ceremony is held every Fall for each incoming PharmD Class. Parents, spouses and all significant others are invited to attend this ceremony. Student Attendance is mandatory.

PROFESSIONAL AND ETHICAL CONDUCT IN INSTRUCTIONAL SETTINGS

Ensuring that classrooms and other instructional settings provide a proper and nurturing environment for teaching and learning is the responsibility of each student and faculty member. Student and faculty behavior should adhere to professional standards and contribute positively to the learning environment. Appropriate dress and personal appearance and hygiene are expected. Other behavior that may be interpreted as rude, disruptive or infringes on the rights of faculty and students are not tolerated by the College of Pharmacy.

Students must get permission from the respective faculty member prior to recording any lecture and indicate that permission will only be provided for purposes limited to course preparation and study for students enrolled in the class, but not for further distribution of any kind, including posting any recording or materials online. Faculty members own the copyright to their written course materials, which includes slides and other materials created by the faculty member that are displayed in class or distributed to students. For these materials, unauthorized reproduction or distribution (such as on the Internet) infringes on the faculty member’s copyright. A student publishing these materials would be in violation of professional conduct which may result in academic sanctions including, but not limited to academic probation, suspension or dismissal from the professional program.

Components of the PharmD curriculum occur in many different settings other than the classroom including various practice settings during rotation courses, camp settings, community program or private home settings during service-learning experiences, as well as during continuing education programs. Attention to professional, ethical, legal and personal demeanor standards becomes even more critical as professional students interact with colleagues, preceptors, other health care professionals, and the public.
It is the responsibility of students, faculty members, and administration to assure that students are
upholding the professional and ethical standards of pharmacy. Allegations of violations of such
standards are taken seriously and must be made in writing to the Executive Associate Dean for
Professional Education of the College. Because pharmacy students interact extensively with other
health care professionals and the public during their tenure in the Professional Program, allegations of
professional or ethical misconduct may be brought to the College’s attention from other sources such
as professional colleagues in the health sciences, the Board of Pharmacy or the public.

Violations of professional or ethical conduct may result in academic sanctions including, but not limited
to, academic probation, suspension or dismissal from the professional program. The formal processes
governing reporting, investigation and imposing academic sanctions as well as avenues for appeals
involving allegations of professional or ethical misconduct are outlined in subsequent sections of the
Student Handbook.

APhA CODE OF ETHICS FOR PHARMACISTS

Pharmacists are health professionals who assist individuals in making the best use of medications. This
Code, prepared and supported by pharmacists, is intended to state publicly the principles that form the
fundamental basis of the roles and responsibilities of pharmacists. These principles, based on moral
obligations and virtues, are established to guide pharmacists in relationships with patients, health
professionals and society.

1. A Pharmacist Respects the Covenantal Relationship between the Patient and Pharmacist

   Considering the patient-pharmacist relationship as a covenant means that a pharmacist has
   moral obligations in response to the gift of trust received from society. In return for this gift, a
   pharmacist promises to help individuals achieve optimum benefit from their medications, to be
   committed to their welfare and to maintain their trust.

2. A Pharmacist Promotes the Good of Every Patient in a Caring, Compassionate and
   Confidential Manner

   A pharmacist places concern for the well-being of the patient at the center of professio nal
   practice. In doing so, a pharmacist considers needs of the patients as well as those defined by
   health science. A pharmacist is dedicated to protecting the dignity of a patient. With a caring
   attitude and a compassionate spirit, the pharmacist focuses on serving the patient in a private
   and confidential manner.

3. A Pharmacist Respects the Autonomy and Dignity of Each Patient

   The pharmacist promotes the right of self-determination and recognizes individual self-worth by
   encouraging patients to participate in decisions about their health. The pharmacist
   communicates with patients in understandable terms, as well as respects personal and cultural
differences among patients.

4. A Pharmacist Acts with Honesty and Integrity in Professional Relationships

   A pharmacist has a duty to tell the truth and act with conviction of conscience. Pharmacists avoid
discriminatory practices, behavior or work conditions that impair professional judgment, and
actions that compromise dedication to the best interests of the patient.

5. **A Pharmacist Maintains Professional Competence**

A pharmacist has a duty to maintain knowledge and abilities as new medications, devices and technologies become available as health information advances.

6. **A Pharmacist Respects the Values and Abilities of Colleagues and Other Health Professionals**

When appropriate, pharmacists ask for the consultation of colleagues or other health professionals or refer the patient. A pharmacist acknowledges that colleagues and other health professionals may differ in the beliefs and values they apply to the care of the patient.

7. **A Pharmacist Serves Individual, Community and Societal Needs**

The primary obligation of a pharmacist is to individual patients. However, the obligations of a pharmacist may at times extend beyond the individual to the community and society. In these situations, the pharmacist recognizes the responsibilities that accompany these obligations and acts accordingly.

8. **A Pharmacist Seeks Justice in the Distribution of Health Resources.**

When health resources are allocated, a pharmacist is fair and equitable, balancing the needs of patients and society.

STUDENT STANDARDS OF ACADEMIC AND PROFESSIONAL PERFORMANCE

STANDARDS OF PERFORMANCE

The College of Pharmacy is dedicated to the education of competent pharmacists who employ critical judgment skills and broad-based knowledge in caring for their patients. Pharmacy is a demanding profession in which practitioners are asked to place the interests of patients above their own. It requires commitment to a life of service, dedication to continuous learning and high ethical standards. The Doctor of Pharmacy (PharmD) Program is where students begin to acquire the foundation of knowledge, attitudes, skills and behaviors that are necessary for the practice of pharmacy throughout their careers.

All College of Pharmacy faculty members and students have responsibilities in assuring that graduates of the Professional Program have acquired the necessary foundation to provide pharmaceutical care to patients throughout their professional careers. The College of Pharmacy has an obligation to provide each student with a fair opportunity to meet the high standards of scholarship and integrity associated with the PharmD degree and the profession of pharmacy. As professional students progress through their programs of study in the curriculum, the faculty members of the College of Pharmacy are obligated to evaluate whether students are qualified to receive the degree of Doctor of Pharmacy. However, it is ultimately the responsibility of each student to meet performance standards. In seeking these academic credentials, with the understanding that satisfactory performance is a prerequisite to the receipt of that credential, students are consenting to frank evaluation by those charged with the responsibility of supervising performance in both the didactic and experiential courses. Faculty members of the College of Pharmacy are qualified as professionals to observe and judge all aspects of a student's academic performance, including demonstrated knowledge, technical and interpersonal skills, attitudes and professional character, as well as ability to master the required curriculum.

In order to receive a professional degree in pharmacy, students must:

1. Meet the academic requirements of each core and elective course.
2. Meet the academic requirements of the Doctor of Pharmacy Program and the Graduate School.
3. Uphold the University of Utah's and College of Pharmacy's standards of academic honesty, including, but not limited to, refraining from cheating, plagiarizing, research misconduct, misrepresenting one's work and/or inappropriately collaborating.; and
4. Uphold the professional and ethical standards of the profession of pharmacy as set forth in the American Pharmacists Association Code of Ethics for Pharmacists. (http://www.aphanet.org)

ACADEMIC STANDARDS

As members of the College of Pharmacy academic community, professional students and faculty members must create and support an educational environment that optimizes academic and professional development. Each member should be treated with dignity and respect. Professional students should exercise their right to learn without infringing on the rights of others.
REQUIREMENTS FOR THE PROFESSIONAL DOCTOR OF PHARMACY DEGREE

Graduation Requirements of the University: PharmD candidates must satisfactorily complete the program of study current for their class.

Professional Core Course Requirements: Satisfactory grades must be obtained in all core courses. Satisfactory grades are defined as no grades lower than C+ in any professional core or elective course, nor grades of E, I, EU, NC or W. The credit/no credit option cannot be exercised by the students in these courses; however, courses graded only credit/no credit are acceptable.

Minimum Grade Point Average Requirements: A minimum cumulative or semester University and professional grade point average of 3.00 must be maintained during all four years of the program of study. The cumulative professional grade point average is based on the grades obtained from all attempts at professional core and elective courses.

Professional Elective Course Requirements: Electives are described on page 25. The credit/no credit option cannot be exercised by the students in these courses; however, courses graded only credit/no credit are acceptable.

Waiver of Professional Programs of Study Requirements

The Executive Associate Dean for Professional Education in consultation with the Scholastic Standards Committee and/or the Department Chairs may waive one or more specific requirements in extenuating circumstances for good cause. Students should consult with the Student Affairs Manager or the Executive Associate Dean for Professional Education concerning the process to be followed to obtain such waivers. In general, the Committee will waive requirements only if the student demonstrates that an equivalent of the requirement has been attained. All students admitted to the Professional Program are responsible for making their own arrangements for the time and resources required for meeting the requirements of the program. Requirements are not waived simply on the basis of reducing the usual time and/or expense required, nor for the purpose of altering schedules to coincide with extracurricular activities.
ACADEMIC EVALUATION AND GRADES

College faculty evaluates the academic performance of professional students during their program of study and assign grades for that performance. Grades received in professional courses are used to recognize students for academic excellence as well as a basis for academic sanctions for failure to maintain satisfactory academic progress in the Professional Program. Academic sanctions include placement on academic probation, suspension or dismissal from the Program.

The academic sanctions of probation, suspension and dismissal from the PharmD Program based on academic evaluations and grades are imposed by the Scholastic Standards Committee. The Committee also establishes the requirements necessary to be released from academic probation or be reinstated following academic suspension. The guidelines governing academic sanctions and the appeals processes for appealing an academic evaluation or grade given by an instructor as well as academic sanctions and requirements imposed by the Scholastic Standards Committee are described in detail in subsequent sections of the Student Handbook.

ACADEMIC INTEGRITY

Maintaining academic integrity within the Professional Program is the responsibility of both the College students and faculty. The awarding of academic credentials by the College of Pharmacy to professional students for successfully completing their program of study assumes that the standards of academic integrity have been met.

Students may receive academic sanctions including, but not limited to, academic probation, suspension or dismissal from the College of Pharmacy if they have failed to maintain academic integrity while applying to and enrolled in the Professional Program.

Academic integrity means that students refrain from cheating, plagiarizing, research misconduct, misrepresenting one's work and/or inappropriately collaborating. General definitions of these terms are provided in the University of Utah Policy 6-410: Student Academic Performance, Academic Conduct, and Professional and Ethical Conduct (https://regulations.utah.edu/academics/6-410.php) and include:

- **Cheating** - Unauthorized possession or use of information, materials, notes, study aids, etc., copying from another student's assignment or examination, submitting work for in-class examination that was previously prepared, violating the rules governing an exam, having another person complete assignments or take an examination; altering one's assignment or examination after the exercise has been evaluated and before resubmitting it for reconsideration with authorization of the faculty member; violating any rules relating to academic conduct of a course or the Professional Program.

- **Misrepresentation of one's work** - Submitting material prepared by another source as one's own work or submitting the same work in more than one course without prior permission of both faculty members.

- **Plagiarism** - The unacknowledged use or incorporation of another's work in or as the basis for one's work submitted for academic consideration, credit or public presentation. Common examples of plagiarism include the representation of another person's words, phrasing, ideas,
sequence of ideas, information, or other content or modes of expression as one's original thoughts, words or ideas.

- **Fabrication or falsification** - Obtaining or changing records, examinations or documents without authorization. Reporting of experimental observations, measurements, data or statistical analyses that were never performed, manipulating or altering experimental observations, measurements, data or statistical analyses to achieve a desired result, falsifying or misrepresenting background information, credentials or other academically relevant information, selective reporting or deliberate suppression of conflicting or unwanted data, etc.

Any person, student or faculty member who observes or discovers violations of academic integrity by professional students should discuss the matter first with the faculty member responsible for the course or the Executive Associate Dean for Professional Education. The formal processes governing reporting, investigating and imposing sanctions as well as avenues of appeal involving alleged violations of academic integrity are outlined in subsequent sections of the Student Handbook.

**EXPECTATIONS FOR STUDENT PROFESSIONALISM**

All of our students are ambassadors to the brand of the University of Utah College of Pharmacy and are held to an extremely high professional standard. Thus:

- Academic honesty will be strictly enforced, keeping in mind the AACP Professionalism Pledge: “As a student of pharmacy, I believe there is a need to build and reinforce a professional identity founded on integrity, ethical behavior, and honor... Integrity will be an essential part of my everyday life, and I will pursue all academic and professional endeavors with honesty.” Plagiarism is not allowed. This includes copying text or graphics from published sources without proper attribution, or recycling either your own or somebody else’s old presentations. Penalties for academic dishonesty may include but not limited to academic probation or failing the course.

- Promptness is part of professionalism.

- All students are to be dressed professionally in all Experiential sites or as defined in the course syllabus.

- Professional behavior is expected. Reading the news, talking to your classmates, texting, searching the Internet, using laptop computers, falling asleep, studying for other classes, etc. will not be tolerated. Nor will blank, overly general or disrespectful comments on evaluation forms. The only materials you need are evaluations forms and handouts provided by speaker. Everything else should be put away including silenced cellphones. Also, avoid getting up mid-presentation.

- You will be held to the highest level of professional standards, based upon the AACP Professionalism Pledge, which states, “High ideals are necessary to ensure the quality of care extended to the patients I serve. As a student of pharmacy, I believe this does not start with graduation; rather, it begins with my membership in this professional college community. Therefore, I will strive to uphold this pledge as I advance toward full membership in the profession.”
STUDENT ATTENDANCE POLICY

Student Attendance and Expectations:

It is the responsibility of College of Pharmacy students to participate in courses and to master the content and objectives of the courses. Students are counseled to avoid more than 20 hours a week of outside employment during their PharmD program. The rigor of the program may call for shorter work hours in order to enable student success.

It is essential that students fully participate in all of the courses in the curriculum, including classroom, laboratory, and experiential courses. In these environments, the interactions among students and between students and faculty / preceptors, community members, and patients serve to build a firm foundation for excellence in pharmacy and in patient care. Attendance and participation are paramount professional responsibilities, and PharmD students are required to be present at all learning experiences.

Guidelines:

1. Each individual Course Master will communicate their attendance expectations specific to their course and the consequences of missing classes.

2. The Course Master will choose how to monitor attendance in their courses. This information will be included in the course syllabus. Methods to monitor attendance may include:
   - Randomly call on students
   - Use U-Card swiping software on random days
   - Pass around an attendance sheet
   - Call roll
   - Use clickers during a lesson
   - Give a number of random quizzes and in-class assignments that are scored based on completion in class

3. Students are expected to plan accordingly so that they do not miss courses. For instance, working is not considered an acceptable excuse since students are expected to adjust their work schedule and other appointments around their courses. At the instructor’s discretion, the student may be excused based on the following criteria:
   - illness/emergency in family
   - residency/job interviews out of town
   - official University of Utah activities (see University Policy 6-100(III)(O) at: http://regulations.utah.edu/academics/6-100.php)
   - Interprofessional Experiences
UNIVERSITY OF UTAH POLICY FOR CLASS EXCUSAL

Previous Guidance from University of Utah Administration:

We often have questions asked about students who are absent from classes and/or exams as a result of traveling as part of official university activities such as performing as part of an official university musical group, presenting one’s research at a conference, or participating in intercollegiate athletic competition. We are aware that absences from campus during classes can interfere with course expectations. University Policy 6-100(III)(O), however, allows students who are away from campus on official university business the opportunity to make up exams and assignments missed during their absence.

Allowing a student to make up an exam may be accomplished in a number of ways. The exam could be administered before the student leaves campus, the exam could be given at the regularly scheduled time through a proctor at a host institution, or the exam could be administered after the student returns. In addition, if a student must miss an in-class assignment such as a group project or presentation, we encourage you to consider whether technology would allow the student to participate from a distance or whether the individual’s portion of any assignment could be rescheduled for before or after the student returns. If you have any questions about how to provide an appropriate make-up opportunity, please contact your department or college for guidance.

We also want to note that we seem to have more conflicts during the closing weeks of the semester. In particular, we have received complaints that many students have become overloaded with multiple exams on the final days of the semester before the final examination period. Because some students may be traveling on university business during the last week of classes, we want to remind you that the make-up policy must be observed through that week just like any other week of the semester. We would also like to encourage you to use the final examination period at the end of each semester for the administration of final exams. Because it is important to allow students appropriate preparation time for each of their exams, University Policy provides that final exam must be given at the times officially set forth by the Scheduling Office.
EXAM POLICY

Guidelines for assessment procedures in Doctor of Pharmacy courses.

General Guidelines:

a. CSC representatives may provide feedback about the assessment schedule to the coursemaster only during the first week of class.

b. Expectations for student conduct during assessments:

   i. **Arrive on time.** Arrive to assessment room location (in most circumstances, Skaggs Hall Auditorium), at least five (5) minutes in advance of the scheduled start time.

   ii. **Late arrivals.** If a student arrives more than five (5) minutes late to the assessment, it is the sole discretion of the coursemaster to:

       A. allow the student to take the assessment,
       B. assign a late penalty, or
       C. deny the student the opportunity to take the assessment, and assign a zero (0) grade.

   If a student is unavoidably delayed in arriving on time to an assessment, the student must contact a Student Affairs Team member, as soon as possible.

      A. Students with multiple instances of late arrival for assessments may receive a Professionalism Concern Report, and required professionalism meeting with the Executive Associate Dean for Professional Education.

      B. Students with continuing late arrivals to assessments may experience additional disciplinary procedures as described in the Student Handbook, and University of Utah Student Code.

   iii. **Seating.** Students must sit as far apart as the room conditions allow. For Skaggs Hall Auditorium, there should be at least two (2) empty seats between students, and every other row shall remain closed to seating.

   iv. **Personal items.** All personal items, including backpacks, bookbags, purses, briefcases, notebooks, etc., must be placed in the front, back or sides of the testing room. Wearing of hats is not permitted during assessments, unless specifically authorized by coursemaster. Nothing can remain in the seating area, except for items that may be required for the assessment, such as laptop, calculator, pens/pencils, scratch paper if permitted, and a water bottle. A student may not retrieve anything from personal belongings unless given permission by a proctor.

   v. **Computers.** Laptop computers (does not include notepads or iPads) are required for assessments administered using Examplify. Students must have a power supply (plug in power adapter) readily available.

   vi. **Calculators.** Calculators may be required or permitted for an assessment. This is determined by the course master. The Dean’s Office has provided scientific calculators which are available in Skaggs Hall Auditorium. Faculty may authorize these to be used during an assessment. Assessments administered by Examplify may also allow or require use of Examplify's built-in calculator. The coursemaster will provide students with information about the use of calculators in advance of the assessment.

   vii. **Electronic devices in the assessment room.** All personal electronic devices, other than a laptop needed for Examplify, such as smart/mobile phones and smart watches, may not be present in the testing area, and must be turned off and placed in a personal item such as a backpack, purse, or briefcase, which, as described above, will remain away from the seating area. Mobile/smart phones may not be taken with you to a
restroom during an assessment. There is a strict liability, zero (0) tolerance prohibition for electronic devices (other than laptops) on or near the student during an assessment.

viii. **Proctors and questions during assessment.** Students should expect to see one or more proctors during an assessment. These individuals will be moving quietly and continuously around the room. If students have a question regarding something related to the assessment, they should raise a hand for a proctor. Faculty members may have different policies regarding questions during the assessment. These preferences should be made clear to the students prior to the assessment.

ix. **Confirmation of assessment completion.** Upon completion of the assessment utilizing Examsoft, students must display their confirmation screen (i.e., ‘green screen’) to the proctors.

**Accommodations during Assessments**

a. If a student has a condition, whether previously documented or not, which may affect taking the assessment, the student should discuss with Student Affairs about procedures for obtaining an accommodation from the Center for Disability Services. Information about accommodations will be kept confidential.

b. If a student has a medical condition or unusual circumstances that require special arrangements during an assessment, the student must communicate with the coursemaster before the scheduled assessment date. A student who advises the coursemaster on the day of an assessment, regarding a previously known condition and needing special arrangements, should not expect the accommodation to be granted. The coursemaster has authority and sole discretion to approve the request.

c. Students who require presence of a service animal during a scheduled assessment will be handled in accordance with *College of Pharmacy Policy: Non-Research Animals in the College of Pharmacy*.

d. Students with an accommodation approved through the Center for Disability & Access (CDA) will be provided with the accommodation-specified instructions. Commonly, these instructions are for additional time on an assessment, and/or separate location for completing an assessment.

e. Students without a CDA-approved accommodation, who request an accommodation from the coursemaster will be evaluated on a case-by-case basis. There is no automatic right for a student to receive a non-CDA approved accommodation. The decision of the coursemaster is final.

**Assessment Reschedule and Remediation**

a. **Reschedule.** Coursemasters retain the authority and sole discretion for granting a student request to reschedule an assessment. The following conditions apply:

i. **Known conflicts.** Students with known scheduling conflicts must communicate with the coursemaster as soon as possible, preferably within the first 1-2 weeks of the semester. A conflict between a scheduled assessment, and a student’s employment responsibility (e.g., ‘work shift’), is NOT a valid reason to request assessment reschedule.

ii. **Workload Disruption.** Students must understand that reschedule of an assessment is a substantial disruption to the coursemaster’s workload, as well as resources available in the College of Pharmacy.

iii. **Rescheduling.** The coursemaster has the primary responsibility for coordinating the reschedule of an assessment. This is determined based on the coursemaster’s workload, as well as the availability of Student Affairs Team member. Whenever possible, the student’s availability for rescheduling will be considered, but it is not the top priority for determining a reschedule.
A. Verification. Any request for reschedule of an assessment may be subject to reasonable verification by the coursemaster. This may include, for example, doctor’s note, or other forms external evidence. A student who is unable to provide the requested, reasonable evidence should not expect a rescheduled assessment.

iv. Sudden, acute illness or other unexpected, emergent circumstances. The College of Pharmacy does not expect students to take an assessment when they are experiencing sudden, acute illness; for example, but not limited to moderate-to-severe conditions of: gastro-intestinal illness, headache, upper respiratory infection/illness. In addition, the College of Pharmacy recognizes there can be unexpected, emergent circumstances which have priority over completing an assessment. Students should also understand that these types of requests have a history of being inappropriately used to mask or circumvent student lack of preparation for assessments. This action is academic misconduct. It is the student’s responsibility to notify the coursemaster as soon as possible regarding a sudden, acute illness, or other unexpected, emergent circumstance, and request assessment reschedule. A student does not have an automatic right to assessment reschedule.

A. Students with multiple requests for assessment re-schedule due to sudden, acute illness or unexpected, emergent circumstances may have their requests denied by the coursemaster, and/or referred to the Executive Association Dean for Professional Education.

b. Remediation. Coursemasters retain the authority for granting student remediation of an assessment. The following conditions apply:

i. There is no automatic right for a student to be allowed remediation of an assessment.

ii. The coursemaster has the primary responsibility for coordinating the remediation of an assessment. This is determined based on the coursemaster’s workload, as well as the availability of Student Affairs Team. Whenever possible the student’s availability for remediation scheduling will be considered, but it is not the top priority for determining a remediation scheduling.

iii. The coursemaster will include information to students at the beginning of the semester regarding individual course policy for remediation.

iv. Students must understand that remediation of an assessment is a substantial disruption to the coursemaster’s workload, as well as resources available in the College of Pharmacy.

v. The College of Pharmacy promotes a cooperative educational partnership between faculty (teachers), students (learners), and College. Accordingly, it is expected that the partners will work together to ensure educational progression of students, without compromising attainment of learning outcomes. Remediation is an optional, but useful tool in this partnership.

Consequences for Violations.

a. The College of Pharmacy values informal resolution practices. Accordingly, initial violations will be handled through respectful communications between the relevant parties – coursemaster, student, and student affairs team.

b. Student violations. Students are expected to demonstrate professionalism and civil decorum. Violations will be handled in accordance with University of Utah Policy 6-400: Code of Student Rights and Responsibilities (‘Student Code’), University of Utah Policy 6-410: Student Academic
Performance, Academic Conduct, and Professional and Ethical Conduct, and with the Doctor of Pharmacy Program Student Handbook.

i. Failure to comply or repeated non-compliance may result in formal proceedings, including but not limited to:
   A. Assigning a failing grade to an assessment,
   B. Filing of a Professionalism Concern Report with the Dean’s Office,
   C. Required professionalism meeting with Executive Associate Dean for Professional Education,
   D. Filing an assertion of Academic and/or Professional misconduct with the Dean’s Office, or
   E. Disciplinary process described in the University Student Code, and Doctor of Pharmacy Program Student Handbook.
SUBSTANCE ABUSE AND OTHER UNPROFESSIONAL OR UNLAWFUL ACTS

Students enrolled in the PharmD Program are seeking credentials to be health care professionals. Therefore, they have unique responsibilities regarding substance abuse and chemical dependence issues. Students should be familiar with the physical, psychosocial, and legal consequences of substance abuse and chemical dependency.

Students who have concerns that a peer, faculty member or preceptor may be impaired by substance abuse or chemical dependence should discuss their concerns with the Executive Associate Dean for Professional Education. If impairment concerns regarding a health care professional or patient arise at an experiential setting (i.e., in the Experiential Education), they should be brought to the attention of the supervising faculty preceptor and the Director of Experiential Education or the Executive Associate Dean for Professional Education.

Pharmacy students are entering a profession whose members are expected to possess high professional and ethical standards in their professional and personal lives. Professional students convicted of violations of local, state or federal laws or ordinances may be considered in violation of the Professional and Ethical Standards of the Professional Program. Academic sanctions resulting from such violations include, but are not limited to, probation, suspension or dismissal from the Professional Program. The formal processes governing reporting, investigating and imposing sanctions as well as avenues of appeal involving allegations of professional or ethical misconduct are outlined in subsequent sections of the Student Handbook.
ACADEMIC SANCTIONS OF PROBATION, SUSPENSION AND DISMISSAL

Students may be placed on academic probation, suspended or dismissed from the College of Pharmacy PharmD program by the Scholastic Standards Committee for not maintaining satisfactory academic progress or other academic misconduct. This is defined as an “academic action” under University of Utah Policy 6-100: Instruction and Evaluation (https://regulations.utah.edu/academics/6-100.php) Academic misconduct is defined in University of Utah Policy 6-410: Student Academic Performance, Academic Conduct, and Professional and Ethical Conduct (https://regulations.utah.edu/academics/6-410.php), and includes violations of academic integrity, professional or ethical standards of pharmacy, or the University of Utah Policy 6-400: Student Code (https://regulations.utah.edu/academics/6-400.php). The State of Utah enables pharmacy interns to be licensed only if they are currently enrolled in an accredited pharmacy program. At the Board of Pharmacy’s request, the College of Pharmacy provides them with a list of students currently enrolled in the program. Students must hold a current pharmacy intern license throughout the PharmD program. Therefore, suspension or dismissal from the Professional Program is a serious academic sanction.

PROBATION GUIDELINES

Reasons for Probationary Status

Students may be placed on academic probation from the College of Pharmacy PharmD program for not maintaining academic, professional or ethical standards, or not complying with the University of Utah Policy 6-400: Student Code (https://regulations.utah.edu/academics/6-400.php), and Policy 6-410: Student Academic Performance, Academic Conduct, and Professional and Ethical Conduct (https://regulations.utah.edu/academics/6-410.php). The academic background of the student is taken into consideration when imposing this sanction in circumstances involving academic, professional or ethical misconduct.

Deficient Grade Point Average or Grades: PharmD students are placed on academic probation whenever the University and professional grade point average falls below 3.00 in the professional years or grades below C+ (or grades of E, I, NC, EU, or W) are received in a professional core or elective course in the PharmD program either in a semester or overall. The cumulative professional grade point average is based on the grades obtained from all attempts at professional core and elective courses.

Deviation from the Established Program of Study: PharmD students may be placed on probation for deviating from their class Program of Study without prior written approval of the Executive Associate Dean for Professional Education and the Scholastic Standards Committee. Students must obtain the Executive Associate Dean for Professional Education’ consent to not register for or withdraw from a professional core course.

Academic Misconduct: Students may be placed on probation for academic misconduct, which
includes violations of academic integrity, professional or ethical standards of pharmacy, or the University of Utah Student Code. The process for reporting, investigating, imposing academic sanctions and appealing alleged violations of academic integrity or professional and ethical standards are outlined in subsequent sections of the Student Handbook.

**Professional Misconduct:** Students may be placed on probation for violations of professional misconduct, which includes violations such as being rude to faculty or administrative staff, failing to respond to correspondence in a timely manner, and failing to hand in paperwork needed by the Dean’s Office. Additionally, violation of the Orientation Agreement signed on the first day of Orientation will result in the student being referred to the Scholastic Standards Committee.

**Imposing Academic Probationary Status**

Students will receive a written notice when placed on probation including the reason(s) for the probationary status, the academic terms when removal of probationary status will next be considered by the Scholastic Standards Committee and the requirements for removing the probationary status.

Students may be placed on academic probation by the Scholastic Standards Committee as the result of evaluations or grades in professional courses. The Scholastic Standards Committee decision for sanction will be imposed immediately, regardless of any pending appeals concerning the course evaluations and grades are completed. Students may independently appeal the academic action leading to the probation decision, within the allotted time. Although the academic sanction of probation cannot be appealed, students may appeal the conditions imposed by the Scholastic Standards Committee required for reinstatement resulting from academic grades or evaluations. The appeal processes are explained further in subsequent sections of the Student Handbook.

Probationary sanctions resulting from alleged violations of Policy 6-410: academic integrity, professional or ethical standards of pharmacy, or Policy 6-400: Student Code may also be imposed by the Scholastic Standards Committee following the recommendations of the Executive Associate Dean for Professional Education or the Academic Misconduct Committee. These sanctions are not imposed unless they have been agreed to in writing by the student through mediation with the Executive Associate Dean for Professional Education or until any appeals relating to the allegation or recommendations of the Academic Misconduct Committee are completed. Neither the academic sanction of probation, nor the terms regarding removal of probation can be further appealed when probationary status is imposed under these conditions.

**Removal of Probationary Status**

The probationary status will be removed if (a) satisfactory academic progress is made during each academic semester of the probationary period and (b) the requirements specified by the Committee are accomplished as outlined in the letter imposing the probationary status.

“Satisfactory progress” in the PharmD program requires that the students maintain a semester University and professional grade point average of 3.00 in the professional years, and receive no grades lower than a C+, nor any grades of E, EU, NC, I or W in any professional core or elective course either
in a semester or cumulatively. The professional grade point average is based on all attempts of professional core and elective course work.

The College Scholastic Standards Committee reviews the academic progress of students on probationary status each academic term. The Committee will notify students in writing, following the academic term when removal of probationary status is to be considered, whether they are released from probation. Those students who violate the terms of their probationary status or fail to maintain satisfactory progress throughout the remainder of their programs of study may be subject to suspension or dismissal from the Professional Program.

Consequences of Probation

When Scholastic Standards Committee decides to place a student on probation, the following consequences may apply during the probationary time period:

- The student loses the privilege of receiving letters verifying the student’s good standing in the program
- They may not perform the duties of Teaching Assistant
- They may not fill elected clubs’ leadership roles
- They may not request outside rotations
- Scholarships may be rescinded

SUSPENSION GUIDELINES

Reasons for Suspension from the Professional Program

Students may be suspended from the PharmD program for not maintaining satisfactory academic progress or violations of the terms and conditions of their probationary status, professional or ethical standards, or the University of Utah Student Code. The academic backgrounds of students are taken into consideration when imposing this sanction in circumstances involving academic progress or violations of professional or ethical standards of pharmacy.

Failure of Core or Elective Course: PharmD students may be suspended for receiving the grade of E (or grade of EU or NC) in a professional core or elective course. Students are usually not allowed to continue in the professional curriculum until the course is repeated with a C+ or higher (or grade of CR). Students may repeat a professional core or elective course once.

Failure to Meet the Conditions and Terms of Probation: Professional students on academic probation may be suspended for not maintaining satisfactory progress as well as other conditions outlined in their letter of notification by the Scholastic Standards Committee.
Failure to Maintain Satisfactory Academic Progress During Any Academic Term Following One Probationary Period: Students who have been placed on academic probation and subsequently released from probation are subject to suspension if they fail to maintain satisfactory academic progress during the remainder of their program of study.

“Satisfactory progress” in the PharmD program is defined as “maintaining a semester University and professional grade point average of 3.00 in the professional years as well as receiving no grade lower than C+, nor any grades of E, EU, NC, I or W in any professional pharmacy core or elective course.” The cumulative professional grade point average is based on the grades obtained from all attempts at professional core and elective courses.

Academic Misconduct: Pharmacy students may be suspended from the PharmD program for academic misconduct, which includes violations of academic integrity, professional or ethical standards of pharmacy, or the University of Utah Student Code. The processes for reporting, investigating and imposing sanctions involving allegations of academic misconduct are outlined in subsequent sections of the Student Handbook.

Imposing Suspension

The academic backgrounds of students are taken into consideration when imposing this sanction. Students will receive a written notice when suspended from the PharmD program including the reason(s) for suspension, period of suspension and the terms and conditions that must be met before they may apply for reinstatement.

The Scholastic Standards Committee decision for sanction will be imposed immediately, regardless of any pending appeals concerning the course evaluations and grades are completed. Students may independently appeal the academic action leading to the probation decision, within the allotted time. Although the sanction of suspension cannot be appealed, students may appeal the terms and conditions required by the Scholastic Standards Committee for reinstatement. The appeal processes are explained further in subsequent sections of the Student Handbook.

Suspension may also be imposed by the Scholastic Standards Committee as recommended by the Academic Misconduct Committee due to violations of academic integrity, professional or ethical standards of pharmacy, or the University of Utah Student Code. The Scholastic Standards Committee decision for sanction will be imposed immediately, regardless of any pending appeals concerning the course evaluations and grades are completed. Students may independently appeal the academic action leading to the Suspension decision, within the allotted time.

Suspended students are not included on the list of enrolled students in the PharmD program requested by the Board of Pharmacy.

Reinstatement to the Professional Program

Students suspended from the PharmD program must apply in writing to the Scholastic Standards Committee for reinstatement.
Committee for reinstatement when they have met the conditions and terms of their suspension:

Letters applying for reinstatement should be submitted to the chairperson of the Scholastic Standards Committee and include positive evidence that:

1. the terms set forth by the Scholastic Standards Committee for reinstatement have been met.
2. the applicant is capable of successfully completing the PharmD program; and
3. the applicant is capable of, and willing to, adhere to the academic standards of the PharmD program, professional and ethical standards of pharmacy and/or the University of Utah Student Code.

Students are notified in writing regarding their application for reinstatement. Students suspended from and then reinstated into the PharmD program are placed on probation until completion of their program of study (i.e., permanent probation). The terms and conditions of their permanent probation, including maintaining satisfactory progress, are set forth in writing by the Scholastic Standards Committee. Those students who violate their permanent probationary status after reinstatement may be dismissed.

**DISMISSAL GUIDELINES**

**Reasons for Dismissal from the Professional Programs**

Students may be dismissed from the College of Pharmacy PharmD program for not maintaining satisfactory academic progress as well as for violations of professional or ethical standards, or the University of Utah Student Code. Academic backgrounds of students are taken into consideration when imposing this sanction in circumstances involving violations of academic integrity, professional or ethical standards, or the University of Utah Student Code.

**Failure to Meet the Reinstatement Terms and Conditions While Suspended from the PharmD Program:** Students who fail to meet the conditions and terms for reinstatement to PharmD Program, including maintaining satisfactory academic progress, while on academic suspension or within the time period outlined by the Scholastic Standards Committee may be dismissed.

**Failure to Meet Permanent Probationary Conditions and Terms Following Academic Suspension:** Students who fail to meet the conditions and terms of their permanent probation, including maintaining satisfactory academic progress, until completion of their program of study following reinstatement to the PharmD program from academic suspension may be immediately dismissed.

“Satisfactory progress” in the PharmD program is defined as “maintaining a semester University and Professional grade point average of 3.00 in the professional years, receiving no grades below C+ in any professional core or elective course either in a semester or cumulatively.” The cumulative professional grade point average is based on the grades obtained from all attempts at professional core and elective courses. If a student fails, the same class twice, or if they fail 3 core classes, they may be subject to dismissal.
**Academic Misconduct:** Professional pharmacy students may be dismissed from the PharmD Program for academic misconduct, which includes violations of academic integrity, professional or ethical standards of pharmacy, or the University of Utah Student Code. The process for reporting, investigating and appealing allegations of academic misconduct are outlined in subsequent sections of the Student Handbook.

**Internship Licensing:** If a student loses their internship license, immediate suspension will result following due process. It is our expectation that a student in the PharmD program maintain a valid internship license.

Additionally, if a student cannot be placed in a rotation, they are subject to dismissal.

**Imposing Dismissal**

The academic backgrounds of students are taken into consideration when imposing the sanction. Students receive a written notice when dismissed from the PharmD program including the reason(s) for dismissal. Students dismissed from the PharmD Program are generally not readmitted.

Students may be dismissed from the PharmD program by the Scholastic Standards Committee as the result of evaluations or grades in professional courses. Dismissal is not instituted until appeals concerning the course evaluation or grade are completed.

Dismissal may also be imposed by the Scholastic Standards Committee as recommended by the Academic Misconduct Committee due to alleged violations of academic integrity, professional or ethical standards of pharmacy, or the University of Utah Student Code. Such sanctions are not imposed until appeals relating to the allegations or sanctions recommended by the Academic Misconduct Committee are completed.

Dismissed students are not included on the list of enrolled students in the PharmD program requested by the Board of Pharmacy.
Scholastic Standards Committee Flowchart
Academic Misconduct Route

Academic Misconduct (p. 99)

Appealing allegations of violations process is complete

Probation (p. 83)
Committee notifies student in writing of status and requirements for removal

Committee meets every term and reviews student progress towards probation removal

Student fails to meet probation requirements

Student meets requirements and is removed from probation

Committee notifies student of decision, if probation requirements were met or not

Suspension (p. 85)
Committee notifies student in writing of status and requirements for reinstatement

Students apply to Committee for Reinstatement when they have met requirements

Committee meets and notifies student of decision in writing

Dismissal (p. 87)
Committee notifies student in writing of dismissal and reasons. Students are generally not readmitted to program

Executive Associate Dean for Professional Education or Academic Misconduct Committee recommends sanction. Student agrees in writing to sanction and terms and conditions during mediation. Sanction, terms, and conditions cannot be appealed further

Key
Trigger for Committee
Sanction
Student action
Committee action

Student fails to meet reinstatement requirements while suspended

Student is on permanent probation

Student completes program and graduates

Student meets requirements and is reinstated
Definitions

1. “Academic action” means the recording of a final grade (including credit/no credit and pass/fail) in a course, on a comprehensive or qualifying examination, on a culminating project, or on a dissertation or thesis. It also includes a decision by the appropriate department or college committee to place a student on academic probation, or to suspend or dismiss a student from an academic program because the student failed to meet the relevant academic standards of the discipline or program. The term “academic action” does not include the decision by a department or program to refuse admission of a student into an academic program. Academic action also does not include academic sanctions imposed for academic misconduct or for professional misconduct.

2. “Academic misconduct” includes, but is not limited to, cheating, misrepresenting one’s work, inappropriately collaborating, plagiarism, and fabrication or falsification of information, as defined further below. It also includes facilitating academic misconduct by intentionally helping or attempting to help another to commit an act of academic misconduct. (See page 83)

3. “Academic sanction” means a sanction imposed on a student for engaging in academic or professional misconduct. It may include, but is not limited to, requiring a student to retake an exam(s) or rewrite a paper(s), a grade reduction, a failing grade, probation, suspension or dismissal from a program or the University, or revocation of a student’s degree or certificate. It may also include community service, a written reprimand, and/or a written statement of misconduct that can be put into an appropriate record maintained for purposes of the profession or discipline for which the student is preparing.

4. “Arbitrary and capricious” means that there was no principled basis for the academic action or sanction. Arbitrary is defined as something that is determined by judgment or whim and not for any specific reason or rule. Capricious is defined as a judicial decision which is not based on any apparent reason. Absence of a rational connection between the facts found and the choice made.

5. “Behavioral sanction” means a sanction imposed on a student for engaging in behavioral misconduct. It may include, but is not limited to, a written reprimand, the imposition of a fine or payment of restitution, community service, probation, or suspension or dismissal from the PharmD Program.

6. “Preponderance of the evidence” means the greater weight of the evidence required to decide in favor of one side or the other. This preponderance is based on the more convincing evidence and its probable truth or accuracy, and not on the amount of evidence.

7. “Professional misconduct” means the violation of professional or ethical standards for the profession or discipline for which a student is preparing as adopted or recognized as authoritative by the relevant academic program. The term also includes specific misconduct that demonstrates the student's unfitness for such profession or discipline.
APPELLING ACADEMIC COURSE GRADES OR EVALUATIONS OR TERMS AND CONDITIONS IMPOSED BY THE SCHOLASTIC STANDARDS COMMITTEE

Students considering appealing academic course grades or evaluations, or the terms and conditions imposed by the Scholastic Standards Committee, that they believe are arbitrary or capricious should discuss the matter with Student Affairs and the Executive Associate Dean for Professional Education in order to fully understand the appeal processes available to students and the potential consequences.

An academic action may be overturned on appeal only if the academic action was arbitrary or capricious. Students may appeal an academic evaluation received in a didactic or experiential course in the PharmD program that they perceive to be arbitrary or capricious, to the following individuals or committees in sequence beginning with the faculty member. The terms and conditions for removal of probationary status or application for reinstatement following academic suspension may be appealed to the following individuals or committees in sequence beginning with the College Academic Appeals Committee.

The College Scholastic Standards Committee may institute the academic sanctions of probation, suspension or dismissal even though a student has filed an appeal of an ‘academic action’.

A. Appeals Process

1. Faculty Member. A student who believes that an academic action taken is arbitrary or capricious should:
   a. within twenty (20) business days of notification of the academic action, discuss the academic action with the involved faculty member and attempt to resolve the disagreement.
      ▪ If the faculty member does not respond within ten (10) business days,
      ▪ If the student and faculty member are unable to resolve the disagreement, or
      ▪ If the faculty member fails to take the agreed upon action within ten (10) business days,
        the student may appeal the academic action in accordance with the following procedures.

   Students are strongly recommended to submit their appeal in writing to the faculty member if verbal discussions are progressing unsatisfactorily. Faculty members are also strongly encouraged to respond in writing if discussions progress unsatisfactorily or students appeal in writing. The faculty member’s decision and the basis for that decision should be provided in writing to the student within a reasonable time period.

2. Appeal to Chair of the Department. Within forty (40) business days of notification of the academic action, the student shall appeal the academic action, with supporting evidence, in writing to, and consult with, the chair of the relevant department regarding such academic action. The written appeal should be submitted to Student Affairs for distribution to the department chair, faculty member and other appropriate parties. The department chair forwards copies of their decisions, to Student Affairs and the Executive Associate Dean for Professional Education, who
then notifies the Scholastic Standards Committee chair. Within fifteen (15) business days of consulting with the student, the chair shall notify the student and faculty member, in writing, of his/her determination of whether the academic action was arbitrary or capricious and of the basis for that decision. If the chair determines that the academic action was arbitrary or capricious, the chair shall take appropriate action to implement his/her decision unless the faculty member appeals the decision. If the chair fails to respond in fifteen (15) business days, the student may appeal to the Academic Appeals Committee.

3. **Appeal to Academic Appeals Committee.** If either party disagrees with the department chair's decision, that party may appeal to the college's Academic Appeals Committee within fifteen (15) business days of written notification of the chair's decision in accordance with the procedures set forth below.

4. **Appeals regarding the terms and conditions imposed by the Scholastic Standards Committee for release from academic probation, or reinstatement to the PharmD program following academic suspension** should be made in writing to the Academic Appeals Committee within fifteen (15) business days of receipt of the Scholastic Standards Committee's written decision.

**B. Proceedings Before the Academic Appeals Committee**

1. **Written Appeal.** The appeal to the Academic Appeals Committee shall set forth in writing the reasons for the appeal, and should be submitted to Student Affairs for distribution through the Executive Associate Dean for Professional Education to the chair of the College Academic Appeals Committee, faculty member and department chair for appeals of course evaluations and grades, or the Scholastic Standards Committee chair for appeals regarding terms and conditions imposed by the Committee.

2. **Response to Appeal.** The faculty member whose decision is being appealed, or the student in the case of a faculty member's appeal, should submit their written response to Student Affairs for distribution to the student/faculty member, College Academic Appeals Committee chair, Executive Associate Dean for Professional Education, and department chair, no later than five (5) business days after receipt of the appeal.

3. **Makeup of the Committee.** The Executive Associate Dean for Professional Education shall ensure that an Academic Appeals Committee is constituted according to college procedures, subject to the following parameters. Two faculty members shall come from within the College of Pharmacy, one faculty member from outside of the College of Pharmacy, and two PharmD students. No more than one faculty member and two Committee members in total may come from the same department in a multi-department college. The members of the Committee who shall hear the case are the three faculty members and the two students from the appealing student's peer group. The Committee shall establish internal procedures consistent with the Orientation Manual and the Student Code.

4. **Proceedings Before the Committees.** When an appeal and response are filed in a timely manner, the Committee shall schedule a hearing date if:
   a. The documents raise material issues of disputed fact.
   b. The Committee determines that a hearing is necessary or otherwise desirable to aid in
the resolution of the issues; or

c. The academic action included dismissal from the program.

If the Committee determines that no circumstances exist that require a hearing, as provided above, the chair shall within a reasonable time notify the student and the faculty member (the parties) in writing of this determination and convene a closed meeting of the Committee to consider the documentation submitted by the parties. The Committee chair shall prepare a written report of the Committee's findings and decision, including the basis for that decision, for immediate distribution to the student, faculty members responsible for the course(s), department chair, and Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education notifies the Dean of the College, the Senior Vice President for Health Sciences and Scholastic Standards Committee chair, as appropriate.

5. Notice of Hearings Before Committees. If the Committee determines that a hearing is required, the chair shall schedule a hearing date and notify the parties in writing of the date of the hearing, the names of the Committee members, and the procedures outlined below at least fifteen (15) business days prior to the hearing.

6. Hearing Procedures. Hearings shall be conducted according to the following procedures:

a. Hearings shall be conducted within a reasonable time after the Committee's receipt of the written appeal and written response to the appeal.

b. At least five (5) business days prior to the date of the hearing, the parties shall make available to each other and to the Committee a list of their witnesses and a list of the documents to be offered at the hearing. In exceptional circumstances, the Committee may allow a party to call witnesses not listed or submit additional documents at the hearing.

c. The parties have a right to be accompanied by any person as advisor, including legal counsel, who will be permitted to attend, but not directly participate in, the proceedings.

d. Hearings shall be closed to the public.

e. All hearings, except Committee deliberations and voting, shall be recorded and a copy made available to any party upon request. Committee deliberations and voting shall take place in closed sessions.

f. The Committee must have a quorum present to hold a hearing. A quorum consists of three (3) members, including at least one (1) student and the faculty member from outside the college. If there is more than one hearing in a matter, or if the hearing continues over more than one session, the same three members must be present for all sessions. All decisions of the Committee shall require a majority vote of the Committee members present at the hearing.

g. At the hearing, the parties shall have the right to present questions to witnesses through the Committee chair, to present evidence and to call witnesses in their own behalf, in accordance with the Committee's established internal procedures.

h. The Committee shall not be bound by strict rules of legal evidence or procedure and may consider any evidence it deems relevant.
i. University legal counsel shall serve as a resource to the Committee and may be present at the hearing to provide guidance on substantive law and procedural matters.

j. To overturn the original academic action, the Committee must find that the academic action was arbitrary or capricious.

k. The Committee shall make its findings and decisions based only on evidence and testimony presented by the parties at the hearing. Committee members shall not conduct their own investigations, rely on prior knowledge of the facts or develop their own evidence.

l. If either party to the appeal fails to attend the hearing without good cause, the Committee may proceed with the hearing and take testimony and evidence and report its

m. The Committee chair shall prepare a written report of the Committee's findings and decision, including the basis for that decision, for immediate distribution to the student, faculty members responsible for the course, department chair, and Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education notifies the Dean of the College, the Senior Vice President for Health Sciences, and the Scholastic Standards Committee chair, if necessary, regarding the appeal and the Academic Appeals Committee’s decision.

C. Appeal to the Dean of the College

1. Either party involved may appeal the College Academic Appeals Committee’s decision to the Dean in writing within ten (10) business days of notification of the College Academic Appeals Committee’s decision.

   a. The written appeal should be submitted to Student Affairs for distribution to the Dean, the student, faculty members and department chairs, or Scholastic Standards Committee chair, Academic Appeals Committee chair and the Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education will notify other parties involved, including the Scholastic Standards Committee chair and the Senior Vice President for Health Sciences, as appropriate.

2. The other party may file a response to the appeal with the Dean within five (5) business days of receipt of the notice of appeal. Written response should be submitted to Student Affairs for distribution to the Dean, and other involved parties, as outlined above.

3. The Dean of the College shall consider the appeal and the documentation submitted to the Committee, as well as the findings and conclusions of the Committee in making a decision.

   a. To overturn the original academic action, the Dean must find that the academic action was arbitrary or capricious.

   b. The Dean takes into consideration the academic background of the student, whether the academic sanction imposed by the faculty member was arbitrary or capricious, and whether fair and due processes were followed by the previous individuals or committees reviewing the academic sanction.

4. Written notification of the Dean's decision, and basis for that decision, shall be communicated
in writing to the student, faculty members and department chair, College Academic Appeals Committee chair, Executive Associate Dean for Professional Education, Senior Vice President for Health Sciences, and Scholastic Standards Committee chair within ten (10) business days of receipt of the appeal.

5. The Dean's decision is final unless appealed to the Senior Vice President of Health Sciences within ten (10) business days.

D. Appeal to Senior Vice President for Health Sciences

1. Within ten (10) business days of receipt of the Dean's decision, any party may appeal the decision by filing a written notice of appeal with the Senior Vice President for Health Sciences.
   a. The written appeal should be submitted to Student Affairs for distribution to the Senior Vice President, the Dean, the other parties involved including students, faculty members and department chair, or Scholastic Standards Committee chair, Academic Appeals Committee chair, and Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education also notifies the Scholastic Standards chair, if appropriate, of the appeal.

2. The other party may file a response to the appeal with the Vice President within five (5) business days of receipt of the notice of appeal. Written response should be submitted to Student Affairs for distribution to the Vice President, and other involved parties, as outlined above.

3. The Vice President shall consider the appeal and response to the appeal, and may solicit whatever counsel and advice the Vice President deems appropriate to arrive at a final decision. The Vice President may also convene an ad hoc committee composed of students and faculty members from outside the college or department to determine if there were substantial defects that denied basic fairness and due process. After receiving the appeal, the Vice President shall, within twenty (20) business days, take one of the following actions:
   a. Accept the decision of the Dean of the College.
   b. Return the report to the Dean of the college, requesting that he/she clarify specific matters, materials, and issues, and forward to the Vice President a second report of his/her decision relating to the specific matters referred by the Vice President for further explanation; or
   c. Reject all or parts of the Dean's decision, stating reasons and actions to be taken, therefore.

4. The Senior Vice President for Health Sciences notifies the student and Dean of the College in writing of his/her decision and the basis for that decision within twenty (20) working days of the receipt of the appeal. The Dean subsequently notifies the faculty member, department chair, College Academic Appeals Committee chair and Executive Associate Dean for Professional Education of the Senior Vice President's decision.

5. The decision of the Vice President is final. The Executive Associate Dean for Professional Education and Scholastic Standards Committee chair will take appropriate action to implement the final decision of the appeal processes.
E. Further Consequences

1. Further consequences of the Senior Vice President’s decision that impacts a final course grade may include the academic sanctions of probation, suspension or dismissal from the PharmD Program. If the student's academic progress is deemed unsatisfactory following the assignment of the final grade, then the Scholastic Standards Committee may impose the academic sanctions of probation, suspension or dismissal depending on the academic background of the student in the PharmD Program. Academic sanctions imposed by the Scholastic Standards Committee cannot be further appealed.

F. Copies of Documents to Department Chair

1. During the appeals process and at the time they are submitted, the following documents should be copied to the chair of the department considering the academic appeal: the first written appeal, all subsequent appeals, all responsive documents, and all written recommendations or decisions made at each level of the appeal.
Appeals Process Flowchart

"Arbitrary and capricious" means that there was no principled basis for the academic action or sanction. p.92

Student meets with Executive Associate Dean for Professional Education to discuss appeals process and possible consequences.

Appealing an arbitrary or capricious grade (p.93) [Appeal within 20 days of receiving grade]

Student discusses with faculty member / preceptor (Faculty decision within a reasonable time)

Appeal to Department Chair(s) [within 40 days of receiving grade] (Decision within 15 days of student consultation)

Meet with Executive Associate Dean for Professional Education

Appealing terms and conditions of ending probation or suspension imposed by Scholastic Standards Committee (p.93) [Appeal within 15 days of SSC written decision]

Student appeals to Academic Misconduct Committee [Within 40 days of faculty sanction]

Submit a response to appeal [Within 5 days of receipt of appeal]

Hearing is conducted within reasonable time of receiving appeals / allegations (Committee notifies parties 15 days before hearing) (5 days before hearing, student and opposition provide evidence)

Student or Faculty appeals to the Dean of College [Within 10 days of AMC / AAC decision] (Dean has 10 days to make decision)

Any individual or Committee involved in the case can appeal to Senior Vice President for Health Sciences [Within 10 days of Dean decision] (SVP has 20 days to make decision)

Submit a response to appeal [Within 5 days of receipt of appeal]
VIOLATIONS OF ACADEMIC INTEGRITY

It is the responsibility of the faculty and Dean’s Office to investigate the allegations of violations of academic integrity and resolve the issue appropriately. Students who are found to be violating academic integrity will receive academic sanctions including, but not limited to, probation, suspension or dismissal from the PharmD program.

However, students must also be protected from unfounded allegations. To maintain academic integrity of the PharmD program, as well as the rights of individual students within the Program, it is important that both faculty and professional students follow the procedures outlined in the Student Handbook and the University of Utah Student Code.

Allegations of academic dishonesty are taken seriously by the College of Pharmacy faculty and Dean’s Office. The faculty, with counsel from the Dean’s Office, must investigate such allegations promptly, and resolve the issues fairly while also protecting students from unfounded allegations.

RESPONSIBILITIES

Faculty Responsibilities

Faculty members must coordinate with the Dean’s Office to ensure appropriate proctoring is implemented for exams. To ensure adequate space between students, the auditorium should be used whenever possible. In the classroom or auditorium, book bags, books, coats, hats and other personal belongings must be left in the front or along the sides of the room.

Faculty members should clarify whether students must complete written assignments individually or may seek assistance from other individuals. If individual faculty members require specific reference styles or impose more definitive definitions of plagiarism, these points should be provided to students in writing and further clarified during the course lectures.

Student Responsibilities

If students believe other students are cheating, they should discuss their concerns with the faculty member responsible for the course. Cheating observed during an examination should be reported by raising one’s hand and quietly expressing such concerns to the responsible faculty member without disrupting the class. Repeated cheating during examinations should be reported by filing a written complaint with the faculty member responsible for the course containing an accurate account of the incidents. The identity of the students who file written complaints regarding allegations of misconduct will be kept confidential to the extent possible. Their identities may be revealed during investigations, Academic Misconduct Committee hearings or if higher levels of appeal are pursued.

If students are uncomfortable discussing such allegations with faculty members, or do not believe that individual faculty members are ensuring the integrity of examinations, they should seek counsel from Student Affairs and the Executive Associate Dean for Professional Education. Students who take it upon themselves to arbitrarily and anonymously sanction fellow students without following the processes outlined in the Student Handbook and University Student Codes are acting unprofessionally and are violating the Standards of Behavior at the University. As underscored in the Student Code, acts
such as “hazing, verbal abuse, threats, intimidation, harassment, coercion or any other behavior” are subject to disciplinary action.

**Dean’s Office Responsibilities**

The Dean’s Office has the obligation to provide each student with a fair opportunity to meet the high standards of scholarship and integrity associated with the PharmD Program and the profession of pharmacy. The Dean’s Office provides leadership to ensure that an educational environment that optimizes academic and professional development is created and sustained. Student Affairs and Executive Associate Dean for Professional Education provide counsel and assistance to both faculty and students in addressing allegations of academic dishonesty.

**APPEALING ALLEGATIONS OR SANCTIONS RESULTING FROM VIOLATIONS OF ACADEMIC INTEGRITY**

Any student accused of violations of academic integrity should discuss the incident with Student Affairs and the Executive Associate Dean for Professional Education in order to fully understand the consequences of an academic sanction, and the appeal processes available to the student should he/she refute the allegation or consider the sanctions to be arbitrary or capricious.

If a student involved in an alleged act of academic dishonesty accepts the allegations and the academic sanctions imposed by the faculty member, the incident may be considered closed.

Even though the alleged academic dishonesty and the subsequent sanction may be accepted without appeal, the final grade received for the course as the result of the academic sanction may result in the College Scholastic Standards Committee imposing academic probation, suspension or dismissal from the PharmD Program. The decision of the Scholastic Standards Committee usually takes the previous academic background of the student into consideration when taking such actions, as well as any further recommendations by other individuals or committees.

The College Scholastic Standards Committee will not institute the academic sanctions of probation, suspension or dismissal until all appeal processes undertaken by the involved parties are completed. The academic sanction of probation, suspension or dismissal imposed by the Scholastic Standards Committee as the result of the final grade received in the course(s) cannot be further appealed.

**A. Academic Misconduct**

1. A student who engages in academic misconduct may be subject to academic sanctions including but not limited to a grade reduction, failing grade, probation, suspension or dismissal from PharmD program. Sanctions may also include community service, a written reprimand, and/or a written statement of misconduct that can be put into an appropriate record maintained for purposes of the profession for which the student is preparing.

Any person who observes or discovers academic misconduct by a student should file a written complaint with the faculty member responsible for the pertinent academic activity.
A faculty member who discovers or receives a complaint of misconduct relating to an academic activity for which the faculty member is responsible shall take action under this Student Handbook and University Student Code and impose an appropriate sanction for the misconduct.

Faculty should consult with Student Affairs to determine best course of action, and whether a Professionalism Concerns Report is necessary. If behavior is repeated or of a serious nature, a Professionalism Concerns Report (PCR) should be filed. Students who receive 3 or more PCRs will be automatically referred to the Academic Misconduct Committee.

Upon receipt of a complaint or discovery of academic misconduct, the faculty member shall make reasonable efforts to discuss the alleged academic misconduct with the accused student and give the student an opportunity to respond. The faculty member shall give the student written notice of the academic sanction, if any, to be taken and the student's right to appeal the academic sanction to the Academic Misconduct Committee. Such sanctions may include requiring the student to rewrite a paper(s) or retake an exam(s), a grade reduction, a failing grade for the exercise, or a failing grade for the course. In no event shall the academic sanction imposed by the faculty member be more severe than a failing grade for the course.

If the faculty member imposes the sanction of a failing grade for the course, the faculty member shall notify in writing, the department chair and Executive Associate Dean for Professional Education, of the academic misconduct and the circumstances which the faculty member believes support the imposition of a failing grade. The Dean of the College and the Senior Vice President for Health Sciences are also notified as appropriate. If the sanction imposed by the faculty member is less than a failing grade for the course, the faculty member should report the misconduct to the department chair and Executive Associate Dean for Professional Education.

a. A student who believes that the academic sanction given by the faculty member is arbitrary or capricious should discuss the academic sanction with the faculty member and attempt to resolve the disagreement. If the student and faculty member are unable to resolve the disagreement, the student may appeal the academic sanction to the Academic Misconduct Committee within forty(40) business days of receiving written notice of the academic sanction.

B. Proceedings Before the Academic Misconduct Committee

1. Written Complaint or Appeal. The written complaint or appeal shall be submitted through Student Affairs to the Executive Associate Dean for Professional Education for distribution to the chair of the Academic Misconduct Committee, and copies of the complaint or appeal are forwarded to the faculty member responsible for the course and the department chair. The Scholastic Standards Committee chair is also notified of the appeal.

2. Response to Complaint or Appeal. The person responding to the complaint or appeal should submit their written response to Student Affairs for distribution to the student/faculty member, College Academic Misconduct Committee chair, Executive Associate Dean for Professional Education, and department chair, no later than five (5) business days after receipt of the complaint or appeal.

3. Makeup of the Committee. The Executive Associate Dean for Professional Education shall ensure that an Academic Misconduct Committee is constituted according to college procedures,
subject to the following parameters. Two faculty members shall come from within the College of Pharmacy, one faculty member from outside of the College of Pharmacy, and two PharmD students. No more than one faculty member and two Committee members in total may come from the same department in a multi-department college. The members of the Committee who shall hear the case are the three faculty members and the two students from the appealing student’s peer group. The Committee shall establish internal procedures consistent with the Orientation Manual and the Student Code.

4. Scheduling Hearings Before the Committees. When an appeal, together with a response, are filed in a timely manner, the Committee chair shall schedule a hearing date if:
   a. The documents raise material issues of disputed fact.
   b. The Committee determines that a hearing is necessary or otherwise desirable to aid in the resolution of the issues; or
   c. The possible sanctions against the student may include dismissal from the PharmD program, or suspension for longer than ten (10) business days.

   • If the Committee determines that no circumstances exist that require a hearing, as provided above, the chair shall within a reasonable time notify the student and the faculty member (the parties) in writing of this determination and convene a closed meeting of the Committee to consider the documentation submitted by the parties. The Committee chair shall prepare a written report of the Committee's findings and decision, including the basis for that decision, for immediate distribution to the student, faculty members responsible for the course(s), department chair, and Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education notifies the Dean of the College, the Senior Vice President for Health Sciences and Scholastic Standards Committee chair, as appropriate.

5. Notice of Hearings Before Committees. If the Committee determines that a hearing is required, the chair shall schedule a hearing date and notify the student, faculty member, department chair, Executive Associate Dean for Professional Education, and the Scholastic Standards Committee chair in writing of the date of the hearing, the names of the Committee members, and the procedures outlined below at least fifteen (15) business days prior to the hearing.

6. Hearing Procedures. Hearings shall be conducted according to the following procedures:
   a. Hearings shall be conducted within a reasonable time after the Committee's receipt of the written complaint or the written appeal, and the response.
   b. At least five (5) business days prior to the date of the hearing, the parties shall make available to each other and to the Committee a list of their witnesses and a list of the documents to be offered at the hearing. In exceptional circumstances, the Committee may allow a party to call witnesses not listed or submit additional documents at the hearing.
   c. The parties have a right to be accompanied by any person as advisor, including legal counsel, who will be permitted to attend, but not directly participate in, the proceedings.
   d. Hearings shall be closed to the public.
   e. All hearings, except Committee deliberations and voting, shall be recorded and a copy made available to any party upon request. Committee deliberations and voting shall take place in closed sessions.
The Committee must have a quorum present to hold a hearing. A quorum consists of three (3) members, including at least one (1) student and the faculty member from outside the college. If there is more than one hearing in a matter, or if the hearing continues over more than one session, the same three members must be present for all sessions. All findings and recommendations of the Committee shall require a majority vote of the Committee members present at the hearing.

At the hearing, the parties shall have the right to present questions to witnesses through the Committee chair, to present evidence and to call witnesses in their own behalf, in accordance with the Committee's established internal procedures.

The Committee shall not be bound by strict rules of legal evidence or procedure and may consider any evidence it deems relevant.

University legal counsel shall serve as a resource to the Committee and may be present at the hearing to provide guidance on substantive law and procedural matters.

If the appeal involves allegations of academic misconduct, the Committee must determine, by a preponderance of the evidence, whether the student engaged in the alleged academic misconduct. If the Committee answers this question in the affirmative, the Committee may then impose any academic sanction it deems appropriate under the entire circumstances of the case, including but not limited to retaking an exam(s), a grade reduction or a failing grade, academic probation, suspension and/or dismissal from the PharmD Program.

If the appeal involves academic sanctions resulting from violations of academic integrity, the Committee must find, by a preponderance of the evidence, that the academic sanction imposed by the faculty member for academic misconduct was arbitrary and capricious in order to overturn the original sanction.

The Committee shall make its findings and decisions based only on evidence and testimony presented by the parties at the hearing. Committee members shall not conduct their own investigations, rely on prior knowledge of the facts or develop their own evidence.

If either party presenting to the Academic Misconduct Committee fails to attend the hearing without good cause, the Committee may proceed with the hearing and take testimony and evidence.

The Committee chair shall prepare a written report of the Committee's findings and decision, including the basis for that decision, for immediate distribution to the student, faculty members responsible for the course(s), department chair, and Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education notifies the Dean of the College, the Senior Vice President for Health Sciences, and the Scholastic Standards Committee chair, if necessary, regarding the appeal and the Academic Misconduct Committee’s decision.

C. Appealing to the Dean of the College

1. Students or the faculty member(s) responsible for the course may appeal the College Academic Misconduct Committee’s decisions involving either allegations of academic misconduct or academic sanctions resulting from violations of academic integrity to the Dean in writing within...
ten (10) business days of notification of the College Academic Misconduct Committee’s
decision.

a. The written appeal should be submitted to Student Affairs for distribution to the Dean, the
student, faculty members and department chairs, Academic Misconduct Committee and the
Executive Associate Dean for Professional Education. The Executive Associate Dean for
Professional Education will notify other parties involved, including the Scholastic Standards
Committee chair and the Senior Vice President for Health Sciences, as appropriate.

2. The other party may file a response to the appeal with the Dean within five (5) business days of
receipt of the notice of appeal. Written response should be submitted to Student Affairs for
distribution to the Dean, and other involved parties, as outlined above.

3. The Dean of the College shall consider the appeal and the documentation submitted to the
Committee, and the findings and conclusions of the Committee in making a decision.

a. To overturn academic sanctions imposed by the faculty member or Academic Misconduct
Committee, the Dean must find that the academic sanction was arbitrary or capricious.

b. In considering appeals involving allegations of academic misconduct, the Dean must find,
by a preponderance of the evidence, that the student engaged in alleged academic
dishonesty.

c. Academic, professional, and ethical backgrounds while enrolled in the College of Pharmacy
PharmD Program are taken into consideration by the Dean.

4. Written notification of the Dean's decision shall be communicated in writing the student, faculty
member, College Academic Misconduct Committee chair, Executive Associate Dean for
Professional Education and Scholastic Standards Committee chair within ten (10) business days
of receipt of the appeal.

5. The Dean's decision is final unless appealed to the Senior Vice President of Health Sciences
within ten (10) business days.

D. Appeal to Senior Vice President of Health Sciences

1. Within ten (10) business days of receipt of the Dean's decision, any party may appeal the
decision by filing a written notice of appeal with the Senior Vice President for Health Sciences.

a. The written appeal should be submitted to Student Affairs for distribution to the Senior Vice
President, the Dean, the other parties involved including students, faculty members and
department chair, Academic Misconduct Committee chair, and Executive Associate Dean
for Professional Education. The Executive Associate Dean for Professional Education also
notifies the Scholastic Standards chair, if appropriate, of the appeal.

2. The other party may file a response to the appeal with the Vice President within five (5)
business days of receipt of the appeal. Written response should be submitted to Student
Affairs for distribution to the Vice President, and other involved parties, as outlined above.

3. The Vice President shall consider the appeal and response to the appeal, and may solicit
whatever counsel and advice the Vice President deems appropriate to arrive at a final
decision. The Vice President may also convene an ad hoc committee composed of students
and faculty members from outside the college or department to determine if there were substantial defects that denied basic fairness and due process. After receiving the appeal, the Vice President shall, within twenty (20) business days, take one of the following actions:

a. Accept the decision of the Dean of the college.

b. Return the report to the Dean of the college requesting that he/she clarify specific matters, materials and issues, and forward to the Vice President a second report of his/her decision relating to the specific matters referred by the Vice President for further explanation; or

c. Reject all or parts of the Dean's decision, stating reasons and actions for imposing a greater or lesser sanction than determined by the Dean.

4. Written notification of the Vice President's decision and the basis for that decision shall be communicated to the parties, to the chair of the Academic Misconduct Committee and to the Dean within twenty (20) business days after receipt of the appeal. The Dean then notifies the Executive Associate Dean for Professional Education, other parties involved in the allegation, and the Scholastic Standards Committee chair of the Senior Vice President’s decision.

5. The decision of the Vice President is final. The Executive Associate Dean for Professional Education and Scholastic Standards Committee chair will take appropriate action to implement the final decision of the appeal processes.

E. Copies of Documents to Department Chair

1. During the appeals process and at the time they are submitted, the following documents should be copied to the chair of the department considering the academic misconduct: the first written complaint, the first written appeal, all subsequent appeals, all responsive documents, and all written recommendations or decisions made at each level of the appeal.
Academic Misconduct Committee Flowchart

Academic Integrity Violation

Student is reported for violation of academic integrity

Faculty meets with accused student(s), and gathers evidence to determine validity of allegations

Student meets with Executive Associate Dean for Professional Education about sanctions and appeal process

Faculty decides on sanction

If behavior is repeated or of a serious nature, a PCR should be filed with Student Affairs

Sanction of failing grade or less severe, student is notified and sanction imposed

Student accepts allegation and sanction, case considered closed

Student wants to appeal allegations or faculty sanctions

Committee meets to determine if there are factual disputes and whether a hearing would be beneficial

Committee notifies parties of Hearing 15 days prior to Hearing

After Hearing, Committee deliberates and votes in closed session

Students who receive 3 or more PCRs (2 or more if IPPE/APPE) will be automatically referred to Academic Misconduct Committee

Student submits appeal through Executive Associate Dean for Professional Education to Misconduct Committee

If PCR is of a serious or concerning nature, Executive Associate Dean for Professional Education may refer the student to the Academic Misconduct Committee for review

Note: Final grade may result in Scholastic Standards Committee imposing sanction

Committee notifies parties of hearing

No Hearing, Committee deliberates and votes in closed session

Possible sanctions include but are not limited to academic probation, suspension and/or dismissal from program

Student may appeal sanction to Dean of College of Pharmacy, then Sr. Vice President for Health Sciences
VIOLATIONS OF PROFESSIONAL OR ETHICAL STANDARDS

Professional students are preparing to enter a highly respected, but highly regulated, profession. The PharmD Program provides the foundation from which students begin to acquire the attitudes, skills and behaviors that are expected of the profession. Attention to professional, ethical, legal and personal standards becomes even more critical as professional students interact with colleagues, faculty preceptors, other health care professionals, other participants or individuals overseeing an educational experience and the public.

All allegations of professional or ethical misconduct are taken seriously by the College of Pharmacy faculty and Dean’s Office. Unprofessional and/or negligent conduct toward patients, other professional students, faculty, pharmacists, or other health care personnel are not tolerated.

Substance Abuse or Chemical Dependency

Students who appear to be experiencing substance abuse or chemical dependency problems may be offered an opportunity for evaluation, treatment and rehabilitation if they have not previously sought such assistance.

Licensed Pharmacy Interns: Students holding an intern license from the State of Utah will be referred to the State of Utah Recovery Assistance Program for Health Care Professionals, which may institute a structured monitoring program as set forth in a written contract between the student, College of Pharmacy and Recovery Assistance Program. Individuals may be accepted into the State of Utah Recovery Assistance Program only once.

Other Violations of the Student Code

Cases of professional or ethical misconduct by students enrolled in the PharmD Program involving standards of conduct other than those specified above are to be reported in writing to Student Services and the Executive Associate Dean for Professional Education of the College. These cases will be acted upon by the Academic Misconduct Committee as described in the Student Handbook and the University of Utah Student Code.

RESPONSIBILITIES

It is the responsibility of the students, faculty members overseeing didactic and experiential courses, and the College of Pharmacy to assure that students are upholding the professional and ethical standards of pharmacy. Because pharmacy students interact extensively with other health care professionals and the public during their tenure in the PharmD Program, allegations of professional or ethical misconduct may be brought to the College’s attention from other sources such as professional colleagues in the health sciences, the Board of Pharmacy, or the public.

Allegations of violations of such standards must be made in writing to the Executive Associate Dean for Professional Education of the College. A Professionalism Concerns Report may be used as the written...
complaint (Page 115). The identity of the individuals who filed a written complaint regarding the allegations will be kept confidential to the extent possible. However, their identities may be revealed as investigations and hearings are pursued by the Dean’s Office, Academic Misconduct Committee or at higher levels of appeal.

### APPEALING ALLEGATIONS OR ACADEMIC SANCTIONS RESULTING FROM VIOLATIONS OF PROFESSIONAL AND ETHICAL CODES

Students may appeal academic sanctions imposed by the College Academic Misconduct Committee resulting from allegations of professional or ethical misconduct that are perceived to be arbitrary or capricious. The Scholastic Standards Committee will not institute academic probation, suspension or dismissal sanctions until any appeals are completed.

If students involved in alleged violations of the Professional or Ethical Codes of Conduct, or the University of Utah Student Code accept the allegations, informal resolution is agreed to with the Executive Associate Dean for Professional Education, and the terms and conditions of the written contract are adhered to and/or completed, the incident may be considered closed.

Students failing to uphold the terms of written contracts and/or sanctions may be suspended or dismissed from the PharmD Program.

The College Scholastic Standards Committee will not institute the academic sanctions of probation, suspension or dismissal until all appeals processes undertaken by the involved parties are completed. The academic sanction of probation, suspension or dismissal imposed by the Scholastic Standards Committee cannot be further appealed.

Written contracts and associated documentation pertaining to the violation will be kept confidential in a locked file separate from the student’s academic file. Student Affairs will monitor whether students comply with the terms of their written contracts, or any academic sanctions deemed appropriate by the Executive Associate Dean for Professional Education and/or Academic Misconduct Committee.

### A. Professional Misconduct

1. A student who engages in professional misconduct may be subject to academic sanctions including but not limited to a grade reduction, failing grade, probation, suspension or dismissal from the program. Sanctions may also include community service, a written reprimand, and/or a written statement of misconduct that can be put into an appropriate record maintained for purposes of the profession for which the student is preparing.

   a. Any person who observes or discovers that a student has engaged in professional misconduct should discuss and file a written complaint, also known as a Professionalism Concerns Report (PCR), with the Executive Associate Dean for Professional Education within forty-five (45) business days of the date of discovery of the alleged violation. The identity of the individuals who filed a written complaint regarding the allegations will be kept confidential to the extent possible. However, their identities may be revealed as investigations and hearings are pursued by the Dean’s Office, Academic Misconduct Committee or at higher levels of appeal.
b. Upon receipt of the complaint, the Executive Associate Dean for Professional Education shall notify the department chair, and within a reasonable time discuss the alleged misconduct with the accused student and give the student an opportunity to respond. The Executive Associate Dean for Professional Education may interview the complaining party and any other persons believed to have pertinent factual knowledge of the allegations. The Executive Associate Dean for Professional Education may also review any other relevant evidence, including documentary evidence.

c. The Executive Associate Dean for Professional Education shall determine whether there is a reasonable basis to believe that the student engaged in professional misconduct.

d. Any written allegations and documentation will be kept in a secured file separate from student academic records.

e. If the Executive Associate Dean for Professional Education determines that there is no reasonable basis to believe that the student engaged in professional misconduct, the Executive Associate Dean for Professional Education, shall notify the student, the matter will be dismissed, and the written documentation destroyed following the completion of the student’s program of study.

f. If the Executive Associate Dean for Professional Education determines that there is a reasonable basis for believing that the student engaged in professional misconduct, he/she shall determine whether efforts at informal resolution are appropriate and, if so, shall take whatever steps are useful to that end.

g. If an informal resolution is reached and the responding student complies with the terms and conditions of the resolution, no further action against the student will be taken and the matter will be closed.

- The resolution means of monitoring compliance with the resolution, and the consequences if the terms of the resolution are not upheld are agreed to in writing by the student, Student Affairs, and the Executive Associate Dean for Professional Education. Student Affairs monitors student compliance with the terms and conditions of the resolution. If the student upholds the informal resolution, no further actions will be taken, and the matter will be closed.

- A student may be requested to undergo further evaluation, remediation or referral to other professionals or programs in order to determine whether such interventions may form the basis of informal resolutions to the allegations. If evaluations, remediation and/or referrals are appropriate interventions and are agreed to by the student, Student Affairs, and the Executive Associate Dean for Professional Education will refer the student to the appropriate professional services or programs. The recommendations from such professional services or programs are the basis of a written contract agreed to by the student and the College of Pharmacy. The necessary terms, monitoring and consequences for failure to uphold the terms in this written contract are agreed to and signed by both the student and a representative of the College of Pharmacy.

- Documentation associated with such allegations of professional or ethical misconduct, as well as the evaluation, remediation or referral program and monitoring agreed to by the student and the College of Pharmacy are kept in confidential files separate from the student’s academic file.
• Academic sanctions of probation, suspension or dismissal will be imposed, as agreed to between the two parties, if the terms of such contracts are not upheld by the student. These sanctions cannot be further appealed.

h. If either the Executive Associate Dean for Professional Education or the student deem informal resolutions are not appropriate or evaluations, remediation and/or referral programs are inappropriate interventions, Executive Associate Dean for Professional Education shall, within twenty (20) business days of receipt of the complaint, refer the complaint, including his/her recommendation for academic sanctions, to the Academic Misconduct Committee for proceedings in accordance with below, and so notify the student in writing. The Scholastic Standards Committee chair is also notified.

i. If PCR is of a serious or concerning nature, Executive Associate Dean for Professional Education may refer the student to the Academic Misconduct Committee for review.

j. Students who receive 3 or more PCRs (2 or more if IPPE/APPE related) will be automatically referred to the Academic Misconduct Committee.

B. Proceedings Before the Academic Misconduct Committee

1. Written Complaint. The written complaint(s), or PCRs, shall be delivered to the chair of the Committee, with a copy to the student.

2. Response to Complaint. The student responding to the complaint should submit his/her response to Student Affairs for distribution to the chair of the Academic Misconduct Committee, with a copy to appropriate parties, no later than five (5) business days after receipt of the complaint.

3. Makeup of the Committee. The Executive Associate Dean for Professional Education shall ensure that an Academic Misconduct Committee is constituted according to college procedures, subject to the following parameters. Two faculty members shall come from within the College of Pharmacy, one faculty member from outside of the College of Pharmacy, and two PharmD students. No more than one faculty member and two Committee members in total may come from the same department in a multi-department college. The members of the Committee who shall hear the case are the three faculty members and the two students from the appealing student's peer group. The Committee shall establish internal procedures consistent with the Orientation Manual and the Student Code.

4. Scheduling Hearings Before the Committees. When a complaint together with a response are filed in a timely manner, the Committee shall schedule a hearing date if:

   a. The documents raise material issues of disputed fact.

   b. The Committee determines that a hearing is necessary or otherwise desirable to aid in the resolution of the issues; or

   c. The possible sanctions against the student may include dismissal from the PharmD program, or suspension for longer than ten (10) business days.

   • If the Committee determines that no circumstances exist that require a hearing, as provided above, the chair shall notify the student and the faculty member (the parties) in writing
of this determination and convene a closed meeting of the Committee to consider the
documentation submitted by the parties. The Committee chair shall prepare a written
report of the Committee's findings and sanction, including the basis for that decision for
immediate distribution to the student, faculty members responsible for the course(s),
department chair, and Executive Associate Dean for Professional Education. The
Executive Associate Dean for Professional Education notifies the Dean of the College,
the Senior Vice President for Health Sciences and Scholastic Standards Committee
chair, as appropriate.

5. Notice of Hearings Before Committees. If the Committee determines that a hearing is required,
the chair shall schedule a hearing date and notify the parties in writing of the date of the hearing,
the names of the Committee members, and the procedures outlined below at least fifteen (15)
business days prior to the hearing.

6. Hearing Procedures. Hearings shall be conducted according to the following procedures:

a. Hearings shall be conducted within a reasonable time after the Committee's receipt of the
written complaint and recommendations and the response.

b. At least five (5) business days prior to the date of the hearing, the parties shall make
available to each other and to the Committee a list of their witnesses and a list of the
documents to be offered at the hearing. In exceptional circumstances, the Committee may
allow a party to call witnesses not listed or submit additional documents at the hearing.

c. The parties have a right to be accompanied by any person as advisor, including legal
counsel, who will be permitted to attend, but not directly participate in, the proceedings.

d. Hearings shall be closed to the public.

e. All hearings, except Committee deliberations and voting, shall be recorded and a copy made
available to any party upon request. Committee deliberations and voting shall take place in
closed sessions.

f. The Committee must have a quorum present to hold a hearing. A quorum consists of three
(3) members, including at least one (1) student and the faculty member from outside the
college. If there is more than one hearing in a matter, or if the hearing continues over more
than one session, the same three members must be present for all sessions. All findings and
decisions of the Committee shall require a majority vote of the Committee members present
at the hearing.

g. At the hearing, the parties shall have the right to present questions to witnesses through the
Committee chair, to present evidence and to call witnesses in their own behalf, in
accordance with the Committee's established internal procedures.

h. The Committee shall not be bound by strict rules of legal evidence or procedure and may
consider any evidence it deems relevant.

i. University legal counsel shall serve as a resource to the Committee and may be present at
the hearing to provide guidance on substantive law and procedural matters.

j. In the hearing, the Committee must determine, by a preponderance of the evidence, whether
the student engaged in the alleged professional or ethical misconduct. If the Committee
answers this question in the affirmative, the Committee may then recommend any academic
sanction it deems appropriate under the entire circumstances of the case. Possible sanctions
include, but are not limited to, academic probation, suspension and/or dismissal from the PharmD Program.

k. The Committee shall make its findings and decisions based only on evidence and testimony presented by the parties at the hearing. Committee members shall not conduct their own investigations, rely on prior knowledge of the facts or develop their own evidence.

l. If either party presenting to the Academic Appeals Committee fails to attend the hearing without good cause, the Committee may proceed with the hearing and take testimony and evidence and report its findings and decision to Senior Vice President for Health Sciences, on the basis of such testimony and evidence.

m. The Committee chair shall prepare a written report of the Committee's findings and decision, including the basis for that decision, for immediate distribution to the student, faculty members responsible for the course(s), department chair, and Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education notifies the Dean of the College, the Senior Vice President for Health Sciences and Scholastic Standards Committee chair, as appropriate.

7. The Committee's decision may form the basis of a written contract agreed to by the student and the College of Pharmacy. The necessary terms, monitoring and consequences for failure to uphold the terms in this written contract are agreed to and signed by both the student and a representative of the College of Pharmacy.

C. Appealing to the Dean of the College

1. Students may appeal the academic sanctions imposed by the College Academic Misconduct Committee resulting from allegations of professional or ethical misconduct to the Dean in writing within ten (10) business days of notification of the College Academic Misconduct Committee's decision.

   a. The written appeal should be submitted to Student Affairs for distribution to the Dean, Academic Misconduct Committee, individual(s) making allegations, and the Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education will notify other parties involved, including the Scholastic Standards Committee chair and the Senior Vice President for Health Sciences, as appropriate.

2. The other party may file a response to the appeal with the Dean within five (5) business days of receipt of the notice of appeal. Written response should be submitted to Student Affairs for distribution to the Dean, and other involved parties, as outlined above.

3. The Dean of the College shall consider the appeal and the documentation submitted to the Committee, and the findings and conclusions of the Committee in making a decision.

   a. The Misconduct Committee’s decision can be overturned only if the Dean perceives the decision to be arbitrary and capricious, or due process was not followed.

   b. The Dean may consider the academic background of students involved, evidence available to the Academic Misconduct Committee, and the process followed in reporting, investigating and resolving the allegations.
4. Written notification of the Dean's decision shall be communicated in writing the student, faculty member, College Academic Misconduct Committee chair, Executive Associate Dean for Professional Education and Scholastic Standards Committee chair within ten (10) business days of receipt of the appeal.

5. The Dean's decision is final unless appealed to the Senior Vice President of Health Sciences within ten (10) business days.

D. Appeal to Senior Vice President of Health Sciences

1. Within ten (10) business days of receipt of the Dean's decision, any party may appeal the decision by filing a written notice of appeal with the Senior Vice President for Health Sciences.
   a. The written appeal should be submitted to Student Affairs for distribution to the Senior Vice President, the Dean, the other parties involved including students, individual(s) making allegations, department chair, Academic Misconduct Committee chair, and Executive Associate Dean for Professional Education. The Executive Associate Dean for Professional Education also notifies the Scholastic Standards chair, if appropriate, of the appeal.

2. The other party may file a response to the appeal with the Vice President within five (5) business days of receipt of the appeal. Written response should be submitted to Student Affairs for distribution to the Vice President, and other involved parties, as outlined above.

3. The Vice President shall consider the appeal and response to the appeal, and may solicit whatever counsel and advice the Vice President deems appropriate to arrive at a final decision. The Vice President may also convene an ad hoc committee composed of students and faculty members from outside the college or department to determine if there were substantial defects that denied basic fairness and due process. After receiving the appeal, the Vice President shall, within twenty (20) business days, take one of the following actions:
   a. Accept the decision of the Dean of the college.
   b. Return the report to the Dean of the college requesting that he/she clarify specific matters, materials and issues, and forward to the Vice President a second report of his/her decision relating to the specific matters referred by the Vice President for further explanation; or
   c. Reject all or parts of the Dean's decision, stating reasons and actions for imposing a greater or lesser sanction than determined by the Dean.

4. Written notification of the Vice President's decision and the basis for that decision shall be communicated to the appealing party, and to the Dean within twenty (20) business days after receipt of the appeal. The Dean then notifies the other parties involved, Academic Misconduct Committee chair, Executive Associate Dean for Professional Education, and the Scholastic Standards Committee chair of the Senior Vice President’s decision.

5. The decision of the Vice President is final. The Executive Associate Dean for Professional Education and Scholastic Standards Committee chair will take appropriate action to implement the final decision of the appeal processes.
**Academic Misconduct Committee Flowchart**

**Professional / Ethical / Student Code Violation**

- **Student is reported for professional, ethical, or Student Code violations to Executive Associate Dean for Professional Education.**
  - **Student meets with Executive Associate Dean for Professional Education about allegations and gives opportunity to respond.**
  - **Executive Associate Dean for Professional Education interviews parties / individuals and reviews evidence.**
    - **Student or Executive Associate Dean for Professional Education deem informal resolution not appropriate, and refers case to Academic Misconduct Committee.**
    - **Students who receive 3 or more PCRs (2 or more IPPE/APPE) will be automatically referred to Academic Misconduct Committee.**
      - **Executive Associate Dean for Professional Education meets with student to determine if informal resolution is feasible.**
        - **Deems informal resolution is appropriate and works with student to reach resolution.**
        - **Student submits appeal through Executive Associate Dean for Professional Education to Misconduct Committee.**
          - **Student submits appeal to Dean of College of Pharmacy, then Sr. Vice President for Health Sciences.**
    - **Executive Associate Dean for Professional Education determines not enough evidence, notifies student, case closed.**
      - **Executive Associate Dean for Professional Education finds adequate evidence of violation.**
        - **Committee meets to determine if there are factual disputes and whether a hearing would be beneficial.**
          - **Committee notifies parties of Hearing 15 days prior to Hearing.**
            - **No Hearing, Committee deliberates and votes in closed session.**
              - **After Hearing, Committee deliberates and votes in closed session.**
                - **Possible sanctions include but are not limited to academic probation, suspension and/or dismissal from program.**
                  - **Student may appeal sanction to Dean of College of Pharmacy, then Sr. Vice President for Health Sciences.**

PROFESSIONALISM CONCERNS REPORT (PCR)

A Professionalism Concerns Report (PCR) is prepared when a student exhibits behavior not consistent with the College of Pharmacy Professionalism Guidelines and is intended to assist the student in meeting professionalism expectations in academic, professional or administrative settings. Upon discovery of the concerning behavior, the individual should discuss the incident with Student Affairs and the Executive Associate Dean for Professional Education. If the incident occurs in a Patient Care setting, including IPPEs and APPEs, the EE Director is included in the discussion.

When behavior is repeated or of a serious nature, a PCR should be completed. In the case of Academic Misconduct, the faculty member who completed the report should meet with the student to discuss improvements, and follow procedures outlined on page 100. In the case of Professional Misconduct, the Executive Associate Dean for Professional Education will meet with the student, giving them a chance to respond to the allegations, and investigate as outlined on page 108.

A student who engages in professional misconduct may be subject to academic sanctions including but not limited to a grade reduction, failing grade, probation, suspension or dismissal from the program. Sanctions may also include community service, a written reprimand, and/or a written statement of misconduct that can be put into an appropriate record maintained for purposes of the profession for which the student is preparing.

Students who receive 3 or more PCRs (2 or more if IPPE/APPE related) will be automatically referred to the Academic Misconduct Committee.
Process for Managing Unprofessional Behavior

1. **Faculty expresses concern to appropriate party**

2. **Student Affairs Assoc. Director meets with student to suggest improvement**

3. **Individual who completed the PCR meets with student to discuss improvements**

4. **If behavior is repeated or is of a serious nature, a PCR will be completed**

5. **PCR is forwarded to Executive Associate Dean for Professional Education**

6. **Note: Student is asked to sign PCR to acknowledge the review**

7. **If PCR is of a serious or concerning nature, Exec. Dean may refer the student to the Academic Misconduct Committee for review**

8. **Students who receive 3 or more PCRs (2 or more if IPPE/APPE) will be automatically referred to Academic Misconduct Committee**

9. **Executive Associate Dean for Professional Education meets with student to determine if informal resolution is feasible**

10. **Determinise informal resolution appropriate and works with students to reach**

11. **Student adheres to informal resolution and case closed**

12. **Committee meets to determine if there are factual disputes and whether a hearing would be beneficial**

13. **Committee notifies parties of Hearing 15 days prior to Hearing**

14. **After Hearing, Committee deliberates and votes in closed session**

15. **Possible sanctions include but are not limited to academic probation, suspension and/or dismissal from program**

16. **Student may appeal sanction to Dean of College of Pharmacy, then Sr. Vice President for Health Sciences**

APPENDICES

| APPENDIX 1 | Petition to Apply Elective credits Earned in P1/P2 Year Towards P3 Elective Requirement |
| APPENDIX 2 | Teaching Assistant Position Agreement |
| APPENDIX 3 | Teaching Assistant Evaluation Form |
| APPENDIX 4 | Professionalism Concern Report |
| APPENDIX 5 | Vaccination and Immunization Information |
| APPENDIX 6 | Orientation Agreement |
Petition to Apply Elective credits Earned in P1/P2 Year Towards P3 Elective Requirement

Student Name: ___________________________     Student UID: __________

Professional Development Mentor(s): __________________________________________

Curriculum Track: ____________________________________________________________

Project Title: ________________________________________________________________

Project Mentor(s): ____________________________________________________________

Students who wish to apply elective credits obtained in years other than P3, towards the P3 requirement may petition their curriculum track steward in writing for an exception. The purpose of the P3 elective requirement is to allow students to take specialized courses, which build upon knowledge gained in the P1 and P2 curriculum. The P3 electives should aid a P3 student in meeting their individual career goals, completing their PharmD project, and/or complement other coursework in their chosen curriculum track. A minimum of nine (9) semester credit hours of elective courses (5000 or above) is required for the Doctor of Pharmacy Program in the P3 student year. Exemptions to the P3 elective requirement exist to provide flexibility for students completing special programs of study in addition to meeting minimum Doctor of Pharmacy program requirements.

Briefly describe your current educational and professional goals. What do you envision doing after graduation?

Provide details below describing the elective course you wish to petition to apply towards the P3 elective requirement.

Course number & name: ________________________________

Name of course master: ________________________________

Credit hours earned: _________________________________

Semester & year enrolled in the course: __________________

Letter grade earned in the course: ____________________
Teaching Assistant Position Agreement

Congratulations on receiving the position as a Teaching Assistant with the College of Pharmacy. As such, you will provide professional support to professors and students, using your skills and talents while gaining valuable work experience.

You are a valuable part of our teaching process and some of the top students in the program. As students yourself, your insights and enthusiasm are very important to inspiring the next generation of students.

Requirements for College of Pharmacy Teaching Assistants:

1. Attend class lectures, scheduled office hours, and scheduled activities (may be excused for P4s).
2. Properly prepare for office hours pre-reading/pre-doing the course assignments.
3. Be available to consult with students by appointment.
4. Communicate effectively with the professor and students in the class.
5. Answer student questions and emails promptly and accurately.
6. Help grade homework assignments.
7. Provide additional support to your faculty supervisor.
8. Discuss pay with coursemasters and come to an agreement.

The College of Pharmacy strives for excellence in our education efforts. To help meet this goal TAs are encouraged to be evaluated by their faculty supervisor at the end of the semester. Exceptional TAs will be considered for the TA of the Year Award. It is your responsibility to make sure the evaluation form is completed, signed, and turned in to Shawna Webster, Associate Director of Student Services, Skaggs I05C.

Any student for whom English is not a fluent language should reach out to Shawna Webster.

If you don't feel qualified to teach or unable to meet the above requirements in a particular class, please contact your assigned faculty supervisor and let them know; then together contact Executive Associate Dean James Herron to request a change.

Teaching assistants who achieve the top marks will be given consideration for the TA of the Year Award of $500.

1 Based on the requirements of the course as agreed with the faculty supervisor.

<td>Teaching Assistant (Print Name)</td>
<td>Faculty Supervisor (Print Name)</td>
</tr>
</tbody>
</table>

The following form must be completed before the end of the semester. It is the responsibility of the TA to make sure the form is completed and signed by the faculty supervisor. If a particular line item does not apply to the particular course, the faculty supervisor should cross it out.

Please note that this list is not a complete job description. Should you have any questions about what your responsibilities are, please contact your faculty supervisor or the Executive Associate Dean for Professional Education.

Grading Scale: Not Satisfactory 1 2 3 4 5  Satisfactory 1 2 3 4 5  Very Satisfactory 1 2 3 4 5

1. Is prepared for class/student consultation.
   - 1 2 3 4 5

2. Comes to class regularly if applicable.
   - 1 2 3 4 5

3. Knows subject matter well enough to judge correctness independently.
   - 1 2 3 4 5

4. Able to communicate well (verbally) with students, both during office hours and in the classroom setting.
   - 1 2 3 4 5

5. Completes work (e.g., grading) on time.
   - 1 2 3 4 5

6. Responds to student e-mails in a timely fashion.
   - 1 2 3 4 5

7. Responds promptly to e-mails from faculty instructor.
   - 1 2 3 4 5

8. Pays attention to detail and accuracy in grading and recording of grades.
   - 1 2 3 4 5

9. Attends scheduled office hours.
   - 1 2 3 4 5

10. Maintains a good rapport with students and is helpful to students.
    - 1 2 3 4 5

11. Is Organized.
    - 1 2 3 4 5

Any additional written feedback from the faculty supervisor.

*If applicable

This report is prepared when a student exhibits behavior not consistent with the UoU Professionalism Guidelines and is intended to assist the student in meeting professionalism expectations in academic, professional or administrative settings. Improvement in the area(s) noted below is needed in order to meet the standards of professionalism inherent in being a pharmacist.

**Check the appropriate category(ies). Comments are required.**

**Patient-Centered Care**

- [ ] The student did not act in the best interest of the patient.
- [ ] The student did not demonstrate sensitivity to the needs, values or perspectives of patients, family members or caregivers.
- [ ] The student did not establish appropriate rapport with patients, family members or caregivers.
- [ ] The student did not demonstrate openness/ responsiveness to the patient’s ethnic and cultural background.
- [ ] The student did not respond to patient needs in a timely, safe or effective manner.
- [ ] Other unprofessional behavior related to Patient Centered Care.

**Comments: (Describe the specifics of the incident-who, what, when, where)**

**Respect**

- [ ] The student did not demonstrate respect for the rights of others in academic or professional settings.
- [ ] The student did not demonstrate respect in interactions with others.
- [ ] The student did not establish or maintain appropriate boundaries with patients, family members, fellow students, faculty or staff.
- [ ] The student did not demonstrate equal respect for all persons, regardless of, race, gender, religion, sexual orientation, age, disability or socioeconomic status.
- [ ] The student did not demonstrate respect for the confidentiality rights of patients or others.
- [ ] Other behavior that demonstrated lack of respect.

**Comments: (Describe the specifics of the incident-who, what, when, where)**
Integrity
- The student provided false information in an academic, professional or administrative setting.
- The student acted outside the scope of his/her role in an academic, professional or administrative setting.
- The student presented the work of others as his/her own (e.g. plagiarism or cheating).
- The student used his/her professional position for personal advantage.
- The student used the physical or intellectual property of others without permission or attribution (e.g. plagiarism).
- Other behavior that demonstrated lack of integrity:

Comments: (Describe the specifics of the incident-who, what, when, where)

Service
- The student did not function collaboratively within the health care team.
- The student did not demonstrate sensitivity to the requests of the health care team.
- The student did not demonstrate the ability to collaborate with students, faculty and staff in a learning environment.
- Other behavior that impeded collaboration:

Comments: (Describe the specifics of the incident-who, what, when, where)

Responsibility
- The student was tardy, absent, and/or misses deadlines/appointments.
- The student was disruptive or rude.
- The student needed continual reminders in the fulfillment of responsibilities.
- The student did not accept responsibility for his/her actions, recommendations or errors.
- The student could not be relied upon to complete his/her responsibilities in a timely manner.
- The student did not adhere to policies, procedures and/or instructions.
- The student did not dress in attire appropriate for a patient care setting.
- Other irresponsible behavior:

Comments: (Describe the specifics of the incident-who, what, when, where)
Responsiveness & Adaptability

☐ The student was resistant or defensive when provided with constructive feedback.
☐ The student did not demonstrate awareness of his/her own limitations and/or willingness to seek help.
☐ The student resisted adopting recommendations from faculty or others to improve learning or performance.
☐ The student did not demonstrate adaptability in a patient care or classroom environment.
☐ Other behavior that impeded self-improvement:

Comments: (Describe the specifics of the incident-who, what, when, where)

6. Your recommendations and/or requirements for remedying the Professionalism Concerns listed on this report.

7. This section is to be completed by the student (optional)

Comments (use back or attach additional information if desired)

I have read this evaluation and discussed it with the Coursemaster / Associate Director / EE Director / Executive Associate Dean.

________________________________________  ____________
Student signature                           Date

Your signature indicates that you have read the report, and it has been discussed with you. It does not represent your agreement or disagreement with the PCR. If you disagree or want to comment, you are encouraged to comment in the space provided.

The PCR will be sent to Executive Associate Dean for Professional Education and will be maintained separately from your academic file. In the event a referral is made to the Academic Misconduct Committee, the PCR will become part of your academic file.

03/14/19
Vaccination and Immunization Requirements

I. Frequently Asked Questions

What is appropriate documentation?
Students must provide official documentation of vaccination administration by a healthcare provider to fulfill the immunization requirements. Documentation of a vaccine includes the name of the vaccine, date, time, location, name of the person who received the vaccine, and signature of the person administering. The Utah Statewide Immunization Information System (USIIS) may be helpful to find documentation. Information from an employee health or student health record are also acceptable documentation. Receipts from a pharmacy are not acceptable as documentation.

How do I document immunizations?
All documentation must be uploaded to CORE ELMS and kept current. The student is responsible for ensuring their vaccinations and immunization information are up to date throughout the Doctor of Pharmacy program.

What is a titer?
A titer is a laboratory test that measures the presence and amount of antibodies in blood. A blood sample is taken and tested. If the test is positive (above a particular known value) the individual has immunity. If the test is negative (no immunity) or equivocal (not enough immunity), then the individual needs to be vaccinated.

What if I can’t be vaccinated?
If there is a reason why a student believes they cannot meet these requirements and continue to keep vaccinations up to date throughout their time in the PharmD program, the student should contact the Student Affairs Team immediately. Failure to timely comply with these requirements will affect the College ability to place a student in clinical practice settings and will impact ability to graduate.

What if I allow my vaccine or testing to expire?
A student will be removed from any clinical practice rotations and will be required to make up any missed time. Student documentation must be submitted early enough prior to expiration to be confirmed by the Student Affairs and Experiential Education Teams before the student is allowed to attend clinical again.

II. What Vaccinations and Tests are Required?

Measles (Rubeola), Mumps, and Rubella (MMR)
- Two (2) MMR vaccinations OR
- Documentation of a positive titer to show immunity to Measles, Mumps, and Rubella

Varicella (Chicken Pox)
- Two (2) Varicella vaccinations OR
- Documentation of a positive titer to show immunity OR
- Documentation of past Varicella disease by a healthcare provider or local health department

Tdap (Tetanus, Diphtheria, and Pertussis) Vaccination
- Tdap, immediately, if a student has not received Tdap previously
- Get either a Tdap or Td booster every 10 years thereafter
- Pregnant healthcare workers need to get Tdap with each pregnancy

COVID Vaccination
- Primary Series: Two (2) Vaccinations (Moderna or Pfizer) or one (1) vaccination (Johnson&Johnson/Janssen)
- Booster series: One (1) Vaccination at least five (5) months after primary dose (Moderna/Pfizer) or at least two (2) months after (J&J/Janssen) dose

Annual Influenza (Flu) Vaccination

- Must provide documentation every year by October 31st for administration of that flu season’s vaccine
- A prescription label or receipt from the pharmacy where it was administered would not be accurate documentation by itself

Tuberculosis (TB) Test

- All incoming students must have an initial, baseline TB-test completed within the year before P1 classes begin. There are 3 options:
  - Two-step TST (two separate Tuberculin Skin Tests, a student would have one test placed, and read, and then another test placed 1-3 weeks later, and then read) OR
  - One QuantiFERON ® Gold blood test OR
  - One T-SPOT® TB blood test
- A blood test is the preferred method for annual TB testing.
- Students must have ONE annual TB test completed- Skin Test
  - QuantiFERON Gold, or T-SPOT (see instructions below if a test is positive)
  - Upload as “Annual TB Test”
- If a student’s annual TB test is not completed before expiration, the student will need to repeat baseline testing (two skin tests or one blood test)
- If test has a positive result, the student must have a chest x-ray. Results of the x-ray must be uploaded in CORE ELMS
  - If the chest x-ray is normal, the student does not need annual TB tests for the program unless they experience symptoms, have an exposure, or as required by a rotation site.
  - If the chest x-ray is abnormal, the student needs to be cleared by their physician or local health department. Students cannot be placed in a clinical training site without medical clearance.

Hepatitis B

- Students must provide documentation of a minimum of three (3) Hepatitis B vaccinations AND a positive titer
  - The three (3) vaccination series is administered at 0, 1, and 6 months.
- Titers can be drawn 30 days after the last vaccination
  - If a student titer is positive, the vaccination series is complete and the student does not need additional Hepatitis B vaccinations. Upload the positive titer results to CORE ELMS
  - If a student titer is negative: start a second series of vaccinations, and repeat a titer after each vaccine or at the end of the series of vaccines
    - If a student titer result is still negative, indicating the student is not immune to Hepatitis B, please contact Student Affairs for further instructions
Students have the option of receiving a two (2)-dose Heplisav-B series which can be completed within 4 weeks. A student can find providers here: https://www.heplisavb.com/pharmacy-finder#

III. Additional Information

The Centers for Disease Control (CDC) Recommended Vaccines for Health Care Workers can be found at:

Students will not be allowed to participate in clinical co-curricular education or attend experiential rotations if they have not completed a full series of vaccinations or cannot produce a positive titer. Please note, this process can sometimes take fourteen (14) months. Failure to comply with this requirement, may delay a student’s entry into the experiential education program, which will delay the student’s graduation. It is the student’s responsibility to follow through to complete this by the deadline. All titers, whether positive or negative, and all vaccinations must be uploaded into CORE ELMS as they are received to allow tracking of progress in completing this requirement.

Further information from the University regarding immunization requirements can be found at:
- https://studenthealth.utah.edu/services/immunizations/

The College of Pharmacy recognizes that there can be substantial emotions regarding personal preferences for vaccination. The College of Pharmacy and University of Utah Health strongly encourage ALL students to be fully vaccinated. This is important for ensuring a safe learning environment to all involved – students, faculty, staff, and visitors. In addition, maintaining up to date vaccinations ensures the health and safety of students and patients during the clinical, experiential education portion of the PharmD program.

Students who seek a vaccination exemption will not be judged, nor discriminated against by the College of Pharmacy. However, it is the STUDENT’S RESPONSIBILITY to comply with all University requirements to obtain an exemption from vaccination.

In addition, students who seek a vaccination exemption should expect there will be limitations in co-curricular activities, and experiential education sites available to them. The decision to accept a student for experiential learning is at the discretion of the clinical training site, and is beyond the control of the College of Pharmacy.

Your MMR, Varicella, and initial Two-step TB requirements are outlined in the Pre-Admission Student Immunization Requirements. Documentation of these must remain on file in CORE ELMS for your rotations.

The student must always meet the requirements of assigned rotation sites. This may differ from the College’s Immunization Requirements. It is the student’s responsibility that their requirements are always up to date in CORE ELMS and with the University of Utah’s Student Health Center.
Orientation Agreement

Dear Student:

As you embark on your career of becoming a pharmacist there are a few guidelines and issues that are covered in your Student Handbook but need to be reiterated here. By signing this letter, you are agreeing that you will, to the best of your ability, adhere to these guidelines/issues.

- I will notify the Student Affairs Office of any address, phone number, or e-mail changes in a timely manner in addition to updating the same on the Campus Information System, and in CORE ELMS.

- I will dress and act professionally when representing the College of Pharmacy.

- I understand that one of the Experiential Education rotations will be at a site outside of the Wasatch Front and I will make the necessary accommodations.

- I understand that the College of Pharmacy supports the University Drug-Free Workplace Policy and the University of Utah Health Sciences Center Drug Testing Policy.

- I understand that I may be placed on probation, suspended, or dismissed from the Professional Program for not maintaining satisfactory academic progress or violation of professional or ethical standards as described in this manual or in the University of Utah Student Code.

- I understand that it is my responsibility to read the Student Handbook and become familiar with the student standards of academic and professional performance:
  https://pharmacy.utah.edu/students/current-students/orientation-materials

- I understand that in order to establish the existence of a disability I must provide written documentation of the disability in the form of an evaluation by a qualified examiner to the Center for Disability and Access and the Student Affairs Office.

- I will provide proof of immunizations, and other documentation as needed to the Student Affairs Office in a timely manner.

- I will check my university email account a minimum of once daily and respond, when necessary, in a timely manner.

- I understand that the Executive Associate Dean for Professional Education (Dr. James Herron), Assistant Dean for Student Affairs (Jim Ruble), Associate Director of Student Services, (Shawna Webster) and/or the Senior Academic Advisor (Bill Carney) are available for consultation regarding curriculum or other issues.

- As a student at the University of Utah College of Pharmacy, photos, and videos of you may be used for educational, commercial, advertising, or other media purposes. The college reserves full rights to the media we produce, and the visual identity of the individuals involved in it.

- As a student of the University of Utah College of Pharmacy, photos and videos of you captured during College of Pharmacy educational activities may be used for educational, commercial, advertising, or other media purposes. The college reserves full rights to the media we produce, and the visual identity of the individuals involved in it.
